To whom it may concern,

Ironworkers Local 33 fully supports Rochester's MAPP program. MAPP is a training program for people to learn building trade basics and become successful workers in our industry. We have had great success hiring qualified people from this program and entering them into our apprenticeship. The MAPP trainees that are enrolled in our apprenticeship are prospering and succeeding in our program. Some are nearing the completion of their apprenticeship and are set to graduate to Journeyman Ironworkers. The MAPP program plays a big role in helping the building trades diversify our workforce and has been a successful partnership. The leaders of the MAPP program are professional, highly qualified, and are experts in their craft. The ability to motivate their students to achieve a higher standard for their future is unmatched. We share their passion of bringing Rochester's residents out of poverty.

Sincerely,

Scott Gardner
