### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Part 1 of the EAF indicates the site contains or is near wetlands. The action is for sale of vacant tax foreclosed property. No construction or development is contemplated as the sale of this property does not permit any development or construction. Accordingly, no wetlands will be impacted by this sale. Any future development of this parcel will be subject to local zoning codes and building codes. Additionally, all Federal and New York State wetland regulations will apply to the parcel after sale and before construction.

Accordingly, no wetlands will be impacted from this sale and the action will not result in any significant adverse environmental impacts.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project consists of one site located at Webster Park, where a proposed dog park will be constructed. The project will see perimeter fencing established around the existing turf area, sidewalk and site patron improvements and a new .14 acre parking lot.

The parcel contains wetlands and those wetlands have been identified as federal wetlands. The proposed project is not located near any wetlands, thus there are no adverse impacts to wetlands anticipated.

The proposed project does occur within an archaeologically sensitive zone according to the New York State Historic Preservation Office. It is anticipated that there will not be a significant impact due to the limited disturbance required to construct the proposed parking area and other upgrades to accommodate the dog park.

The stormwater runoff from the new .14 acre parking lot will be directed to existing vegetated areas to allow that stormwater runoff to soak back into the ground. Disturbances of soil will be less than one acre in size and during construction, the use of soil erosion and sediment controls will be utilized during construction, therefore are no significant impacts anticipated.

Part 1 of the environmental assessment form (EAF) indicated that the parcel contains areas within the 100 year floodplain area. The proposed activities are not within the 100-year floodplain therefore, they will not be impacted.

There are no significant impacts from this project based on the information identified with in the EAF and supporting documentation provided by the Monroe County Department of Parks. Accordingly, Monroe County has determined that there will not be any significant adverse environmental impacts associated with the proposed action.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

**Subject:** Amend the 2022-2027 Capital Improvement Program and the 2022 Capital Budget to Add a Project Entitled "Webster Park Improvements," Authorize Financing for the Project, and Authorize a Contract with the Dormitory Authority of the State of New York

Honorable Legislators:

I recommend that Your Honorable Body amend the 2022-2027 Capital Improvement Program and the 2022 Capital Budget to add a project entitled "Webster Park Improvements" in the amount of \$250,000; authorize financing for the project in the amount of \$250,000; and authorize a contract with the Dormitory Authority of the State of New York in the amount of \$250,000.

The Monroe County Parks Department has worked with Assemblywoman Jennifer Lunsford to identify a project at Webster Park that will add a significant amenity to the park, which will be funded through a State and Municipal Facilities Program grant from New York State. The project will add an access-controlled dog park at Webster Park, adjacent to the existing campground. This new park will mirror and improve upon the two existing and extremely popular County Parks-operated dog parks at Ellison and Greece Canal parks.

This project is scheduled to be considered by the Monroe County Planning Board at its November 17, 2022 meeting.

**The specific legislative actions required are:**

1. Amend the 2022-2027 Capital Improvement Program to add a project entitled "Webster Park Improvements" in the amount of \$250,000.
2. Amend the 2022 Capital Budget to add a project entitled "Webster Park Improvements" in the amount of \$250,000.
3. Authorize financing for the project entitled "Webster Park Improvements" in the amount of \$250,000.
4. Authorize the County Executive, or his designee, to accept a grant in the amount of \$250,000 from, and to execute a contract and any amendments thereto with, the Dormitory Authority of the State of New York.

The provisions of the New York State Environmental Quality Review Act shall be complied with prior to Your Honorable Body undertaking, funding, or approving the actions requested in this referral.

Funding for this project consistent with authorized uses, will be included in the capital fund to be created and any other capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

**Subject:** Authorize a Contract with Schuler-Haas Electric Corp. for Construction Services for the Rochester Pure Waters District's Frank E. Van Lare Water Resource Recovery Facility Secondary Clarifier Improvements Project, Phase 2

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Schuler-Haas Electric Corp. in the amount of \$5,243,000 for construction services for the Rochester Pure Waters District's (the "District") Frank E. Van Lare Water Resource Recovery Facility ("FEV WRRF") Secondary Clarifier Improvements Project, Phase 2.

The District owns, operates, and maintains the FEV WRRF located at 1574 Lake Shore Boulevard in the City of Rochester. The FEV WRRF is an activated sludge sewage treatment facility originally constructed in the early 1900s. The secondary clarifier treatment system was added in the early 1970s. The FEV WRRF is currently permitted to treat 135 million gallons per day (MGD) of wastewater flow through full secondary treatment. Following biological treatment, the wastewater is conveyed to six (6), 145' diameter secondary clarifiers to separate and remove solids produced in the biological treatment process prior to the water being disinfected and discharged to Lake Ontario. One of the six clarifiers was improved as a "test clarifier" as Phase 1 of the Secondary Clarifier Improvements. The verified improvements installed in the test clarifier became the basis of design for Phase 2 clarifier equipment improvements. Phase 2 improvements include demolition and replacement of the clarifier mechanisms, baffles and weirs in the secondary clarifiers, installation of new drives on the clarifier mechanisms, replacement of ten (10) motor control centers, and electrical improvements in the clarifier pump stations and the recirculation pump station.

The following bids were received:

Schuler-Haas Electric Corporation	\$ 5,243,000
Concord Electric Corporation	\$ 7,465,000

The bids have been reviewed and Schuler-Haas Electric Corp. has been determined to be the lowest responsible bidder pursuant to General Municipal Law §103.

**The specific legislative action required** is to authorize the County Executive, or his designee, to execute a contract with Schuler-Haas Electric Corp., 240 Commerce Drive, Rochester, New York 14623, in the amount of \$5,243,000 for construction services for the Rochester Pure Waters District's Frank E. Van Lare Water Resource Recovery Facility Secondary Clarifier Improvements Project, Phase 2, and any amendments necessary to complete the project within the total capital fund(s) appropriation.

This action is a Type II Action pursuant to 6 NYCRR § 617(c)(1) (“maintenance or repair involving no substantial changes in an existing structure or facility”) and (2) (“replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building or fire codes, unless such action meets or exceeds any of the thresholds in section 617.4 of this Part”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract, consistent with authorized uses, is included in capital fund 1891 and any capital fund(s) created for the same intended purpose. No additional net county support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Schuler-Haas Electric Corp., nor any of its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firm are:

Daniel J. Streicher, President/CEO  
Edward T. Schuler, President/COO  
Nicholas Schuler, Officer

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Authorize a Contract with Fluent Consulting Corporation for the Provision of Energy Aggregation Group Management Services

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Fluent Consulting Corporation ("Fluent") for the provision of energy aggregation group management services for Monroe County ("the County") for the period of January 1, 2023 through December 31, 2023, with the option to renew for two (2) additional one-year periods upon mutual agreement of the parties. The cost to the County will be \$0.00065 per kilowatt-hour (kWh) of electricity and \$0.075 per decatherm (Dth) of natural gas.

Since 2001, the County has been authorized by the New York State Public Service Commission to operate as a municipal Direct Customer of the New York State Independent System Operators, Inc., which allows the County to procure natural gas and electricity for itself and members of a municipal energy aggregation group that currently includes seventeen (17) towns and villages, one school district, two fire districts, the Monroe County Water Authority, and the Rochester Genesee Regional Transit Authority. The energy aggregation group currently has approximately 1,400 accounts, about 600 of which belong to the County.

As part of this contract, Fluent will also monitor and schedule the daily nominations related to the County's natural gas and electric accounts as well as its aggregation pools to ensure that an adequate supply of reliable electricity and natural gas is delivered at the most cost-effective rate. Fluent will also provide back office accounting and invoicing support for the County and the aggregation group, as well as utility bill and tariff analysis on behalf of the aggregation group to ensure proper billing. The rates are \$0.00065 per kilowatt-hour (kWh) of electricity and \$0.075 per decatherm (Dth) of natural gas. The cost to the County, based on the current energy usage and number of accounts, will be approximately \$99,000 per year.

Fluent has performed this service for the County for over twenty years. A request for proposals was issued for this contract and Fluent was selected as the most qualified to provide these services.

**The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with Fluent Consulting Corporation, 325 Delaware Avenue, Suite 210, Buffalo, New York 14202, to provide energy aggregation group management services for Monroe County for the period of January 1, 2023 through December 31, 2023, with the option to renew for two (2) additional one-year periods upon mutual agreement of the parties. The cost to Monroe County will be \$0.00065 per kilowatt-hour (kWh) of electricity and \$0.075 per decatherm (Dth) of natural gas.**

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract is included in the proposed 2023 operating budgets of various County Departments, and will be requested in future years' budgets. The cost of these services is shared proportionately with the members of the energy aggregation group. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Fluent Consulting Corporation, nor its principal officer, Michael J. Mastroianni, President, owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Honorable Legislators:

I recommend that Your Honorable Body approve a request to establish an Increase and Improvement of Facilities in the Irondequoit Bay South Central Pure Waters District (the "District") in the amount of \$245,000 for a capital project entitled "Lake Ontario Resiliency & Economic Development Initiative (REDI) – Sandbar WWPS Project," and amend the 2023 Capital Budget and Bond Resolution 125 of 2020 to provide an increase in funding.

The total Increase and Improvement of Facilities in the District is comprised of the "General Pump Station and Interceptor Improvements" project (\$400,000) and the "Lake Ontario Resiliency & Economic Development Initiative (REDI) - Sandbar WWPS Project" (\$245,000) for a total estimated cost of the Increase and Improvement of Facilities in the amount of \$645,000. The "General Pump Station and Interceptor Improvements" project is under consideration by Your Honorable Body as a companion referral.

This project was presented to, and approved by, Your Honorable Body in 2020 (Resolution 124 of 2020) in conjunction with a \$250,000 grant from New York State. The project seeks to address flooding that occurs during high water events by protecting the building and its equipment at the Monroe County Department of Environmental Services Sandbar Wastewater Pump Station, which is located in Sandbar Park, a Town of Webster municipal park. The pump station is submersible but the adjacent control building, including a standby generator, is constructed at grade and is vulnerable to water intrusion from Irondequoit Bay.

The Town of Webster has completed design of the improvements, has bid the project, and the bids for the work received by the Town of Webster exceed the prior \$250,000 funding authorization from your Honorable Body (Resolution 125 of 2020). The Department of Environmental Services has reviewed the cost breakdown from the contractor's bid for the work as provided by the Town of Webster. The costs for the portion of the work related to the County's pump station are accurate and reasonable.

The estimated cost of the improvements is \$495,000, with \$250,000 previously authorized. The actual debt service obligation for the additional cost of the project, \$245,000, as projected in future years, could potentially result in an increase of \$0.13 to the future annual charges of the average District ratepayer. However, the actual impact is typically reduced through the retirement of previous debt and other offsets to the District's capital charge levy. Based on average, annual water consumption of 60,000 gallons, the total annual charge for both operation and maintenance and capital to the typical District ratepayer in 2022 is \$117.74.

**The specific legislative actions required are:**

1. Hold a Public Hearing for the proposed maximum amount to be expended for an "Increase and Improvement of Facilities in the Irondequoit Bay South Central Pure Waters District."
2. Following the Public Hearing, adopt a resolution approving the "Increase and Improvement of Facilities in the Irondequoit Bay South Central Pure Waters District" at the maximum amount to be expended.
3. Amend the 2023 Capital Budget to increase funding for the "Lake Ontario Resiliency & Economic Development Initiative (REDI) – Sandbar WWPS Project" by \$245,000, for a total authorization of \$495,000.
4. Amend Bond Resolution 125 of 2020 to increase the total estimated project cost and financing for the "Lake Ontario Resiliency & Economic Development Initiative (REDI) – Sandbar WWPS Project", capital fund 1977 by \$245,000, from \$250,000 to \$495,000, for a total project authorization of \$495,000, subject to the approval of the State Comptroller, if required.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(9) ("construction or expansion of a primary or accessory/appurtenant, non-residential structure or facility involving less than 4,000 square feet of gross floor area and not involving a change in zoning or a use variance and consistent with local land use controls, but not radio communication or microwave transmission facilities") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be available in capital fund 1977 once the additional financing authorization requested herein is approved and any capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by Pure Waters District user fees. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

I recommend that Your Honorable Body authorize contracts with the agencies listed in Attachment A in an amount not to exceed \$8,175,556 for the provision of senior services for the period of January 1, 2023 through March 31, 2024.

The Monroe County Office for the Aging enters into approximately forty-seven (47) contracts each year in amounts over \$20,000, with matching funds provided by the County, the United Way, contracted agencies, and participant contributions. These contracts will allow the Monroe County Office for the Aging to meet the long-term care service and support needs of older adults, persons with disabilities, and their informal family caregivers to achieve their highest level of independence. The Monroe County Office for the Aging also enters into intermunicipal agreements with various local municipalities to provide nutrition and senior center recreation and education services. Services provided directly correspond to the assessed needs and service objectives of the Office for the Aging's Annual Implementation Plan as required and approved by the New York State Office for the Aging ("NYSOFA").

Per our applications for services with NYSOFA, contracts are monitored and evaluated through several methods: 1) monthly program and expenditure reports; 2) on-site monitoring, and 3) annual evaluation. All contracted agencies have been selected through the use of Requests for Qualifications/Request for Proposals unless designated as a Sole Source Provider.

Please refer to the attached Purchase of Services Information Form for disclosure of information required pursuant to Resolution 223 of 2007, as amended by Resolution 11 of 2008.

2. Authorize the County Executive, or his designee, to execute any applications, intermunicipal agreements and amendments thereto, with New York State and/or municipalities listed in Attachment A to increase or decrease the contract amounts and extend the length of the contract(s) in order to maximize state reimbursement or other funding for these purposes.

3. Authorize the County Executive to appropriate any subsequent years of these funds in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.
4. Should funding of these programs be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program(s) and where applicable, to terminate or abolish some or all positions funded under such program(s). Any termination or abolishment of positions shall be in accordance with the New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for these contracts is included in the proposed 2023 operating budget of the Monroe County Department of Human Services, Office for the Aging, general fund 9001, funds centers 5501010000, Administration and Program Management; 5501030000, Support Service Contracts; 5501040000, Nutrition Service Contracts; and 5501050000, Education, Training, Wellness Contracts. ### *Short Environmental Assessment Form Part 3 Determination of Significance*

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Monroe County is providing funding from NYS Office of Addiction Services and Supports ("OASAS") for a capital project for an inpatient detox facility located at 1850 Brighton-Henrietta Townline Road, Rochester, New York. The capital project will include the addition of a patio on the northwest side of the existing building, the construction of an outdoor passive recreation area with walking trails, and existing lights will be replaced with LED fixtures. The existing site is surrounded by light industrial and retail facilities, with a wooded parcel to the rear that is proposed for the walking trail and passive recreation area. Such activity is consistent with the intensity, existing community character, and natural resources described above.

To the rear of the parcel is a State Superfund Site that has been remediated based on its anticipated use, as mixed light manufacturing and commercial office space, however no access restrictions to the facility are listed. Exposure to contaminated groundwater is not expected as the area is served by public water, contaminated soil and sediment have been removed. Physical barriers to control migration of contaminated groundwater have been installed and Remedial measures have reduced the potential for exposure to site-related contaminants. Accordingly, the installation of passive recreation trails on the surface of adjacent parcels will not increase the potential for exposure to site-related contaminants.

Additionally, the site is served by local public transportation and is just over one (1) mile from the Northern Spur of the Lehigh Valley Trail that connects the Town of Henrietta and RIT to an extensive trail network criss-crossing Monroe County, including; the Erie Canal, the Genesee Riverway Trail, and the Genesee Valley Greenway.

The above proposed action will not result in any significant adverse environmental impacts.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Additionally, Monroe County Office of Mental Health advances payments to provider agencies throughout the year. At the end of the year, the providers are required to submit a Consolidated Fiscal Report ("CFR") to New York State Office of Mental Health ("NYSOMH"). Once NYSOMH receives and analyzes each provider's CFR, it may be determined that the Monroe County Office of Mental Health either overpaid or underpaid providers. In instances where a provider was overpaid, the County issues a credit memo, in instances where a provider was underpaid, a contract amendment is required. 4. Authorize the County Executive to appropriate any subsequent years of these funds in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.
5. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with the New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

Helio Health, Inc.'s capital project has been primarily classified as an Unlisted Action under the New York State Environmental Quality Review Act ("SEQRA"). The provisions of SEQRA shall be complied with prior to Your Honorable Body undertaking, funding, or approving this action.

The Consolidated Fiscal Report is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.
