--------------------------------	---------------------------	---------------------	---	---

Products/Services: Jaedicke Consulting LLC provides clients with a rigorous approach to airport traffic forecasting and economic analysis based on extensive industry knowledge and a detailed understanding of aviation data sources. Elizabeth Jaedicke, the firm's founder and principal consultant, started the firm in 2018 after 14 years with top consulting firms serving airport, banking, and institutional clients on six continents. Jaedicke Consulting specializes in creating custom aviation traffic forecasts; we examine individual market drivers and tailor a forecast methodology to each airport. The ability to create a meaningful airport traffic forecast relies on knowing what approach to apply when and what data sources best serve as model inputs.

ReThinkit Strategies	Katia Chaban	585-202-9620	katchaban@gmail.com	www.rethinkitstrategies.com
Products/Services: WBE	Consulting Services: We help companies navigate the complexity of ESG and achieve sustainability goals. Combining our IT and Sustainability insights and experience, and through a circular lens, our goal is to help companies create the most effective sustainability strategies. We can execute a short or long-term engagement dependent on the unique journey of your business. This includes identifying the sustainability risks and issues facing your business, assessing your organization's value chain, including technology and supplier selections, determining what is material to the organization, and recommending the purposeful actions and strategies needed to meet your sustainability goals. Advisory Services: Drawing on diverse experiences and knowledge to provide guidance to support you in your sustainability journey to make you successful. Unlike a task-oriented consulting engagement, this role can be as involved in the organization as you need to help shape your goals, craft purposeful and impactful strategies, and work with you to create innovative solutions to challenges or barriers as sustainability becomes a norm in your organization.
