August 8, 2022

To The Honorable  
Monroe County Legislature  
39 West Main Street  
Rochester, NY 14614

**RE: Requesting the New York State Legislature and the Governor Implement the New York State Climate Action Council Scoping Plan**

Honorable Legislators,

The Sixth Assessment of the International Panel on Climate Change (IPCC) finds that climate change is causing dangerous widespread disruption in nature and affecting the lives of billions of people around the world. This IPCC assessment concluded that rapid, deep, and sustained reductions in global greenhouse gas emissions (GHG) are necessary, including accelerated action in this critical decade, to limit global warming to within 1.5 °C and 2°C in this century.

New York State has recognized the urgent need to reduce and eliminate GHG emissions in the atmosphere, passing the 2019 Climate Leadership and Community Protection Act (“Climate Act”) committing the State to:

- Reduce GHG emissions by 40 percent by 2030 below 1990 levels, and achieve net-zero emissions by 2050;
- Meet 70 percent of electricity needs from renewable resources by 2030, and 100 percent of electricity needs from zero-emissions resources by 2040;
- Ensure a just and equitable transition that leaves no one behind, and dedicate up to 40 percent of the benefits of clean energy investments to Disadvantaged Communities; and

The New York State Climate Action Council has approved for public comment a Draft Scoping Plan to meet New York’s climate and equity goals. This plan calls for shifting to energy-efficient electrification in buildings and transportation as the primary solution to replace

fossil-fuel combustion in these sectors, which together account for 60% of the state's carbon emissions. While ensuring support and protections for impacted workers as they transition to clean energy jobs, the Scoping Plan calls for a phase-down of emissions from fossil fuel-fired electricity generation. The 2021 Jobs Study by the Just Transition Working Group for the NYS Climate Action Council estimates that meeting New York's climate goals will result in a net gain of 189,000 jobs across the state by 2030, alone, with a ratio of jobs gained to jobs displaced of ten to one (10:1).

Measures to expand the development of renewable resources and battery storage, encourage "agrivoltaics," or the co-location of agricultural activities with solar and wind, and provide resources to communities to assist with renewable siting and land-use planning are all included in the Scoping Plan. Recognized in the Scoping Plan is also the critical role that rural landscapes play, both natural and working lands, in sequestering carbon emissions and enabling the state to achieve net-zero emissions, and the importance of agricultural land preservation, open space protection, support for farmers to improve soil health, and policies that expand afforestation and reforestation and incentivize and assist private landowners in implementing sustainable forest management practices.

The Integration Analysis for the Scoping Plan finds that meeting emissions reduction goals of the Climate Act is technically feasible and will have the additional and significant benefit of improving public health by eliminating co-pollutants from fossil fuel combustion, resulting in an estimated \$50 billion to \$120 billion in health-related savings by 2050. According to NYSERDA, over half of what New Yorkers currently spend on energy leaves the State, mostly for fossil fuels. Our communities would be better served by keeping energy spending primarily within the local economy.

Given all of the aforementioned information, the Monroe County Legislature affirms the critical importance of meeting the emissions and equity goals of the Climate Act, which will help mitigate dangerous warming while delivering the additional benefits of improving public health, economic opportunities, agricultural land open space protection, and quality of life for the people of Monroe County. Support for prohibiting an expansion of fossil-fuel infrastructure, which contradicts the goals of the Climate Act, is necessary. And instead supporting the transition to efficient electricity-based solutions for buildings and transportation. As well as a planning process for a managed transition of the utility gas system that maintains affordable, safe, and reliable utility service and protects low- and moderate- income households from an undue burden in the transition.

The Scoping Plan also recommends advanced building codes that will improve the energy efficiency of new buildings, creating healthier living and work environments, while reducing monthly energy costs. As well as the recommendation to phase in code requirements prohibiting on-site combustion of fossil-fuels in new buildings over a 2024-2027 period. Both of these recommendations must be supported by the Legislature.

The Monroe County Legislature calls on the Climate Action Council to include in the Scoping Plan the necessary policies and support to help owners of existing buildings improve

energy efficiency and transition to zero-emissions equipment, ensuring cost parity with fossil systems, with incentives and financing assistance as necessary. The Legislature also urges the Climate Action Council to include in the Scoping Plan recommendations to expand assistance for all-electric upstate municipal transit systems. As well as the recommendation to make electric vehicles more affordable relative to gas-powered vehicles.

The Monroe County Legislature further urges the New York State Department of Environmental Conservation and NYSERDA to immediately launch a sustained statewide public education and information campaign on the benefits of a clean energy economy and climate-friendly choices by consumers of heating and cooling systems, transportation, and products and appliances.

The Monroe County Legislature urges the New York State Legislature and Governor to implement this plan along with the Commissioner of the NYS Department of Environmental Conservation, President of NYSERDA, and the Chair of the NYS Public Service Commission, knowing that taking action on this matter is paramount for the vitality of Monroe County and its residents.

# Office of the County Executive

Monroe County, New York

Adam J. Bello  
County Executive

August 5, 2022

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Sale of County Owned Tax Foreclosure Property Located at 58 Laurelhurst Road in the Town of Greece

Honorable Legislators:

I recommend that Your Honorable Body determine whether the sale of County owned tax foreclosure property located at 58 Laurelhurst Road in the Town of Greece may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

The proposed sale is as follows:

<u>Parcel</u>	<u>Offeror</u>	<u>Offered Amount</u>
58 Laurelhurst Road TA # 074.13-1-17 Town of Greece	Marcus V. Kratts & Katie Lynn Kratts 212 Saddlehorn Drive Rochester, New York 14626	\$12,000

This vacant land was acquired January 30, 2019 through tax foreclosure, is surplus property, and is not needed by Monroe County. The price indicated above was negotiated by Monroe County Real Estate.

The sale of County owned tax foreclosure property located at 58 Laurelhurst Road in the Town of Greece has been preliminarily classified as an Unlisted action. The SEQRA regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

1. Determine that the sale of County owned tax foreclosure property located at 58 Laurelhurst Road in the Town of Greece is an Unlisted Action.

2. Make a determination of significance regarding the sale of County owned tax foreclosure property located 58 Laurelhurst Road in the Town of Greece pursuant to 6 NYCRR § 617.7.
3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

## Short Environmental Assessment Form

### Part 1 - Project Information

#### Instructions for Completing

**Part 1 – Project Information.** The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

<b>Part 1 – Project and Sponsor Information</b>			
Name of Action or Project: Sale of Tax Foreclosed Property in the Town of Greece.			
Project Location (describe, and attach a location map): 58 Laurelhurst Road, Greece, NY. Tax ID Number 074.13-1-17			
Brief Description of Proposed Action: Sale of Tax Foreclosure property located at 58 Laurelhurst Road in the Town of Greece.			
Name of Applicant or Sponsor: Monroe County		Telephone: 585-753-1233	
		E-Mail:	
Address: 39 West Main Street			
City/PO: Rochester		State: NY	Zip Code: 14614
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			NO <input type="checkbox"/>
			YES <input type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval:			NO <input type="checkbox"/>
			YES <input type="checkbox"/>
3. a. Total acreage of the site of the proposed action?		0.117 acres	
b. Total acreage to be physically disturbed?		0.00 acres	
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?		0.117 acres	
4. Check all land uses that occur on, are adjoining or near the proposed action:			
5. <input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input checked="" type="checkbox"/> Residential (suburban)

**Short Environmental Assessment Form  
 Part 2 - Impact Assessment**

**Part 2 is to be completed by the Lead Agency.**

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing: a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Project: \_\_\_\_\_

Date: \_\_\_\_\_

**Short Environmental Assessment Form  
Part 3 Determination of Significance**

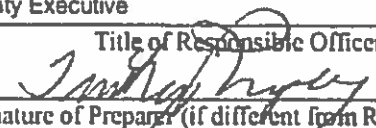

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The action is for the sale of the property and does not include the physical alteration nor disturbance of the property. Part 1 of the EAF indicates the site contains or is near the following: archaeological resources.

According to the New York State Cultural Resource Inventory System (CRIS) this action is not an action subject to review as no construction or disturbance is involved in this property transfer. Future actions that involve disturbance may be subject to environmental review, including cultural review at that time.

The sale of this property does not include physical disturbance or development of the parcel and will not result in any significant adverse environmental impacts.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

WAYS & MEANS -L

August 5, 2022

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Authorize the Sale of County Owned Property Located at 58 Laurelhurst Road in the Town of Greece

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract to sell County owned property located at 58 Laurelhurst Road in the Town of Greece as follows:

Table with 3 columns: Parcel, Offeror, Offered Amount. Row 1: 58 Laurelhurst Road, TA # 074.13-1-17, Town of Greece; Marcus V. Kratts & Katie Lynn Kratts, 212 Saddlehorn Drive, Rochester, New York 14626; \$12,000

This vacant land parcel was acquired January 30, 2019, is surplus property, and is not needed by Monroe County. The price indicated above was negotiated by Monroe County Real Estate.

The specific legislative action required is to authorize the County Executive, or his designee, to enter into a contract with the above referenced offeror, to sell the real property identified by tax account number 074.13-1-17 and to execute all documents necessary for the conveyance, for the purchase price set forth above.

The provisions of the New York State Environmental Quality Review Act shall be complied with prior to Your Honorable Body undertaking, funding, or approving the action requested in this referral.

This contract is revenue generating and no net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that the offeror listed above does not owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,
Adam J. Bello

**Subject:** Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Sale of County Owned Tax Foreclosure Property Located at 75 Capen Road in the Town of Sweden

Honorable Legislators:

I recommend that Your Honorable Body determine whether the sale of County owned tax foreclosure property located at 75 Capen Road in the Town of Sweden may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

The proposed sale is as follows:

<u>Parcel</u>	<u>Offeror</u>	<u>Offered Amount</u>
75 Capen Road TA # 113.01-1-39 Town of Sweden	Judah B. Westby 506 Rushton Road York, Ontario, M6C2Y3, Canada	\$12,000

This vacant land was acquired January 31, 2017 through tax foreclosure, is surplus property, and is not needed by Monroe County. The price indicated above was negotiated by Monroe County Real Estate.

The sale of County owned tax foreclosure property located at 75 Capen Road in the Town of Sweden has been preliminarily classified as an Unlisted action. The SEQRA regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

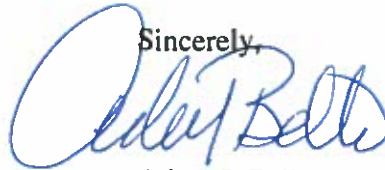

1. Determine that the sale of County owned tax foreclosure property located at 75 Capen Road in the Town of Sweden is an Unlisted Action.

2. Make a determination of significance regarding the sale of County owned tax foreclosure property located 75 Capen Road in the Town of Sweden pursuant to 6 NYCRR § 617.7.
3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Part 1 / Question 13a [Wetlands or Other Regulated Waterbodies]	Yes - Digital mapping information on local and federal wetlands and waterbodies is known to be incomplete. Refer to EAF Workbook.
Part 1 / Question 15 [Threatened or Endangered Animal]	No
Part 1 / Question 16 [100 Year Flood Plain]	No
Part 1 / Question 20 [Remediation Site]	No

Project: 75 Capen Drive

Date: 2022.06.22

**Short Environmental Assessment Form**  
**Part 2 - Impact Assessment**

**Part 2 is to be completed by the Lead Agency.**

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:		
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (c.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Part 1 of the EAF indicates the site contains or is near wetlands. The action is for sale of vacant tax foreclosed property. No construction or development is contemplated as the sale of this property does not permit any development or construction. Accordingly, no wetlands will be impacted by this sale. Any future development of this parcel will be subject to local zoning codes and building codes. Additionally, all Federal and New York State wetland regulations will apply to the parcel after sale and before construction.

Accordingly, no wetlands will be impacted from this sale and the action will not result in any significant adverse environmental impacts.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Legislature Of
Monroe County
Committee Assignment
WAYS & MEANS -L

August 5, 2022

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Authorize the Sale of County Owned Property Located at 75 Capen Road in the Town of Sweden

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract to sell County owned property located at 75 Capen Road in the Town of Sweden as follows:

Table with 3 columns: Parcel, Offeror, Offered Amount. Row 1: 75 Capen Road, Judah B. Westby, \$12,000.

This vacant land parcel was acquired January 31, 2017, is surplus property and is not needed by Monroe County. The price indicated above was negotiated by Monroe County Real Estate.

The specific legislative action required is to authorize the County Executive, or his designee, to enter into a contract with the above referenced offeror, to sell the real property identified by tax account number 113.01-1-39 and to execute all documents necessary for the conveyance, for the purchase price set forth above.

The provisions of the New York State Environmental Quality Review Act shall be complied with prior to Your Honorable Body undertaking, funding, or approving the action requested in this referral.

This contract is revenue generating and no net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that the offeror listed above does not owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,
Adam J. Bello
Monroe County Executive

<b>Committee Assignment</b>
<b>PLAN &amp; EC DEV -L</b>
<b>WAYS &amp; MEANS</b>

August 5, 2022

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

Subject: Acceptance of a Grant from the New York State Department of Agriculture and Markets for an Update to Monroe County's Agriculture and Farmland Protection Plan

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the New York State Department of Agriculture and Markets in the amount of \$50,000 for an update to Monroe County's Agriculture and Farmland Protection Plan for the period of January 4, 2021 through December 31, 2024.

Monroe County's last Agricultural and Farmland Protection Plan was adopted over 20 years ago. An updated Agricultural and Farmland Protection Plan will be a blueprint that guides decision-making for the County, municipalities, landowners, farmers, farm support agencies and organizations, and business owners to ensure that farming continues as a way of life for Monroe County residents and that county residents can enjoy the benefits that come from having valuable, highly productive farmland within Monroe County. The Plan will focus on updating the County's 1999 Agriculture and Farmland Protection Plan as well as developing a soil-to-table system approach to agriculture and farmland protection.

**The specific legislative actions required are:**

1. Authorize the County Executive, or his designee, to accept a \$50,000 grant from, and to execute a contract and any amendments thereto with, the New York State Department of Agriculture and Markets for an update to Monroe County's Agriculture and Farmland Protection Plan for the period of January 4, 2021 through December 31, 2024.

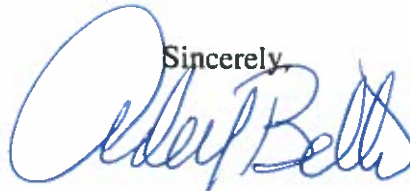

2. Amend the 2022 operating budget of the Department of Planning and Development by appropriating the sum of \$50,000 into general fund 9300, funds center 1401010000, Planning Services.
3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.
4. Should funding for this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(24) (“information collection including basic data collection and research, water quality and pollution studies, traffic counts, engineering studies, surveys, subsurface investigations and soils studies that do not commit the agency to undertake, fund or approve any Type I or Unlisted action”) and (27) (“conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action”) and is not subject to further review under the State Environmental Quality Review Act.

This grant requires a \$10,000 cash match in addition to in-kind services from existing County staff. Funding is included in the 2022 operating budget of the Department of Planning and Development, general funds 9001 and 9300, funds center 1401010000, Planning Services.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

August 5, 2022

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

**Subject:** Confirmation of the Reappointment of the Commissioner of Public Health

Honorable Legislators:

I recommend that Your Honorable Body confirm the reappointment of Michael Mendoza M.D., M.P.H, M.S., FAAFP as the Commissioner of Public Health, pursuant to Section C2-6(C)(9) of the Monroe County Charter.

Dr. Mendoza has served as Monroe County's Commissioner of Public Health since 2017. During his tenure, he has led the Monroe County Department of Health in our fight against COVID-19 and the opioid epidemic, in addition to continuing to provide vital services in disease prevention, environmental health, and nursing services. He is a distinguished medical professional and a recognized leader in the field of public health. A copy of Dr. Mendoza's resume is attached for your review.

**The specific legislative action required is to confirm the reappointment of Michael Mendoza M.D., M.P.H, M.S., FAAFP as the Monroe County Commissioner of Public Health pursuant to Section C2-6(C)(9) of the Monroe County Charter for a six (6) year term to commence on January 1, 2023.**

No additional net county support is required in the current Monroe County budget.

I recommend this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

*Founding Member, 2005*  
*Membership Benefits Committee Chair, 2005-2007*

Pisacano Leadership Foundation  
*Local Area Interviewer, 2006*

Society of Teachers of Family Medicine  
*Education Committee, 2010-2015*  
*STFM Student Scholarship Subcommittee Chair, 2011-2015*  
*Leading Change Task Force, 2014-present.*  
*Leading Change Fellowship, Co-Director, 2015-2017*

The Primary Care Team, Learning from Effective Ambulatory Practice  
*Team Guide Advisory Committee, 2015-2017*

### Regional & State

American Medical Student Association  
*Region VI Trustee (IL, WI, IN), 1998-1999*

Committee of Interns and Residents  
*Regional Vice President – Northern California, 2003-2004*

New York State Department of Health, SIM-SHIP Integrated Workgroup  
*Member, 2015-2017*

Accountable Health Partners  
*Quality Committee, 2014-present*

New York Academy of Family Physicians  
*Leadership Commission Member, 2015-2016*

---

New York State Association of County Health Officials (NYSACHO)  
*Board of Directors, 2020-present*  
*Chair, Emerging Issues Committee, 2022-present*

Local / Community

Committee of Interns and Residents, San Francisco, CA  
*Local Hospital Delegate, 2003-2004*

Chicago Area Schweitzer Fellowship  
*Advisory Council, 2006-2014*  
*Fellows for Life, 2006-present*  
*Fellowship Selection Committee, 2006-2014*  
*Leadership Award Selection Committee, 2015*

Monroe County Medical Society, Rochester, NY  
*Coronary Artery Disease Guideline Panelist, 2013*

Center for Community Health, University of Rochester, Rochester, NY  
*Community Health Workgroup Member, 2013-2015*

Accountable Health Partners, Rochester, NY  
*Quality Committee, 2014-present*  
*Primary Care Advisory Committee, 2016-present*

Common Ground Health  
*Board of Directors, 2016-present*

Greater Rochester Regional Health Information Organization (GR-RHIO)  
*Board of Directors, 2016-present*

Environmental Health Community Advisory Board  
*Chairperson, 2016-present*

Community Advisory Council, UR Medicine Clinical Translational Science Institute  
*Member, 2016-present*

Willow Domestic Violence Center of Rochester  
*Chair, Board of Directors 2022-present*  
*Vice Chair, Board of Directors, 2020-2021*  
*Chair, Strategic Planning Subcommittee, 2019-present*  
*Board of Directors, 2018-present*

Center for Youth  
*Advisory Board Member, 2019-present*

Institutional / Departmental

The University of Chicago  
*Task Force on the Quality of Student Experience, 1994-1996*  
*Task Force on Volunteerism and Community Service, 1995-1996*  
*Five-Year Class Reunion Chair, 2000-2001*  
*Ten-Year Class Reunion Co-Chair, 2005-2006*  
*Fifteen-Year Class Reunion Committee Member, 2010-2011*  
*Undergraduate Interviewer, 2001-2005, 2009-2018*

University of Illinois at Chicago  
*Committee on Smoking Policy, 2000-2001*  
*Committee on Educational Programs, 2000-2001*

University of California, San Francisco, Department of Family and Community Medicine  
*Resident Duty Hours Subcommittee, 2002-2003*  
*Medical Student Interest in Family Medicine Task Force, 2004*  
*Resident Selection Committee, 2002-2005*

University of California, San Francisco, School of Medicine  
*Graduate Medical Education Committee, 2004-2005*  
*Residents' Council, 2004-2005*

San Francisco General Hospital - Family Health Center  
*Management Team, 2004-2005*

Access Community Health Network, Chicago, IL  
*Quality Improvement Committee, 2005-2007*

Chicago Family Health Center, Chicago, IL  
*Physician Champion, Diabetes Health Disparities Collaborative, 2007-2009*

University of Rochester Medical Center  
*Ambulatory Subject Matter Expert, eRecord (Epic EMR) implementation, 2010-2016*  
*Ambulatory SuperUser, eRecord, 2011-2012*  
*Epic/eRecord Clinical Informaticist, 2012-2016*  
*ePARC Clinical Advisory Group, 2015-2016*

University of Rochester Medical Faculty Group  
*Clinical Advisory Committee, Telehealth, 2015*

University of Rochester, Department of Family Medicine  
*Executive Committee, 2009-2016*

Highland Hospital, Rochester, NY  
*Clinical Compliance Committee, 2009-2016*

Highland Family Medicine, Rochester, NY  
*Operations Committee, 2009-2012*  
*Suite Leaders / Operations Committee, Chairperson, 2009-2016*  
*Practice Management Team, 2012-2016*  
*Quality Improvement Committee, 2009-2016*  
*eRecord (Epic Ambulatory) Improvement Team, Chairperson, 2012-2016*  
*eRecord Super User, 2012-2016*

University of Rochester, School of Medicine and Dentistry  
*Alpha Omega Alpha Honor Society, Selection Committee, 2017-present*  
*Distinction in Community Health, Selection Committee, 2018-2020*

#### EDITORIAL AND REVIEWER ASSIGNMENTS IN PROFESSIONAL JOURNALS

2006-present      Peer Reviewer, *McMaster Online Rating of Evidence*

2008-present      Peer Reviewer, *Annals of Family Medicine*

2009-present      Peer Reviewer, *Journal of Family Practice*

2010-present	Peer Reviewer, "Diabetes, Type 2, Self-Management", DynaMed
2011-2015	Peer Reviewer, <i>Progress in Community Health Partnerships: Research, Education, and Action</i>
2011-2016	Peer Reviewer, <i>Family Physicians Inquiries Network</i>
2013-2014	Associate Editor, <i>Cochrane Clinical Answers, The Cochrane Collaboration</i>
2014-present	Peer Reviewer, <i>Family Systems &amp; Health</i>
2015-present	Editorial Board, <i>Journal of Family Practice</i>

<b>WAYS &amp; MEANS</b>

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

**Subject:** Authorize a Contract with St. John Fisher University Wegmans School of Pharmacy for Support of the Public Health Pharmacy Fellowship Program at the Monroe County Department of Public Health

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with St. John Fisher University Wegmans School of Pharmacy in an amount not to exceed \$34,000 for support of the Public Health Pharmacy Fellowship Program at the Monroe County Department of Public Health ("DPH") for the period of July 1, 2022 through June 30, 2023, with the option to renew for one (1) additional year at the rate of \$34,000 annually.

Under the terms of this contract, the DPH will provide a two-year fellowship term for one pharmacist. During the fellowship, the knowledge and skills of the fellow, who will be selected by the DPH from candidates vetted by St. John Fisher University and then maintained under the St. John Fisher University Human Resources and School of Pharmacy Departments, will be enhanced and expanded through this additional education in the specialized field of public health. The fellowship will provide opportunities to learn, in part, about population health, clinical aspects of public health communication, and community education, outreach and engagement.

To establish the fellowship, the DPH must partner with an institution that offers graduate pharmacist education programs. It has been determined that St. John Fisher University Wegmans School of Pharmacy is a sole source provider for the pharmacy doctorate program in Monroe County.

**The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with St. John Fisher University Wegmans School of Pharmacy, 3690 East Avenue, Rochester New York 14618, for support of the Public Health Pharmacy Fellowship Program at the Monroe County Department Public Health in an amount not to exceed \$34,000 for the period of July 1, 2022 through June 30, 2023, with the option to renew for one (1) additional year at the rate of \$34,000 annually.**

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract is included in the 2022 operating budget of the Department of Public Health, general fund 9001, funds center 5801010000, Public Health Commissioner, and will be requested in future years’ budgets. No additional net County support is required in the current Monroe County budget.

St. John Fisher University Wegmans School of Pharmacy is a not-for-profit entity, and the records in the Office of the Monroe County Treasury have indicated that it does not owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

**Subject:** Acceptance of a Grant from the New York State Department of Health for the Beach Monitoring and Notification Program f/k/a Beach Act Program

Honorable Legislators:

I recommend that Your Honorable Body accept a five-year grant from the New York State Department of Health in an amount not to exceed \$25,000 for the Beach Monitoring and Notification Program, formerly known as the Beach Act Program, for the period of October 1, 2021 through September 30, 2026.

The purpose of this grant is to support the water quality monitoring program for the swimming areas at Ontario Beach and Durand Eastman Beach. Monroe County currently monitors the suitability of the swimming areas at these beaches and will continue this effort to comply with New York State and Federal regulations. Funds will be used to support a portion of the salary and benefits of existing positions. This will be the twentieth year the County has received this grant. This year's funding represents an increase of \$245 from the previous twelve month period.

**The specific legislative actions required are:**

1. Authorize the County Executive, or his designee, to accept a grant in an amount not to exceed \$25,000 from, and to execute a contract and any amendments thereto with, the New York State Department of Health for the Beach Monitoring and Notification Program, formerly known as the Beach Act Program, for the period of October 1, 2021 through September 30, 2026.
2. Amend the 2022 operating budget of the Department of Public Health by appropriating the sum of \$5,000 into general fund 9300, funds center 5806010000, Environmental Health Administration.
3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.

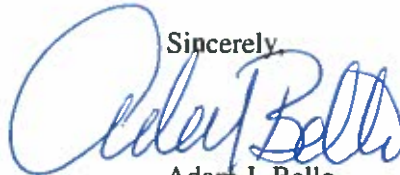

4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

This grant is 100% funded by the New York State Department of Health. No net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

**Subject:** Acceptance of a Grant from Health Research, Inc. for the Overdose Data to Action Program

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from Health Research, Inc. in an amount not to exceed \$172,000 for the Overdose Data to Action Program for the period of September 1, 2022 through August 31, 2023.

The purpose of this grant is to conduct activities necessary to follow up with individuals who are living with opioid use disorder within Monroe County. The funding will provide outreach services to these individuals, including assistance with linking them to care and providing continued recovery support. Funds will be used to provide partial funding for salaries and benefits of staff, required staff training, contractual services, and other program costs. This will be the fourth year Monroe County has received this grant. This years' funding represents the same amount as last year. However, an additional \$100,000 in restricted New York State Department of Health emergency placeholder funding is included to award additional funds quickly if they become available.

**The specific legislative actions required are:**

1. Authorize the County Executive, or his designee, to accept a grant in an amount not to exceed \$172,000 from, and to execute a contract and any amendments thereto with, Health Research, Inc. for the Overdose Data to Action Program for the period of September 1, 2022 through August 31, 2023.
2. Amend the 2022 operating budget of the Department of Public Health by appropriating the sum of \$72,000 into general fund 9300, funds center 5809010000, Epidemiology and Disease Control.
3. Authorize the County Executive, or his designee, to appropriate up to \$100,000 in additional restricted New York State Department of Health emergency placeholder funding upon approval by New York State.

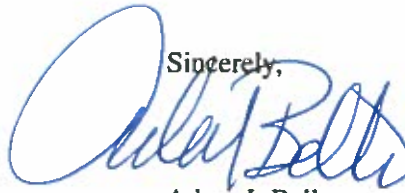

4. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.
5. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act.

This grant is 100% funded by Health Research, Inc. No net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

**Subject:** Acceptance of a Grant from the United States Department of Justice, Office of Justice Programs, for the 2021 DNA Capacity Enhancement Program

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the United States Department of Justice, Office of Justice Programs in the amount of \$436,734 for the 2021 DNA Capacity Enhancement Program for the period of October 1, 2021 through September 30, 2023.

The purpose of the DNA Capacity Enhancement Program is to increase the capabilities of the Monroe County Crime Laboratory DNA analysis section by providing supplies for casework, mandatory continuing education in human identification science, maintenance of equipment and expenses related to the continued accreditation of the Laboratory. This program allows the Laboratory to provide more timely services to the region's law enforcement community and judicial system. This is the sixteenth year that the County has received this grant. This year's funding represents an increase of \$97,338 from the previous grant.

**The specific legislative actions required are:**

1. Authorize the County Executive, or his designee, to accept a \$436,734 grant from, and to execute a contract and any amendments thereto with, the United States Department of Justice, Office of Justice Programs for the 2021 DNA Capacity Enhancement Program for the period of October 1, 2021 through September 30, 2023.
2. Amend the 2022 operating budget of the Monroe County Department of Public Safety by appropriating the sum of \$436,734 into general fund 9300, funds center 2408040100, Monroe County Crime Laboratory.

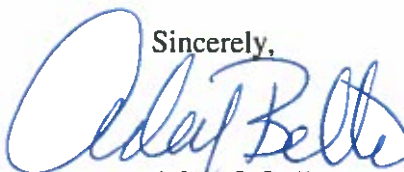

3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within grant guidelines to meet contractual commitments.
4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5 (c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act.

This grant is 100% funded by the United States Department of Justice, Office of Justice Programs. No net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

**Subject:** Authorize a Contract with Christa Construction, LLC for Construction Management Services for the Frontier Field Seating & Caulking Project and Facility & Patron Improvements Project

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Christa Construction, LLC in the amount of \$755,007 for construction management services for the Frontier Field Seating & Caulking Project and Facility & Patron Improvements Project.

Frontier Field Stadium located between Morrie Silver Way, Plymouth Avenue and Interstate I-490 in the City of Rochester, is an outdoor stadium that was originally opened in 1996. Frontier Field is home to the Rochester Red Wings Minor League Baseball team and hosts multiple events year round including festivals, concerts, sporting, and other special events.

Improvements to various components of the stadium facility are required due to the age of the facility. In addition to seating and caulking improvements, the Frontier Field Facility & Patron Improvements Project involves the construction of phased improvements to various facility elements such as site and structure repairs, new mechanical, electrical and plumbing facilities, a new kitchen facility, new decks and patios, concourse elements, and outfield patron improvements.

A Request for Proposals was issued, with Christa Construction, LLC selected as the most qualified to perform these services.

**The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with Christa Construction, LLC, 64 Commercial Street, Suite 401, Rochester, New York 14614, in the amount of \$755,007 for construction management services for the Frontier Field Seating & Caulking Project and Facility & Patron Improvements Project, and any amendments necessary to complete the projects within the total capital fund(s) appropriation.**

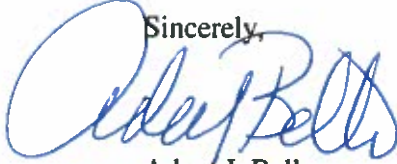

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(1) (“maintenance or repair involving no substantial changes in an existing structure or facility”) and (2) (“replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract, consistent with authorized uses, is included in capital funds 2027, 2044, and any capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Christa Construction, LLC, nor any of its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firm are:

Michael J. Seaman, President  
David Mattucci, Executive Vice President  
Gail Morelle, Vice President

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,  
  
Adam J. Bello

Subject: Adoption of the Monroe County Climate Action Plan Phase I

Honorable Legislators:

We recommend that Your Honorable Body adopt the Monroe County Climate Action Plan Phase I.

As you are aware, Monroe County has been a leader in innovative sustainability policy that has been both environmentally friendly and cost effective. Protecting our environment is key to maintaining our quality of life and preserving our natural resources. In order to continue our leadership, we must strengthen our plans and further our objectives. Therefore, it is prudent to adapt a framework for actions to improve our sustainability, reduce emissions, strengthen our resiliency and ensure Monroe County continues to be a leader in protecting our environment for years to come.

On March 10, 2020, Your Honorable Body authorized the creation of a Climate Action Plan Advisory Committee for the express purpose of creating a Climate Action Plan for Monroe County (Resolution No. 76 of 2020). This was followed by further related actions taken by Your Honorable Body to appoint members of the Committee (Resolution No. 167 of 2020), authorizing the execution of a contract with Bergmann Associates, Architects, Engineers, Landscape Architects & Surveyors, D.P.C. for Professional Design Services for the Climate Action Plan (Resolution No. 425 of 2020), adoption of the New York State Climate Smart Communities Resolution (Resolution No. 260 of 2020), and acceptance of a grant from the New York State Department of Environmental Conservation under the Climate Smart Communities program to support the development of the Climate Action Plan (Resolution No. 111 of 2022).

The Monroe County Climate Action Plan has been divided into two phases. Phase I relates to operations of the Monroe County government; the development of Phase I is complete. The Phase I Plan sets a goal of reducing government operation greenhouse gas emissions by at least 80% by 2050 from the established 2019 baseline. Phase II relates to actions to be taken by the community as a whole and is anticipated to be completed by the end of 2023. While both phases constitute the entirety of the Climate Action Plan, we recommend that Your Honorable Body adopts the Monroe County Climate Action Plan Phase I at this time to allow government operations work to progress with urgency while the development of the community-wide plan is ongoing. This will allow Monroe County to demonstrate leadership in climate action by reducing the greenhouse gas emissions within its control.

The specific legislative action required is to adopt the Monroe County Climate Action Plan Phase I.

Adoption of the Monroe County Climate Action Plan Phase I will have no impact on the revenues or expenditures of the current Monroe County Budget.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(27) (“conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of the proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action”) and is not subject to further review under the State Environmental Quality Review Act.

We recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

Honorable Adam J. Bello  
Monroe County Executive  
110 County Office Building  
39 W. Main Street  
Rochester, New York 14614

Dear Honorable Legislators and County Executive Bello,

As you are aware, climate change poses one of the most significant environmental challenges to our way of life, public health security, and economic opportunity in Monroe County. While climate change is a global phenomenon, we are projected to experience the consequences of a warming climate locally, both directly through increased heat, precipitation and water-related impacts, and indirectly as others look to relocate from areas more severely affected by extreme weather. Moreover, it is acknowledged that the burden of these impacts will fall disproportionately on marginalized populations, despite them contributing the least greenhouse gas (GHG) emissions. Therefore, it is prudent to create a framework for actions targeted towards mitigating, adapting to, and building resilience against the effects of climate change. This is the function of the Monroe County Climate Action Plan.

On March 10, 2020, the Monroe County Legislature resolved to authorize the creation of a Climate Action Plan Advisory Committee for the express purpose of creating a Climate Action Plan for Monroe County (Resolution No. 76 of 2020). The Committee was charged with identifying and reviewing “practices and policies that may impact environmental sustainability and identify any practices and policies which may reduce residential and commercial environmental impact”. This was followed by further related actions taken by the Legislature to appoint members of the Committee (Resolution No. 167 of 2020), authorizing the execution of a contract with Bergmann Associates, Architects, Engineers, Landscape Architects & Surveyors, D.P.C. for Professional Design Services for the Climate Action Plan (Resolution No. 425 of 2020), adoption of the New York State Climate Smart Communities Resolution (Resolution No. 260 of 2020), and acceptance of a grant from the New York State Department of Environmental Conservation under the Climate Smart Communities program to support the development of the Climate Action Plan (Resolution No. 111 of 2022).

The Monroe County Climate Action Plan has been divided into two phases. Phase I relates to the operations of the Monroe County government and Phase II relates to actions to be taken by the community as a whole. This approach is an accepted best practice and has been adopted by New York State in its Climate Smart Communities program, in which Monroe County is registered and is currently working towards certification. The development of the Phase I Plan will be completed upon adoption by the Legislature. It is anticipated that development of the Phase II Plan will be completed by the end of 2023.

The Phase I Plan **sets a goal of reducing government operation GHG emissions by at least 80% by 2050** from the established 2019 baseline. It is anticipated that this will align Monroe County’s efforts with New York State’s 2019 Climate Leadership and Community Protection Act goal of reducing GHG emissions across the state by 85% from its 1990 baseline by 2050.

The Phase I Plan mitigation goals are based on an inventory of current GHG emissions from County facilities and operations. The emissions are categorized by sector (listed in order of magnitude of contribution): Buildings and Facilities, Pure Waters Infrastructure, Solid Waste & Materials Management, Transportation Fleets, and Expressway Lights & Signals. Once the inventory was created, a business as usual (BAU) forecast was established to determine the potential emissions reductions due to changes outside of the County's control. This then allowed the Phase I Plan to focus on the necessary actions that Monroe County would have to take in each sector to achieve the overarching reduction goal.

An implementation plan was developed from these action items, which were evaluated for their potential ability to influence and reduce GHG emissions in each sector. Direct impact on emissions reduction, required investment, and timeframe for implementation were considered in prioritizing actions (weighted in that order). As discussed, the Phase I Plan provides a framework for action; it is noted that further evaluation and data collection will be necessary to determine the actual impact, investment, and timeframe for certain action items. Progressing specific elements of the implementation plan will be subject to the normal rules and processes of Monroe County government, including review and approval by the Legislature as appropriate.

In addition to establishing an implementation plan, the Phase I Plan proposes a reporting and evaluation timeframe as follows:

- Implementation Plan Progress Report: **Annual**
- GHG Emissions Inventory Update and Climate Action Plan Review: **2025, and every 5 years thereafter**

This emphasizes that the Phase I Plan is dynamic, and that it is important to evaluate outcomes and apply necessary alterations as new information becomes available.

The Committee recognizes the aspirational nature of the goal that the Phase I Plan has set. However, we also acknowledge that the cost of inaction far outweighs the investment that will be necessary to implement the plan, and that Monroe County residents, businesses, and institutions have already experienced the consequences of a warming climate. While both phases constitute the entirety of the Climate Action Plan, we recommend that the Legislature adopt the Phase I Plan to allow work to reduce emissions from government operations to progress with urgency while the community-wide Phase II Plan is being formulated. This will allow Monroe County to demonstrate leadership to its constituents by taking actions within its control, as well as presenting itself as a resource to the community in adopting innovative approaches to environmental sustainability.

The Committee looks forward to its continued work for the Legislature for the betterment of Monroe County and its environment.

Sincerely,

*Co-Chairperson*  
**Matthew O'Connor**

*Co-Chairperson*  
**Michael Yudelson**

*Vice Chairperson*  
**Sue Hughes-Smith**

# Office of the County Executive

Monroe County, New York

Adam J. Bello  
County Executive

August 5, 2022

<b>OFFICIAL FILE COPY</b>	
No.	<u>220268</u>
Not to be removed from the Office of the Legislature Of Monroe County	
Committee Assignment	
<b>INTRGOV REL</b>	<b>-L</b>
<b>PUBLIC SAFETY</b>	
<b>WAYS &amp; MEANS</b>	

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

Subject: Authorize an Intermunicipal Agreement with the City of Rochester Permitting the Rochester Police Department to Utilize the Monroe County Sheriff's Office's Explosives Storage Bunker Located at 145 Paul Road in the City of Rochester to House its Explosives and Explosives Evidence

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K. Baxter.

I recommend that Your Honorable Body authorize an intermunicipal agreement with the City of Rochester to permit the Rochester Police Department ("RPD") to utilize the Monroe County Sheriff's Office's ("MCSO") Explosives Storage Bunker located at 145 Paul Road in the City of Rochester, to house its explosives and explosives evidence for the period of October 1, 2022 through September 30, 2023, with the option to renew for three (3) additional one-year terms.

By Resolutions 235 of 2016 and 227 of 2019, Your Honorable Body authorized an intermunicipal agreement with the City of Rochester permitting the RPD to co-locate its bunkers, explosives, and explosives evidence with that of the MCSO's bulk explosives and explosives evidence at 145 Paul Road in the Town of Chili (otherwise known as the Monroe County Fleet Center). Co-locating these materials mutually benefit both agencies. Specifically, displaying inter-agency cooperation will help the MCSO maintain current grant awards and obtain future awards relative to explosives and bombs. Further, the MCSO will have immediate availability to RPD's inventory in the event of an emergency.

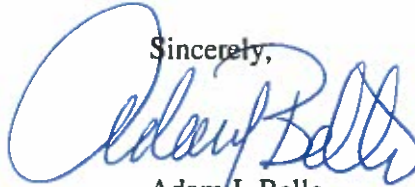

**The specific legislative action required is to authorize the County Executive, or his designee, to enter into an intermunicipal agreement, and any amendments thereto, with the City of Rochester, permitting the Rochester Police Department to utilize the Monroe County Sheriff's Office's Explosives Storage Bunker located at 145 Paul Road in the City of Rochester, to house its explosives and explosives evidence for the period of October 1, 2022 through September 30, 2023, with the option to renew for three (3) additional one-year terms.**

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act.

This agreement will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

# Office of the County Executive

Monroe County, New York

Adam J. Bello  
County Executive

August 5, 2022

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Construction of Playgrounds at Powder Mills Park and Ontario Beach Park

Honorable Legislators:

I recommend that Your Honorable Body determine whether the construction of playgrounds at Powder Mills Park and Ontario Beach Park may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project, a component of the proposed \$9.4 million in Phase II Monroe County Parks system-wide improvements, includes the construction of a new playground at Ontario Beach Park that would be fully accessible and ADA-compliant, the first in the county system. It would also involve the removal and complete replacement of an existing 15-year-old playground at Powder Mills Park that is in poor repair and insufficient to meet the demands in this popular park.

The construction of these playgrounds has been preliminarily classified as an Unlisted Action. The SEQRA regulations found at 6 NYCRR Part 617 require that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

1. Determine that the construction of these playgrounds is an Unlisted action.
2. Make a determination of significance regarding construction of these playgrounds pursuant to 6 NYCRR 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

\_\_\_\_\_ This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

\_\_\_\_\_ I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,  

Adam J. Bello  
Monroe County Executive

## Short Environmental Assessment Form

### Part 1 - Project Information

#### Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

<b>Part 1 - Project and Sponsor Information</b>			
Monroe County Installation of New Playgrounds.			
Name of Action or Project:			
Installation of new playground at Powder Mills Park and Ontario Beach Park			
Project Location (describe, and attach a location map):			
The Project is located in two existing Monroe County Parks, Powder Mills Park and Ontario Beach Park.			
Brief Description of Proposed Action:			
The project consists of two locations, Ontario Beach Park and Powder Mills Park. At Ontario Beach Park a proposed new playground feature would be constructed immediately south and west of the existing playground feature. See attached Mapping. This playground feature is intended to be an ADA accessible attraction, with accessible poured in place surfaces			
Also within the the scope of this project, the County would upgrade the existing playground feature constructed at Powder Mills Park. The existing playground located adjacent to the ski hill off of Woolston Rd. The existing playground at Powder Mills is at least 15 years old and is showing signs of deterioration. An upgrade at this location would be a significant addition to this highly utilized park. The existing playground would be demolished and the new playground would be installed in the same footprint.			
Name of Applicant or Sponsor:		Telephone: 585-753-7279	
Monroe County - Robert W. Kiley, Deputy Director		E-Mail: robertkiley@monroecounty.gov	
Address:			
171 Reservoir Rd			
City/PO:		State:	Zip Code:
Rochester		NY	14620
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			NO <input type="checkbox"/>
			YES <input checked="" type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval:			NO <input type="checkbox"/>
			YES <input checked="" type="checkbox"/>
3. a. Total acreage of the site of the proposed action?		0.60 acres	
b. Total acreage to be physically disturbed?		0.30 acres	
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?		448.21 acres	
4. Check all land uses that occur on, are adjoining or near the proposed action:			
<input type="checkbox"/> Urban	<input type="checkbox"/> Rural (non-agriculture)	<input type="checkbox"/> Industrial	<input type="checkbox"/> Commercial
<input type="checkbox"/> Forest	<input type="checkbox"/> Agriculture	<input type="checkbox"/> Aquatic	<input type="checkbox"/> Residential (suburban)
<input checked="" type="checkbox"/> Parkland	<input type="checkbox"/> Other(Specify):		

5. Is the proposed action,		NO	YES	N/A
a. A permitted use under the zoning regulations?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Consistent with the adopted comprehensive plan?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?		NO	YES	
		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?		NO	YES	
If Yes, identify: <small>NYS: In the vicinity of a freshwater wetland and near natural communities with high quality occurrence types.</small> City of Rochester 1986: listed as an environmentally sensitive area		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?		NO	YES	
b. Are public transportation services available at or near the site of the proposed action?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements?		NO	YES	
If the proposed action will exceed requirements, describe design features and technologies:				
N/A		<input type="checkbox"/>	<input type="checkbox"/>	
10. Will the proposed action connect to an existing public/private water supply?		NO	YES	
If No, describe method for providing potable water:				
N/A		<input type="checkbox"/>	<input type="checkbox"/>	
11. Will the proposed action connect to existing wastewater utilities?		NO	YES	
If No, describe method for providing wastewater treatment:				
N/A		<input type="checkbox"/>	<input type="checkbox"/>	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?		NO	YES	
Ontario Beach Park, 1/28/2017		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?		NO	YES	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres:		<input checked="" type="checkbox"/>	<input type="checkbox"/>	

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:

- Shoreline  
  Forest  
  Agricultural/grasslands  
  Early mid-successional  
 Wetland  
 Urban  
 Suburban

15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?

NO	YES
<input type="checkbox"/>	<input checked="" type="checkbox"/>

16. Is the project site located in the 100-year flood plan?

NO	YES
<input type="checkbox"/>	<input checked="" type="checkbox"/>

17. Will the proposed action create storm water discharge, either from point or non-point sources?  
If Yes,

NO	YES
<input checked="" type="checkbox"/>	<input type="checkbox"/>

a. Will storm water discharges flow to adjacent properties?

<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------

b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?  
If Yes, briefly describe:

<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------

18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)?  
If Yes, explain the purpose and size of the impoundment:

NO	YES
<input checked="" type="checkbox"/>	<input type="checkbox"/>

19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility?  
If Yes, describe:

NO	YES
<input checked="" type="checkbox"/>	<input type="checkbox"/>

20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste?  
If Yes, describe:

NO	YES
<input checked="" type="checkbox"/>	<input type="checkbox"/>

**Short Environmental Assessment Form  
Part 2 - Impact Assessment**

Part 2 is to be completed by the Lead Agency.  
 Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing: a. public / private water supplies? b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**PRINT FORM**

Project: \_\_\_\_\_  
 Date: \_\_\_\_\_

**Short Environmental Assessment Form  
 Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Ontario Beach Park. The existing location at Ontario Beach is a gently graded / relatively flat grassed area utilized as a passive recreational area. Use of this area for increased recreational purposes would occur on MB hydric soils. Earthen disturbances during construction would be less than 0.30 acres and erosion and sediment controls would be utilized as needed during construction. As soil erosion and sedimentation controls would be utilized, there are no significant impacts anticipated.

The project would not result in additional stormwater runoff entering an stormwater sewer system with any stormwater runoff being directed to grassed areas adjacent to the playground feature. The project is within the 100 year floodplain for Lake Ontario, however there are no significant impacts to flooding as a result of this project. In 1986, the City of Rochester designated the area as a critical environmental area, noting that it is a environmentally sensitive area. The NYS-DEC Environmental Resource Mapper was reviewed and no threatened or endanger species were mapped within the project area.

Powder Mills Park. The existing location at Powder Mills Park is a playground feature adjacent to the ski hill off of Woolston Rd. The existing playground at Powder Mills is at least 15 years old and would be demolished with the new playground being installed in the same footprint. Earthen disturbances during construction would be less than 0.20 acres and erosion and sediment controls would be utilized as needed during construction. As soil erosion and sedimentation controls would be utilized, there are no significant impacts anticipated. The existing area is already developed as a playground, with no additional impervious surfaces being added and thus there would be no significant impact to local waterways. The NYS-DEC Environmental Resource Mapper was reviewed and this location is near rare/endangered species, is within 500 feet of the New York State Wetlands, nearby natural communities with high quality occurrence types were noted. As the project does modify the size / nature of the playground, no significant adverse impact would occur.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

If your project or action is within or near an area with a rare animal, a permit may be required if the species is listed as endangered or threatened and the department determines the action may be harmful to the species or its habitat.

If your project or action is within or near an area with rare plants and/or significant natural communities, the environmental impacts may need to be addressed.

The presence of a unique geological feature or landform near a project, unto itself, does not trigger a requirement for a NYS DEC permit. Readers are advised, however, that there is the chance that a unique feature may also show in another data layer (ie. a wetland) and thus be subject to permit jurisdiction.

Please refer to the "Need a Permit?" tab for permit information or other authorizations regarding these natural resources.

Disclaimer: If you are considering a project or action in, or near, a wetland or a stream, a NYS DEC permit may be required. The Environmental Resources Mapper does not show all natural resources which are regulated by NYS DEC, and for which permits from NYS DEC are required. For example, Regulated Tidal Wetlands, and Wild, Scenic, and Recreational Rivers, are currently not included on the maps.

# Office of the County Executive

Monroe County, New York

**Adam J. Bello**  
County Executive

August 5, 2022

<b>OFFICIAL FILE COPY</b>
No. <u>220270</u>
Not to be removed from the Office of the Legislature Of Monroe County
Committee Assignment
<b>ENV. &amp; PUB. WORKS-L</b>

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

**Subject:** Classification of Action, Designation of Intent to Serve as Lead Agency, and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Creation of an ADA Accessible Canoe and Kayak Launch at Churchville Park

Honorable Legislators:

I recommend that Your Honorable Body determine whether the creation of an ADA accessible canoe and kayak launch at Churchville Park may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project, a component of the proposed \$9.4 million in Phase II Monroe County Parks system-wide improvements, would provide a brand-new adaptive sport experience for individuals with disabilities on a portion of Black Creek that is extremely popular for recreational boating.

The creation of this canoe and kayak launch has been preliminarily classified as an Unlisted Action. The SEQRA regulations found at 6 NYCRR Part 617 require that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

1. Determine that the creation of this canoe and kayak launch is an Unlisted action.
2. Designate Monroe County as Lead Agency for a coordinated review of the project.
3. Make a determination of significance regarding creation of this canoe and kayak launch pursuant to 6 NYCRR 617.7.

4. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

## Short Environmental Assessment Form

### Part 1 - Project Information

#### Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information			
Monroe County Parks Department			
Name of Action or Project:			
Installation of an ADA Accessible Canoe / Kayak Launch			
Project Location (describe, and attach a location map):			
The Project is located off of Park Road within Churchville Park in the Village of Churchville.			
Brief Description of Proposed Action:			
The project consists on one location located off of Park Rd, within Churchville Park in the Village of Churchville. The project seeks to install an ADA accessible canoe / kayak launch at the existing canoe kayak launch thus allowing individuals with differing needs the ability to enter and exit the Black Creek. The existing conditions on site are a denuded shoreline where patrons launch and retrieve their canoe / kayaks on Black Creek, a Class B waterbody			
Name of Applicant or Sponsor:		Telephone: 585-753-7279	
Monroe County - Robert W. Kiley, Deputy Director		E-Mail: robertkiley@monroecounty.gov	
Address:			
171 Reservoir Rd			
City/PO:		State:	Zip Code:
Rochester		NY	14620
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation?		NO	YES
If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.		<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency?		NO	YES
If Yes, list agency(s) name and permit or approval: Environmental permitting from NYS-DEC, USACE		<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. a. Total acreage of the site of the proposed action?		0.1 acres	
b. Total acreage to be physically disturbed?		0.1 acres	
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?		792.50 acres	
4. Check all land uses that occur on, are adjoining or near the proposed action:			
<input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input type="checkbox"/> Residential (suburban)			
<input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other (Specify)			
<input checked="" type="checkbox"/> Parkland			

5. Is the proposed action,		NO	YES	N/A
a. A permitted use under the zoning regulations?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Consistent with the adopted comprehensive plan?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?		NO	YES	
		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?		NO	YES	
If Yes, identify: _____		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?		NO	YES	
b. Are public transportation services available at or near the site of the proposed action?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements?		NO	YES	
If the proposed action will exceed requirements, describe design features and technologies: N/A		<input type="checkbox"/>	<input type="checkbox"/>	
10. Will the proposed action connect to an existing public/private water supply?		NO	YES	
If No, describe method for providing potable water: _____ N/A		<input type="checkbox"/>	<input type="checkbox"/>	
11. Will the proposed action connect to existing wastewater utilities?		NO	YES	
If No, describe method for providing wastewater treatment: _____ N/A		<input type="checkbox"/>	<input type="checkbox"/>	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?		NO	YES	
		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?		NO	YES	
		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: The Project is located in NYS Wetland RG-14 and Federal Wetland R2UBH. The project will disturb 0.01 acres currently denuded shrubland to advance the project. All Work will be in accordance with the permit requirements.				

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:

Shoreline    Forest    Agricultural/grasslands    Early mid-successional  
 Wetland    Urban    Suburban

15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

16. Is the project site located in the 100-year flood plan?

	NO	YES
	<input type="checkbox"/>	<input checked="" type="checkbox"/>

17. Will the proposed action create storm water discharge, either from point or non-point sources?  
If Yes,

a. Will storm water discharges flow to adjacent properties?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

If Yes, briefly describe:

\_\_\_\_\_

\_\_\_\_\_

18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)?  
If Yes, explain the purpose and size of the impoundment:

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility?  
If Yes, describe:

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste?  
If Yes, describe:

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Part 2 - Impact Assessment**

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:		
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Project: \_\_\_\_\_  
 Date: \_\_\_\_\_

**Short Environmental Assessment Form  
 Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project seeks to install an ADA accessible canoe / kayak launch at the existing boat launch at Churchville Park. The floating dock will be installed and removed seasonally allowing individuals with differing needs the ability to enter and exit Black Creek. At the project location, Black Creek (ONT-117-19) is a protected Class B waterbody. Further the project is proposed within NYS-DEC Wetland RG-14 and USFWS Wetland R2UBH. Environmental permitting from the NYS- Department of Environmental Conservation (DEC) and United States Army Corps of Engineers (USACE) will be required to ensure that the project will be sited in a way to ensure environmental stewardship on site while providing access to the general public. It is anticipated that the NYS - DEC will take jurisdiction on the project, with 401 Water Quality Certification, disturbance of the bed and banks of protected waterbody, and temporary construction within a regulated wetland permitting being necessary to advance the project. The USACE will also be consulted as a result of this project with nationwide 404 permitting being needed as there is a potential fill within a navigable waters and work within the USFWS wetland. The project will disturb the bed and banks of the waterbody and thus erosion and sediment control must be utilized to mitigate any adverse impacts to the waterbody. At project completion, the shoreline will be vegetated, a condition that today is absent due to use. Therefore, there would be no significant impacts to land. During construction it is anticipated that the bed of the Black Creek will be disturbed. To ensure that those suspended sediments does not impact downstream, a turbidity curtain will be used. Therefore, there would be no significant impact to waterbodies. The NYS-DEC Environmental Resource Mapper was reviewed and there were no listed species noted. Work will occur within the wetland and wetland buffer, thus there will be an emphasis on replanting the existing denuded and disturbed shoreline area with native wetland plants. This effort will afford a long term sustainable vegetation plan, potentially eliminating sources of sediment transport to the waterbody while also improving the wetland flora and fauna diversity. The re-vegetation of this area is a net positive to the environment. As a result of the aforementioned, there are no significant impacts to flora/fauna anticipated.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

For more information about the National Wetlands Inventory wetlands visit <https://www.dec.ny.gov/permit/13500.html>

If your project or action is within or near an area with a rare animal, a permit may be required if the species is listed as endangered or threatened and the department determines the action may be harmful to the species or its habitat.

If your project or action is within or near an area with rare plants and/or significant natural communities, the environmental impacts may need to be addressed.

The presence of a unique geological feature or landform near a project, unto itself, does not trigger a requirement for a NYS DEC permit. Readers are advised, however, that there is the chance that a unique feature may also show in another data layer (ie. a wetland) and thus be subject to permit jurisdiction.

Please refer to the "Need a Permit?" tab for permit information or other authorizations regarding these natural resources.

**Disclaimer:** If you are considering a project or action in, or near, a wetland or a stream, a NYS DEC permit may be required. The Environmental Resources Mapper does not show all natural resources which are regulated by NYS DEC, and for which permits from NYS DEC are required. For example, Regulated Tidal Wetlands, and Wild, Scenic, and Recreational Rivers, are currently not included on the maps.

Not to be removed from the Office of the <b>Legislature Of Monroe County</b>
<b>Committee Assignment</b>
<b>ENV. &amp; PUB. WORKS-L</b>

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

**Subject: Classification of Action, Designation of Lead Agency, and Determination of Significance Pursuant to the State Environmental Quality Review Act for Golf Course Improvements**

Honorable Legislators:

I recommend that Your Honorable Body determine whether golf course improvements may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project, a component of the proposed \$9.4 million in Phase II Monroe County Parks system-wide improvements, would include significant irrigation and drainage improvements, continuous cart paths on heavily played courses, tree work, focused on the removal of dead ash trees, and tee box improvements across all three of the golf courses operated by Monroe County.

The course improvements have been preliminarily classified as a Type I Action. The SEQRA regulations found at 6 NYCRR Part 617 require that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

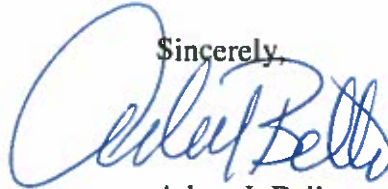

1. Determine that the golf course improvements are a Type I action.
2. Designate Monroe County as Lead Agency for a coordinated review of the golf course improvements
3. Make a determination of significance regarding these course improvements pursuant to 6 NYCRR 617.7.

4. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

**Full Environmental Assessment Form  
Part 1 - Project and Setting**

**Instructions for Completing Part 1**

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

**A. Project and Applicant/Sponsor Information.**

Name of Action or Project: Monroe County Parks Department-Golf Course Improvement		
Project Location (describe, and attach a general location map): Churchville Golf Course, Durand Eastman Golf Course and Genesee Valley Golf Course. See attached map.		
Brief Description of Proposed Action (include purpose or need): The proposed project seeks to revitalize and improve all three municipal owned and operated golf courses, Churchville, Durand Eastman and Genesee Valley. A variety of improvements have been identified within each golf course, however the improvements are generally categorized into three areas; subsurface drainage improvements, sub surface irrigation line improvements, and the installation of paved golf cart paths. Repair and installation of subsurface drainage lines would allow for proper drainage of poorly drained turf areas. Repair and installation of irrigation lines will allow for better watering of turf areas during the summer season. Repair and installation of continuous cart paths, would allow for carts to be used on rainy days, and ensure that the turf is well kept and maintained appropriately.

**C. Planning and Zoning**

**C.1. Planning and zoning actions.**

Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed?  Yes  No

- If Yes, complete sections C, F and G.
- If No, proceed to question C.2 and complete all remaining sections and questions in Part 1

**C.2. Adopted land use plans.**

a. Do any municipally- adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located?  Yes  No

If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located?  Yes  No

b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway; Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?)  Yes  No

If Yes, identify the plan(s):

NYS-Heritage Area-West Erie Canal Corridor; City of Rochester LWRP

---

---

c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan?  Yes  No

If Yes, identify the plan(s):

---

---

---

**C.3. Zoning**

- a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance?  Yes  No  
 If Yes, what is the zoning classification(s) including any applicable overlay district?  
 Open-Space District; O-A Overlay Airport District; Rural Agricultural
- b. Is the use permitted or allowed by a special or conditional use permit?  Yes  No
- c. Is a zoning change requested as part of the proposed action?  Yes  No  
 If Yes,  
 i. What is the proposed new zoning for the site? \_\_\_\_\_

**C.4. Existing community services.**

- a. In what school district is the project site located? City of Rochester, Churchville-Chili
- b. What police or other public protection forces serve the project site?  
Monroe County Sheriff's; Rochester Police Department
- c. Which fire protection and emergency medical services serve the project site?  
Rochester Fire Department; Riga Fire Protection District
- d. What parks serve the project site?  
N/A

**D. Project Details**

**D.1. Proposed and Potential Development**

- a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, include all components)? Recreational / Parkland
- b. a. Total acreage of the site of the proposed action? \_\_\_\_\_  
 b. Total acreage to be physically disturbed? 1808 acres  
 c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? 9.5 acres  
1808 acres
- c. Is the proposed action an expansion of an existing project or use?  Yes  No  
 i. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, housing units, square feet)? % \_\_\_\_\_ Units: \_\_\_\_\_
- d. Is the proposed action a subdivision, or does it include a subdivision?  Yes  No  
 If Yes,  
 i. Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types) \_\_\_\_\_  
 ii. Is a cluster/conservation layout proposed? \_\_\_\_\_  
 iii. Number of lots proposed? \_\_\_\_\_  Yes  No  
 iv. Minimum and maximum proposed lot sizes? Minimum \_\_\_\_\_ Maximum \_\_\_\_\_
- e. Will the proposed action be constructed in multiple phases?  Yes  No  
 i. If No, anticipated period of construction: \_\_\_\_\_ months  
 ii. If Yes:  
 • Total number of phases anticipated \_\_\_\_\_  
 • Anticipated commencement date of phase 1 (including demolition) \_\_\_\_\_ month \_\_\_\_\_ year  
 • Anticipated completion date of final phase \_\_\_\_\_ month \_\_\_\_\_ year  
 • Generally describe connections or relationships among phases, including any contingencies where progress of one phase may determine timing or duration of future phases: \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

f. Does the project include new residential uses?  
 If Yes, show numbers of units proposed.  Yes  No

	<u>One Family</u>	<u>Two Family</u>	<u>Three Family</u>	<u>Multiple Family (four or more)</u>
Initial Phase	_____	_____	_____	_____
At completion	_____	_____	_____	_____
of all phases	_____	_____	_____	_____

g. Does the proposed action include new non-residential construction (including expansions)?  Yes  No  
 If Yes,

i. Total number of structures \_\_\_\_\_

ii. Dimensions (in feet) of largest proposed structure: \_\_\_\_\_ height; \_\_\_\_\_ width; and \_\_\_\_\_ length

iii. Approximate extent of building space to be heated or cooled: \_\_\_\_\_ square feet

h. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage?  Yes  No  
 If Yes,

i. Purpose of the impoundment: \_\_\_\_\_

ii. If a water impoundment, the principal source of the water:  Ground water  Surface water streams  Other specify: \_\_\_\_\_

iii. If other than water, identify the type of impounded/contained liquids and their source. \_\_\_\_\_

iv. Approximate size of the proposed impoundment. Volume: \_\_\_\_\_ million gallons; surface area: \_\_\_\_\_ acres

v. Dimensions of the proposed dam or impounding structure: \_\_\_\_\_ height; \_\_\_\_\_ length

vi. Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, concrete): \_\_\_\_\_

**D.2. Project Operations**

a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both? (Not including general site preparation, grading or installation of utilities or foundations where all excavated materials will remain onsite)  Yes  No  
 If Yes:

i. What is the purpose of the excavation or dredging? \_\_\_\_\_

ii. How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site?

- Volume (specify tons or cubic yards): \_\_\_\_\_
- Over what duration of time? \_\_\_\_\_

iii. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them. \_\_\_\_\_

iv. Will there be onsite dewatering or processing of excavated materials?  Yes  No  
 If yes, describe. \_\_\_\_\_

v. What is the total area to be dredged or excavated? \_\_\_\_\_ acres

vi. What is the maximum area to be worked at any one time? \_\_\_\_\_ acres

vii. What would be the maximum depth of excavation or dredging? \_\_\_\_\_ feet

viii. Will the excavation require blasting?  Yes  No

ix. Summarize site reclamation goals and plan: \_\_\_\_\_

b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment into any existing wetland, waterbody, shoreline, beach or adjacent area?  Yes  No  
 If Yes:

i. Identify the wetland or waterbody which would be affected (by name, water index number, wetland map number or geographic description): RH-14, RH-15, RH-16

ii. Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placement of structures, or alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square feet or acres: The project would repair existing subsurface drainage tile lines and irrigation lines at Durand Eastman Golf Course. Near the entirety of golf course is within the aforementioned in wetlands, thus repair work will occur within state wetlands. The paving of golf cart paths would also occur within wetland / wetland buffer.

iii. Will the proposed action cause or result in disturbance to bottom sediments?  Yes  No  
 If Yes, describe: \_\_\_\_\_

iv. Will the proposed action cause or result in the destruction or removal of aquatic vegetation?  Yes  No  
 If Yes:

- acres of aquatic vegetation proposed to be removed: \_\_\_\_\_
- expected acreage of aquatic vegetation remaining after project completion: \_\_\_\_\_
- purpose of proposed removal (e.g. beach clearing, invasive species control, boat access): \_\_\_\_\_
- proposed method of plant removal: \_\_\_\_\_
- If chemical/herbicide treatment will be used, specify product(s): \_\_\_\_\_

v. Describe any proposed reclamation/mitigation following disturbance: \_\_\_\_\_

c. Will the proposed action use, or create a new demand for water?  Yes  No  
 If Yes:

i. Total anticipated water usage/demand per day: \_\_\_\_\_ gallons/day

ii. Will the proposed action obtain water from an existing public water supply?  Yes  No  
 If Yes:

- Name of district or service area: \_\_\_\_\_
- Does the existing public water supply have capacity to serve the proposal?  Yes  No
- Is the project site in the existing district?  Yes  No
- Is expansion of the district needed?  Yes  No
- Do existing lines serve the project site?  Yes  No

iii. Will line extension within an existing district be necessary to supply the project?  Yes  No  
 If Yes:

- Describe extensions or capacity expansions proposed to serve this project: \_\_\_\_\_
- Source(s) of supply for the district: \_\_\_\_\_

iv. Is a new water supply district or service area proposed to be formed to serve the project site?  Yes  No  
 If Yes:

- Applicant/sponsor for new district: \_\_\_\_\_
- Date application submitted or anticipated: \_\_\_\_\_
- Proposed source(s) of supply for new district: \_\_\_\_\_

v. If a public water supply will not be used, describe plans to provide water supply for the project: \_\_\_\_\_

vi. If water supply will be from wells (public or private), what is the maximum pumping capacity: \_\_\_\_\_ gallons/minute.

d. Will the proposed action generate liquid wastes?  Yes  No  
 If Yes:

i. Total anticipated liquid waste generation per day: \_\_\_\_\_ gallons/day

ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all components and approximate volumes or proportions of each): \_\_\_\_\_

iii. Will the proposed action use any existing public wastewater treatment facilities?  Yes  No  
 If Yes:

- Name of wastewater treatment plant to be used: \_\_\_\_\_
- Name of district: \_\_\_\_\_
- Does the existing wastewater treatment plant have capacity to serve the project?  Yes  No
- Is the project site in the existing district?  Yes  No
- Is expansion of the district needed?  Yes  No

• Do existing sewer lines serve the project site?  Yes  No  
 • Will a line extension within an existing district be necessary to serve the project?  Yes  No  
 If Yes:
 

- Describe extensions or capacity expansions proposed to serve this project: \_\_\_\_\_

iv. Will a new wastewater (sewage) treatment district be formed to serve the project site?  Yes  No  
 If Yes:
 

- Applicant/sponsor for new district: \_\_\_\_\_
- Date application submitted or anticipated: \_\_\_\_\_
- What is the receiving water for the wastewater discharge? \_\_\_\_\_

v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specifying proposed receiving water (name and classification if surface discharge or describe subsurface disposal plans): \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

vi. Describe any plans or designs to capture, recycle or reuse liquid waste: \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e. sheet flow) during construction or post construction?  Yes  No  
 If Yes:
 

- How much impervious surface will the project create in relation to total size of project parcel?  
 \_\_\_\_\_ Square feet or 3.5 acres (impervious surface)  
 \_\_\_\_\_ Square feet or 1808 acres (parcel size)
- Describe types of new point sources. There will be no point sources for this project.  
 \_\_\_\_\_
- Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent properties, groundwater, on-site surface water or off-site surface waters)?  
 Stormwater runoff will be directed and treated on-site without discharge to local waterbodies.  
 \_\_\_\_\_  
 • If to surface waters, identify receiving water bodies or wetlands: \_\_\_\_\_  
 \_\_\_\_\_  
 • Will stormwater runoff flow to adjacent properties? \_\_\_\_\_

iv. Does the proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?  Yes  No

f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations?  Yes  No  
 If Yes, identify:
 

- Mobile sources during project operations (e.g. heavy equipment, fleet or delivery vehicles)  
 \_\_\_\_\_
- Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)  
 \_\_\_\_\_
- Stationary sources during operations (e.g., process emissions, large boilers, electric generation)  
 \_\_\_\_\_

g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit, or Federal Clean Air Act Title IV or Title V Permit?  Yes  No  
 If Yes:
 

- Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year)  Yes  No
- In addition to emissions as calculated in the application, the project will generate:
  - \_\_\_\_\_ Tons/year (short tons) of Carbon Dioxide (CO<sub>2</sub>)
  - \_\_\_\_\_ Tons/year (short tons) of Nitrous Oxide (N<sub>2</sub>O)
  - \_\_\_\_\_ Tons/year (short tons) of Perfluorocarbons (PFCs)
  - \_\_\_\_\_ Tons/year (short tons) of Sulfur Hexafluoride (SF<sub>6</sub>)
  - \_\_\_\_\_ Tons/year (short tons) of Carbon Dioxide equivalent of Hydrofluorocarbons (HFCs)
  - \_\_\_\_\_ Tons/year (short tons) of Hazardous Air Pollutants (HAPs)

**h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)?**  Yes  No

If Yes:

i. Estimate methane generation in tons/year (metric): \_\_\_\_\_

ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to generate heat or electricity, flaring): \_\_\_\_\_

---

**i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations?**  Yes  No

If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust): \_\_\_\_\_

---

**j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services?**  Yes  No

If Yes:

i. When is the peak traffic expected (Check all that apply):  Morning  Evening  Weekend  
 Randomly between hours of \_\_\_\_\_ to \_\_\_\_\_

ii. For commercial activities only, projected number of truck trips/day and type (e.g., semi trailers and dump trucks): \_\_\_\_\_

iii. Parking spaces: Existing \_\_\_\_\_ Proposed \_\_\_\_\_ Net increase/decrease \_\_\_\_\_

iv. Does the proposed action include any shared use parking?  Yes  No

v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing access, describe: \_\_\_\_\_

vi. Are public/private transportation service(s) or facilities available within 1/2 mile of the proposed site?  Yes  No

vii. Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles?  Yes  No

viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes?  Yes  No

---

**k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy?**  Yes  No

If Yes:

i. Estimate annual electricity demand during operation of the proposed action: \_\_\_\_\_

ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/local utility, or other): \_\_\_\_\_

iii. Will the proposed action require a new, or an upgrade, to an existing substation?  Yes  No

---

**l. Hours of operation. Answer all items which apply.**

<b>i. During Construction:</b>		<b>ii. During Operations:</b>	
• Monday - Friday:	_____ 0630 to 1530 _____	• Monday - Friday:	_____ 0500 to 2100 _____
• Saturday:	_____ N/A _____	• Saturday:	_____ 0500 to 2100 _____
• Sunday:	_____ N/A _____	• Sunday:	_____ 0500 to 2100 _____
• Holidays:	_____ N/A _____	• Holidays:	_____ 0500 to 2100 _____

m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both?  Yes  No

If yes:

i. Provide details including sources, time of day and duration:

\_\_\_\_\_

ii. Will the proposed action remove existing natural barriers that could act as a noise barrier or screen?  Yes  No

Describe: \_\_\_\_\_

n. Will the proposed action have outdoor lighting?  Yes  No

If yes:

i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:

\_\_\_\_\_

ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen?  Yes  No

Describe: \_\_\_\_\_

o. Does the proposed action have the potential to produce odors for more than one hour per day?  Yes  No

If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures: \_\_\_\_\_

\_\_\_\_\_

p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products 185 gallons in above ground storage or any amount in underground storage?  Yes  No

If Yes:

i. Product(s) to be stored \_\_\_\_\_

ii. Volume(s) \_\_\_\_\_ per unit time \_\_\_\_\_ (e.g., month, year)

iii. Generally, describe the proposed storage facilities: \_\_\_\_\_

\_\_\_\_\_

q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation?  Yes  No

If Yes:

i. Describe proposed treatment(s):

\_\_\_\_\_

\_\_\_\_\_

ii. Will the proposed action use Integrated Pest Management Practices?  Yes  No

r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)?  Yes  No

If Yes:

i. Describe any solid waste(s) to be generated during construction or operation of the facility:

- Construction: \_\_\_\_\_ tons per \_\_\_\_\_ (unit of time)
- Operation: \_\_\_\_\_ tons per \_\_\_\_\_ (unit of time)

ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste:

- Construction: \_\_\_\_\_
- Operation: \_\_\_\_\_

iii. Proposed disposal methods/facilities for solid waste generated on-site:

- Construction: \_\_\_\_\_
- Operation: \_\_\_\_\_

s. Does the proposed action include construction or modification of a solid waste management facility?  Yes  No

If Yes:

i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities): \_\_\_\_\_

ii. Anticipated rate of disposal/processing:

- \_\_\_\_\_ Tons/month, if transfer or other non-combustion/thermal treatment, or
- \_\_\_\_\_ Tons/hour, if combustion or thermal treatment

iii. If landfill, anticipated site life: \_\_\_\_\_ years

t. Will the proposed action at the site involve the commercial generation, treatment, storage, or disposal of hazardous waste?  Yes  No

If Yes:

i. Name(s) of all hazardous wastes or constituents to be generated, handled or managed at facility: \_\_\_\_\_

ii. Generally describe processes or activities involving hazardous wastes or constituents: \_\_\_\_\_

iii. Specify amount to be handled or generated \_\_\_\_\_ tons/month

iv. Describe any proposals for on-site minimization, recycling or reuse of hazardous constituents: \_\_\_\_\_

v. Will any hazardous wastes be disposed at an existing offsite hazardous waste facility?  Yes  No

If Yes: provide name and location of facility: \_\_\_\_\_

If No: describe proposed management of any hazardous wastes which will not be sent to a hazardous waste facility: \_\_\_\_\_

**E. Site and Setting of Proposed Action**

**E.1. Land uses on and surrounding the project site**

a. Existing land uses.

i. Check all uses that occur on, adjoining and near the project site.

Urban  Industrial  Commercial  Residential (suburban)  Rural (non-farm)

Forest  Agriculture  Aquatic  Other (specify): \_\_\_\_\_

ii. If mix of uses, generally describe: \_\_\_\_\_

**b. Land uses and covertypes on the project site.**

Land use or Covertype	Current Acreage	Acreage After Project Completion	Change (Acres +/-)
• Roads, buildings, and other paved or impervious surfaces	23	28	+3
• Forested	849	849	-
• Meadows, grasslands or brushlands (non-agricultural, including abandoned agricultural)	736	736	-3
• Agricultural (includes active orchards, field, greenhouse etc.)	0	0	0
• Surface water features (lakes, ponds, streams, rivers, etc.)	52	52	0
• Wetlands (freshwater or tidal)	148	148	0
• Non-vegetated (bare rock, earth or fill)			
• Other Describe: _____			

c. Is the project site presently used by members of the community for public recreation?  Yes  No  
 i. If Yes: explain: All three locations are currently public golf courses

d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site?  Yes  No  
 If Yes,  
 i. Identify Facilities:  
 \_\_\_\_\_

e. Does the project site contain an existing dam?  Yes  No  
 If Yes:  
 i. Dimensions of the dam and impoundment:  
 • Dam height: \_\_\_\_\_ feet  
 • Dam length: \_\_\_\_\_ feet  
 • Surface area: \_\_\_\_\_ acres  
 • Volume impounded: \_\_\_\_\_ gallons OR acre-feet  
 ii. Dam's existing hazard classification: \_\_\_\_\_  
 iii. Provide date and summarize results of last inspection:  
 \_\_\_\_\_

f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management facility?  Yes  No  
 If Yes:  
 i. Has the facility been formally closed?  Yes  No  
 • If yes, cite sources/documentation: \_\_\_\_\_  
 ii. Describe the location of the project site relative to the boundaries of the solid waste management facility:  
Durand Eastman Golf Course is immediately adjacent to the Frank E. VanLara Wastewater Treatment Plant.  
 iii. Describe any development constraints due to the prior solid waste activities:  
None known.

g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste?  Yes  No  
 If Yes:  
 i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred:  
 \_\_\_\_\_

h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site?  Yes  No  
 If Yes:  
 i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply:  Yes  No  
 Yes - Spills Incidents database Provide DEC ID number(s): 8500739, 9301171, 9970540  
 Yes - Environmental Site Remediation database Provide DEC ID number(s): \_\_\_\_\_  
 Neither database  
 ii. If site has been subject of RCRA corrective activities, describe control measures:  
 \_\_\_\_\_  
 iii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database?  Yes  No  
 If yes, provide DEC ID number(s): Rochester Fire Academy, Kozel Structural Steel & Fabrication  
 iv. If yes to (i), (ii) or (iii) above, describe current status of site(s):  
 \_\_\_\_\_

v. Is the project site subject to an institutional control limiting property uses?  Yes  No

- If yes, DEC site ID number: \_\_\_\_\_
- Describe the type of institutional control (e.g., deed restriction or easement): \_\_\_\_\_
- Describe any use limitations: \_\_\_\_\_
- Describe any engineering controls: \_\_\_\_\_
- Will the project affect the institutional or engineering controls in place?  Yes  No
- Explain: \_\_\_\_\_

---

**E.2. Natural Resources On or Near Project Site**

a. What is the average depth to bedrock on the project site? \_\_\_\_\_ 30 to 50 feet

b. Are there bedrock outcroppings on the project site?  Yes  No  
 If Yes, what proportion of the site is comprised of bedrock outcroppings? \_\_\_\_\_ %

c. Predominant soil type(s) present on project site:

Clay	_____	65 %
Loam	_____	35 %
	_____	%

d. What is the average depth to the water table on the project site? Average: \_\_\_\_\_ 5+ feet

e. Drainage status of project site soils:  Well Drained: \_\_\_\_\_ 10 % of site  
 Moderately Well Drained: \_\_\_\_\_ 25 % of site  
 Poorly Drained \_\_\_\_\_ 65 % of site

f. Approximate proportion of proposed action site with slopes:  0-10%: \_\_\_\_\_ 99 % of site  
 10-15%: \_\_\_\_\_ 0 % of site  
 15% or greater: \_\_\_\_\_ 1 % of site

g. Are there any unique geologic features on the project site?  Yes  No  
 If Yes, describe: \_\_\_\_\_

h. Surface water features.

i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers, ponds or lakes)?  Yes  No

ii. Do any wetlands or other waterbodies adjoin the project site?  Yes  No  
 If Yes to either i or ii, continue. If No, skip to E.2.i.

iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal, state or local agency?  Yes  No

iv. For each identified regulated wetland and waterbody on the project site, provide the following information:

- Streams: Name Ont-114, Ont-113, Red Creek, Classification B, B, B
- Lakes or Ponds: Name \_\_\_\_\_ Classification \_\_\_\_\_
- Wetlands: Name RH-14, RH-15, RH16 Classification \_\_\_\_\_
- Wetland No. (if regulated by DEC) \_\_\_\_\_ Approximate Size 147.9

v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies?  Yes  No  
 If yes, name of impaired water body/bodies and basis for listing as impaired: \_\_\_\_\_  
Rochester Embayment East/ Fiscal Coliform

i. Is the project site in a designated Floodway?  Yes  No

j. Is the project site in the 100-year Floodplain?  Yes  No

k. Is the project site in the 500-year Floodplain?  Yes  No

l. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer?  Yes  No  
 If Yes:  
 i. Name of aquifer: \_\_\_\_\_

m. Identify the predominant wildlife species that occupy or use the project site:  
White Tailed Deer      Various Birds      Various Amphibians and Reptiles  
Gray Squirrels      Woodland Mammals

n. Does the project site contain a designated significant natural community?  Yes  No  
If Yes:  
i. Describe the habitat/community (composition, function, and basis for designation): \_\_\_\_\_  
ii. Source(s) of description or evaluation: \_\_\_\_\_  
iii. Extent of community/habitat:  
• Currently: \_\_\_\_\_ acres  
• Following completion of project as proposed: \_\_\_\_\_ acres  
• Gain or loss (indicate + or -): \_\_\_\_\_ acres

o. Does project site contain any species of plant or animal that is listed by the federal government or NYS as endangered or threatened, or does it contain any areas identified as habitat for an endangered or threatened species?  Yes  No  
If Yes:  
i. Species and listing (endangered or threatened): \_\_\_\_\_

p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a species of special concern?  Yes  No  
If Yes:  
i. Species and listing: \_\_\_\_\_  
Rare Freshwater Mussel (not listed by NYS)

q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing?  Yes  No  
If yes, give a brief description of how the proposed action may affect that use: \_\_\_\_\_

**E.3. Designated Public Resources On or Near Project Site**

a. Is the project site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304?  Yes  No  
If Yes, provide county plus district name/number: \_\_\_\_\_

b. Are agricultural lands consisting of highly productive soils present?  
i. If Yes: acreage(s) on project site?  Yes  No  
ii. Source(s) of soil rating(s): \_\_\_\_\_

c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark?  Yes  No  
If Yes:  
i. Nature of the natural landmark:  Biological Community       Geological Feature  
ii. Provide brief description of landmark, including values behind designation and approximate size/extent: \_\_\_\_\_

d. Is the project site located in or does it adjoin a state listed Critical Environmental Area?  Yes  No  
If Yes:  
i. CEA name: Not Named  
ii. Basis for designation: Environmentally Sensitive  
iii. Designating agency and date: City of Rochester

e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places; or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?  Yes  No

If Yes:

i. Nature of historic/archaeological resource:  Archaeological Site  Historic Building or District

ii. Name: Genesee Valley Park, Durand Eastman Arboretum

iii. Brief description of attributes on which listing is based:  
GVP: Criteria A and Criteria C: 8/18/2017 and 8/18/2019 DE; Survey Completed 7/06/2021

---

f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?  Yes  No

---

g. Have additional archaeological or historic site(s) or resources been identified on the project site?  Yes  No

If Yes:

i. Describe possible resource(s): \_\_\_\_\_

ii. Basis for identification: \_\_\_\_\_

---

h. Is the project site within five miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource?  Yes  No

If Yes:

i. Identify resource: Genesee Valley Greenway Trail, Erie Canal Trail, among others

ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway, etc.): Trails

iii. Distance between project and resource: \_\_\_\_\_ Varies miles.

---

i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666?  Yes  No

If Yes:

i. Identify the name of the river and its designation: \_\_\_\_\_

ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666?  Yes  No

**F. Additional Information**

Attach any additional information which may be needed to clarify your project.

If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.

**G. Verification**

I certify that the information provided is true to the best of my knowledge.

Applicant/Sponsor Name Robert W. Kley, Howard Co. Dept Date 7.19.2022

Signature [Signature] Title Deputy Director of Parks

**PRINT FORM**

**Full Environmental Assessment Form**  
**Part 2 - Identification of Potential Project Impacts**

Agency Use Only (If applicable)

Project: \_\_\_\_\_  
 Date: \_\_\_\_\_

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

**Tips for completing Part 2:**

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1, D.1) <i>If "Yes", answer questions a - j. If "No", move on to Section 2.</i>		<input type="checkbox"/> NO	<input checked="" type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may involve construction on slopes of 15% or greater.	E2f	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	D1c	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	B1i	<input checked="" type="checkbox"/>	<input type="checkbox"/>
h. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

**2. Impact on Geological Features**

The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)

NO

YES

If "Yes", answer questions a - c. If "No", move on to Section 3.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached: _____	E2g	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature: _____	E3c	<input type="checkbox"/>	<input type="checkbox"/>
c. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

**3. Impacts on Surface Water**

The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h)

NO

YES

If "Yes", answer questions a - l. If "No", move on to Section 4.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d	<input checked="" type="checkbox"/>	<input type="checkbox"/>
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e	<input checked="" type="checkbox"/>	<input type="checkbox"/>
i. The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.	E2h	<input checked="" type="checkbox"/>	<input type="checkbox"/>
j. The proposed action may involve the application of pesticides or herbicides in or around any water body.	D2q, E2h	<input checked="" type="checkbox"/>	<input type="checkbox"/>
k. The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.	D1a, D2d	<input checked="" type="checkbox"/>	<input type="checkbox"/>

1. Other impacts: \_\_\_\_\_

	<input type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------

**4. Impact on groundwater**  
 The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquifer.  
 (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t)  
 If "Yes", answer questions a - h. If "No", move on to Section 5.

NO       YES

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c	<input type="checkbox"/>	<input type="checkbox"/>
b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer. Cite Source: _____	D2c	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	D1a, D2c	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E2l	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E2l	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c	<input type="checkbox"/>	<input type="checkbox"/>
h. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

**5. Impact on Flooding**  
 The proposed action may result in development on lands subject to flooding.  
 (See Part 1. E.2)  
 If "Yes", answer questions a - g. If "No", move on to Section 6.

NO       YES

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in development in a designated floodway.	E2i	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in development within a 100 year floodplain.	E2j	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may result in development within a 500 year floodplain.	E2k	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may result in, or require, modification of existing drainage patterns.	D2b, D2e	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f. If there is a dam located on the site of the proposed action, is the dam in need of repair, or upgrade?	E1e	<input checked="" type="checkbox"/>	<input type="checkbox"/>

g. Other impacts: \_\_\_\_\_

**6. Impacts on Air**  
 The proposed action may include a state regulated air emission source. (See Part I. D.2.f., D.2.h, D.2.g)  
*If "Yes", answer questions a - f. If "No", move on to Section 7.*

NO       YES

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels: i. More than 1000 tons/year of carbon dioxide (CO <sub>2</sub> ) ii. More than 3.5 tons/year of nitrous oxide (N <sub>2</sub> O) iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs) iv. More than .045 tons/year of sulfur hexafluoride (SF <sub>6</sub> ) v. More than 1000 tons/year of carbon dioxide equivalent of hydrochlorofluorocarbons (HFCs) emissions vi. 43 tons/year or more of methane	D2g D2g D2g D2g D2g D2h	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
b. The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.	D2g	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.	D2f, D2g	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may reach 50% of any of the thresholds in "a" through "c", above.	D2g	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.	D2s	<input type="checkbox"/>	<input type="checkbox"/>
f. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

**7. Impact on Plants and Animals**  
 The proposed action may result in a loss of flora or fauna. (See Part I. E.2. m.-q.)  
*If "Yes", answer questions a - j. If "No", move on to Section 8.*

NO       YES

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2o	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in a reduction or degradation of any habitat used by any rare, threatened or endangered species, as listed by New York State or the federal government.	E2o	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may cause reduction in population, or loss of individuals, of any species of special concern or conservation need, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2p	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may result in a reduction or degradation of any habitat used by any species of special concern and conservation need, as listed by New York State or the Federal government.	E2p	<input type="checkbox"/>	<input type="checkbox"/>

e. The proposed action may diminish the capacity of a registered National Natural Landmark to support the biological community it was established to protect.	E3c	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may result in the removal of, or ground disturbance in, any portion of a designated significant natural community. Source: _____	E2n	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may substantially interfere with nesting/breeding, foraging, or over-wintering habitat for the predominant species that occupy or use the project site.	E2m	<input type="checkbox"/>	<input type="checkbox"/>
h. The proposed action requires the conversion of more than 10 acres of forest, grassland or any other regionally or locally important habitat. Habitat type & information source: _____	E1b	<input type="checkbox"/>	<input type="checkbox"/>
i. Proposed action (commercial, industrial or recreational projects, only) involves use of herbicides or pesticides.	D2q	<input type="checkbox"/>	<input type="checkbox"/>
j. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

<b>8. Impact on Agricultural Resources</b>			
The proposed action may impact agricultural resources. (See Part I, E.3.a. and b.)			
If "Yes", answer questions a - h. If "No", move on to Section 9.		<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may impact soil classified within soil group 1 through 4 of the NYS Land Classification System.	E2c, E3b	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc).	E1a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land.	E3b	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 acres if not within an Agricultural District.	E1b, E3a	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may disrupt or prevent installation of an agricultural land management system.	E1a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may result, directly or indirectly, in increased development potential or pressure on farmland.	C2c, C3, D2c, D2d	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed project is not consistent with the adopted municipal Farmland Protection Plan.	C2c	<input type="checkbox"/>	<input type="checkbox"/>
h. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

**9. Impact on Aesthetic Resources**  
 The land use of the proposed action are obviously different from, or are in sharp contrast to, current land use patterns between the proposed project and a scenic or aesthetic resource. (Part I. E.1.a, E.1.b, E.3.h.)  
 If "Yes", answer questions a - g. If "No", go to Section 10.

NO       YES

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Proposed action may be visible from any officially designated federal, state, or local scenic or aesthetic resource.	E3h	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in the obstruction, elimination or significant screening of one or more officially designated scenic views.	E3h, C2b	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may be visible from publicly accessible vantage points: i. Seasonally (e.g., screened by summer foliage, but visible during other seasons) ii. Year round	E3h	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
d. The situation or activity in which viewers are engaged while viewing the proposed action is: i. Routine travel by residents, including travel to and from work ii. Recreational or tourism based activities	E3h E2q. E1c	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
e. The proposed action may cause a diminishment of the public enjoyment and appreciation of the designated aesthetic resource.	E3h	<input type="checkbox"/>	<input type="checkbox"/>
f. There are similar projects visible within the following distance of the proposed project: 0-1/2 mile 1/2-3 mile 3-5 mile 5+ mile	D1a, E1a, D1f, D1g	<input type="checkbox"/>	<input type="checkbox"/>
g. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

**10. Impact on Historic and Archeological Resources**  
 The proposed action may occur in or adjacent to a historic or archaeological resource. (Part I. E.3.e, f, and g.)  
 If "Yes", answer questions a - e. If "No", go to Section 11.

NO       YES

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may occur wholly or partially within, or substantially contiguous to, any buildings, archaeological site or district which is listed on the National or State Register of Historical Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places.	E3e	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.	E3f	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may occur wholly or partially within, or substantially contiguous to, an archaeological site not included on the NY SHPO inventory. Source: _____	E3g	<input checked="" type="checkbox"/>	<input type="checkbox"/>

d. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>
If any of the above (a-d) are answered "Moderate to large impact may occur", continue with the following questions to help support conclusions in Part 3:			
i. The proposed action may result in the destruction or alteration of all or part of the site or property.	E3e, E3g, E3f	<input type="checkbox"/>	<input type="checkbox"/>
ii. The proposed action may result in the alteration of the property's setting or integrity.	E3e, E3f, E3g, E1a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
iii. The proposed action may result in the introduction of visual elements which are out of character with the site or property, or may alter its setting.	E3e, E3f, E3g, E3h, C2, C3	<input type="checkbox"/>	<input type="checkbox"/>

**11. Impact on Open Space and Recreation**  
 The proposed action may result in a loss of recreational opportunities or a reduction of an open space resource as designated in any adopted municipal open space plan.  NO  YES  
 (See Part I. C.2.c, E.1.c., E.2.q.)  
 If "Yes", answer questions a - e. If "No", go to Section 12.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in an impairment of natural functions, or "ecosystem services", provided by an undeveloped area, including but not limited to stormwater storage, nutrient cycling, wildlife habitat.	D2e, E1b, E2h, E2m, E2o, E2n, E2p	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in the loss of a current or future recreational resource.	C2a, E1c, C2c, E2q	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may eliminate open space or recreational resource in an area with few such resources.	C2a, C2c, E1c, E2q	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may result in loss of an area now used informally by the community as an open space resource.	C2c, E1c	<input type="checkbox"/>	<input type="checkbox"/>
e. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

**12. Impact on Critical Environmental Areas**  
 The proposed action may be located within or adjacent to a critical environmental area (CEA). (See Part I. E.3.d)  
 If "Yes", answer questions a - c. If "No", go to Section 13.  NO  YES

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in a reduction in the quantity of the resource or characteristic which was the basis for designation of the CEA.	E3d	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in a reduction in the quality of the resource or characteristic which was the basis for designation of the CEA.	E3d	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

**13. Impact on Transportation**  
 The proposed action may result in a change to existing transportation systems.  NO  YES  
 (See Part I. D.2.j)  
 If "Yes", answer questions a - f. If "No", go to Section 14.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Projected traffic increase may exceed capacity of existing road network.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in the construction of paved parking area for 500 or more vehicles.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action will degrade existing transit access.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action will degrade existing pedestrian or bicycle accommodations.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may alter the present pattern of movement of people or goods.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
f. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

**14. Impact on Energy**  
 The proposed action may cause an increase in the use of any form of energy.  NO  YES  
 (See Part I. D.2.k)  
 If "Yes", answer questions a - e. If "No", go to Section 15.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action will require a new, or an upgrade to an existing, substation.	D2k	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action will require the creation or extension of an energy transmission or supply system to serve more than 50 single or two-family residences or to serve a commercial or industrial use.	D1f, D1q, D2k	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may utilize more than 2,500 MWhrs per year of electricity.	D2k	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may involve heating and/or cooling of more than 100,000 square feet of building area when completed.	D1g	<input type="checkbox"/>	<input type="checkbox"/>
e. Other Impacts: _____			

**15. Impact on Noise, Odor, and Light**  
 The proposed action may result in an increase in noise, odors, or outdoor lighting.  NO  YES  
 (See Part I. D.2.m., n., and o.)  
 If "Yes", answer questions a - f. If "No", go to Section 16.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may produce sound above noise levels established by local regulation.	D2m	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in blasting within 1,500 feet of any residence, hospital, school, licensed day care center, or nursing home.	D2m, E1d	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may result in routine odors for more than one hour per day.	D2o	<input type="checkbox"/>	<input type="checkbox"/>

d. The proposed action may result in light shining onto adjoining properties.	D2n	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may result in lighting creating sky-glow brighter than existing area conditions.	D2n, E1a	<input type="checkbox"/>	<input type="checkbox"/>
f. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

**16. Impact on Human Health**  
 The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part 1.D.2.q., E.1. d. f. g. and h.)  NO  YES  
*If "Yes", answer questions a - m. If "No", go to Section 17.*

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.	E1d	<input type="checkbox"/>	<input type="checkbox"/>
b. The site of the proposed action is currently undergoing remediation.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.	D2t	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action involves construction or modification of a solid waste management facility.	D2q, E1f	<input type="checkbox"/>	<input type="checkbox"/>
h. The proposed action may result in the unearthing of solid or hazardous waste.	D2q, E1f	<input type="checkbox"/>	<input type="checkbox"/>
i. The proposed action may result in an increase in the rate of disposal, or processing, of solid waste.	D2r, D2s	<input type="checkbox"/>	<input type="checkbox"/>
j. The proposed action may result in excavation or other disturbance within 2000 feet of a site used for the disposal of solid or hazardous waste.	E1f, E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
k. The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.	E1f, E1g	<input type="checkbox"/>	<input type="checkbox"/>
l. The proposed action may result in the release of contaminated leachate from the project site.	D2s, E1f, D2r	<input type="checkbox"/>	<input type="checkbox"/>
m. Other impacts: _____			

**17. Consistency with Community Plans**

The proposed action is not consistent with adopted land use plans.  
(See Part I. C.1, C.2, and C.3.)

NO

YES

If "Yes", answer questions a - h. If "No", go to Section 18.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action's land use components may be different from, or in sharp contrast to, current surrounding land use pattern(s).	C2, C3, D1a E1a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action will cause the permanent population of the city, town or village in which the project is located to grow by more than 5%.	C2	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action is inconsistent with local land use plans or zoning regulations.	C2, C2, C3	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action is inconsistent with any County plans, or other regional land use plans.	C2, C2	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may cause a change in the density of development that is not supported by existing infrastructure or is distant from existing infrastructure.	C3, D1c, D1d, D1f, D1d, E1b	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action is located in an area characterized by low density development that will require new or expanded public infrastructure.	C4, D2c, D2d D2j	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may induce secondary development impacts (e.g., residential or commercial development not included in the proposed action)	C2a	<input type="checkbox"/>	<input type="checkbox"/>
h. Other: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

**18. Consistency with Community Character**

The proposed project is inconsistent with the existing community character.  
(See Part I. C.2, C.3, D.2, E.3)

NO

YES

If "Yes", answer questions a - g. If "No", proceed to Part 3.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may replace or eliminate existing facilities, structures, or areas of historic importance to the community.	E3e, E3f, E3g	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may create a demand for additional community services (e.g. schools, police and fire)	C4	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may displace affordable or low-income housing in an area where there is a shortage of such housing.	C2, C3, D1f D1g, E1a	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may interfere with the use or enjoyment of officially recognized or designated public resources.	C2, E3	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action is inconsistent with the predominant architectural scale and character.	C2, C3	<input type="checkbox"/>	<input type="checkbox"/>
f. Proposed action is inconsistent with the character of the existing natural landscape.	C2, C3 E1a, E1b E2g, E2h	<input type="checkbox"/>	<input type="checkbox"/>
g. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

**PRINT FULL FORM**

Project: \_\_\_\_\_ Agency Use Only (If Applicable)  
Date: \_\_\_\_\_

**Full Environmental Assessment Form**  
**Part 3 - Evaluation of the Magnitude and Importance of Project Impacts**  
**and**  
**Determination of Significance**

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

**Reasons Supporting This Determination:**

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

See Attached.

**Determination of Significance - Type 1 and Unlisted Actions**

SEQR Status:  Type 1  Unlisted

Identify portions of EAF completed for this Project:  Part 1  Part 2  Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information  
Additional Mapping, Environmental Resource Mapper, Environmental Assessment Forms

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the  
Monroe County as lead agency that:

A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Name of Action: Monroe County Parks Department --Golf Course Improvements

Name of Lead Agency: Monroe County

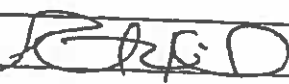

Name of Responsible Officer in Lead Agency: Adam J. Ballo

Title of Responsible Officer: County Executive

Signature of Responsible Officer in Lead Agency:

Date:

Signature of Preparer (if different from Responsible Officer)

Date: 7.19.2022

**For Further Information:**

Contact Person: Robert W. Kiley, Deputy Director Monroe County Parks

Address: 171 Reservoir Rd Rochester NY 14620

Telephone Number: 585-753-7279

E-mail: robertkiley@monroecounty.gov

**For Type 1 Actions and Conditioned Negative Declarations, a copy of this Notice is sent to:**

Chief Executive Officer of the political subdivision in which the action will be principally located (e.g., Town / City / Village of)

Other involved agencies (if any)

Applicant (if any)

Environmental Notice Bulletin: 2022-07-19-001

**PRINT FULL FORM**

## Full Environmental Assessment Form

### Part 3

#### **Impact on Land.**

The proposed project seeks repair of existing water mains, laterals and sprinkler heads throughout the three county owned golf courses. The project will also repair and replace existing subsurface clay drainage tile throughout the golf courses, installing new perforated drainage tile in its place. Disturbances of turf would occur during the repair of the existing infrastructure. The total disturbances across the three golf courses is estimated at six (6) acres. It should be noted that these disturbances would be made sporadically and not all one at a time. It is anticipated that the contractor retained for the project would cut existing sod, roll said sod, remove topsoil and subsoil exposing the existing main/lateral or drainage line, repair and replace the line, then backfill and reroll the sod back atop the trench. This manner / methodology for the repair and replacement of subsurface infrastructure is critical to ensure the continuation of play at the golf courses. This means and method will also greatly reduce the likelihood of any sediment transport or erosion during construction. That said, proper erosion and sediment controls will need to be installed at times when soil stabilization methods cannot be implemented to ensure erosion does not occur.

The installation of golf cart paths is estimated to disturb roughly 3.5 acres across all three golf courses. Many of the existing golf cart paths are stone and stone dust, while others, due to golf cart traffic, are denuded soils absent sufficient vegetated cover. In other areas, prospective golf cart paths are currently turfed areas, thus soil disturbances will occur for the installation of pavement. During the construction efforts, proper erosion and sediment controls will need to be installed to ensure that erosion does not occur. Further, soil stabilization methodologies will need to be employed to ensure proper vegetative cover once soil disturbances cease.

Given the disturbances are over 1 acre in size a Stormwater Pollution Prevention Plan (SWPPP) may need to be developed. The engineer of record will need to develop a soil erosion and sediment control plan to properly mitigate construction impacts and, potentially, design post construction stormwater best management practices. If the implementation of a SWPPP does occur, weekly inspections ensuring compliance with the stormwater regulations will occur. Therefore, there are no significant impacts to land anticipated.

#### **Impact on Water.**

The majority of the prospective work located in Durand Eastman Golf Course will occur within New York State Department of Environmental Conservation (NYS-DEC) Regulated wetlands, RH-14, RH-15, and RH16. While these wetland areas have been designated by the NYS-DEC, the entirety of these wetlands have been utilized as the Durand Eastman golf course since its creation in early 1900s. The project seeks to repair and replace existing subsurface infrastructure at the golf course, thus no significant new impact will occur. In select areas where golf cart traffic has denuded the existing turf, the project may likely have a net positive benefit as those

soils will be stabilized permanently. The aforementioned SWPPP will attenuate any water quality/quantity considerations with regard to stormwater management. As the project commences permitting with NYS-DEC for wetland permit coverage and for stormwater management compliance all requirements will be carried out in accordance with final permit coverage. As a result of the aforementioned, no significant impacts to water are anticipated.

#### **Impact on Flooding.**

The repair and replacement of existing subsurface infrastructure and golf cart construction will occur within the floodplain at Durand Eastman and Genesee Valley Park. Given the preferred means and methods for repair and replacement subsurface infrastructure the potential increase for stormwater runoff is greatly reduced. Further, the proper use of erosion and sediment controls would further mitigate any potential impacts from golf cart paving efforts. The SWPPP would address any potential increases in post construction runoff by use of post construction stormwater best management practices, such as infiltration strips, vegetated swales etc. As a result of the aforementioned, no significant impacts to flooding are anticipated.

#### **Impact on Flora and Fauna.**

In 1986, the City of Rochester designated Genesee Valley Park and Durand Eastman as a critical environmental area, noting that it is an environmentally sensitive area. The NYS-DEC Environmental Resource Mapper was reviewed and no threatened or endanger species were mapped within the project areas. All turfed / grassed areas will be returned to existing conditions after the construction activities, thus there is very little disruption to the local plant life throughout the project area. As a result of the aforementioned, no impacts to flora and fauna are anticipated.

#### **Impact on Aesthetics.**

The project does not change the aesthetics of the golf courses as the majority of the project seeks to repair and replace existing infrastructure. Patron experiences as a result of the repair and replacement of irrigation and sub-surface drainage should greatly increase. In addition, the paving of the golf cart paths will have a net positive as turf will no longer be rutted, muddy, and dusty seasonally. As a result of the aforementioned, no impacts to aesthetics are anticipated.

#### **Impact on Archeological Resources and Aesthetics.**

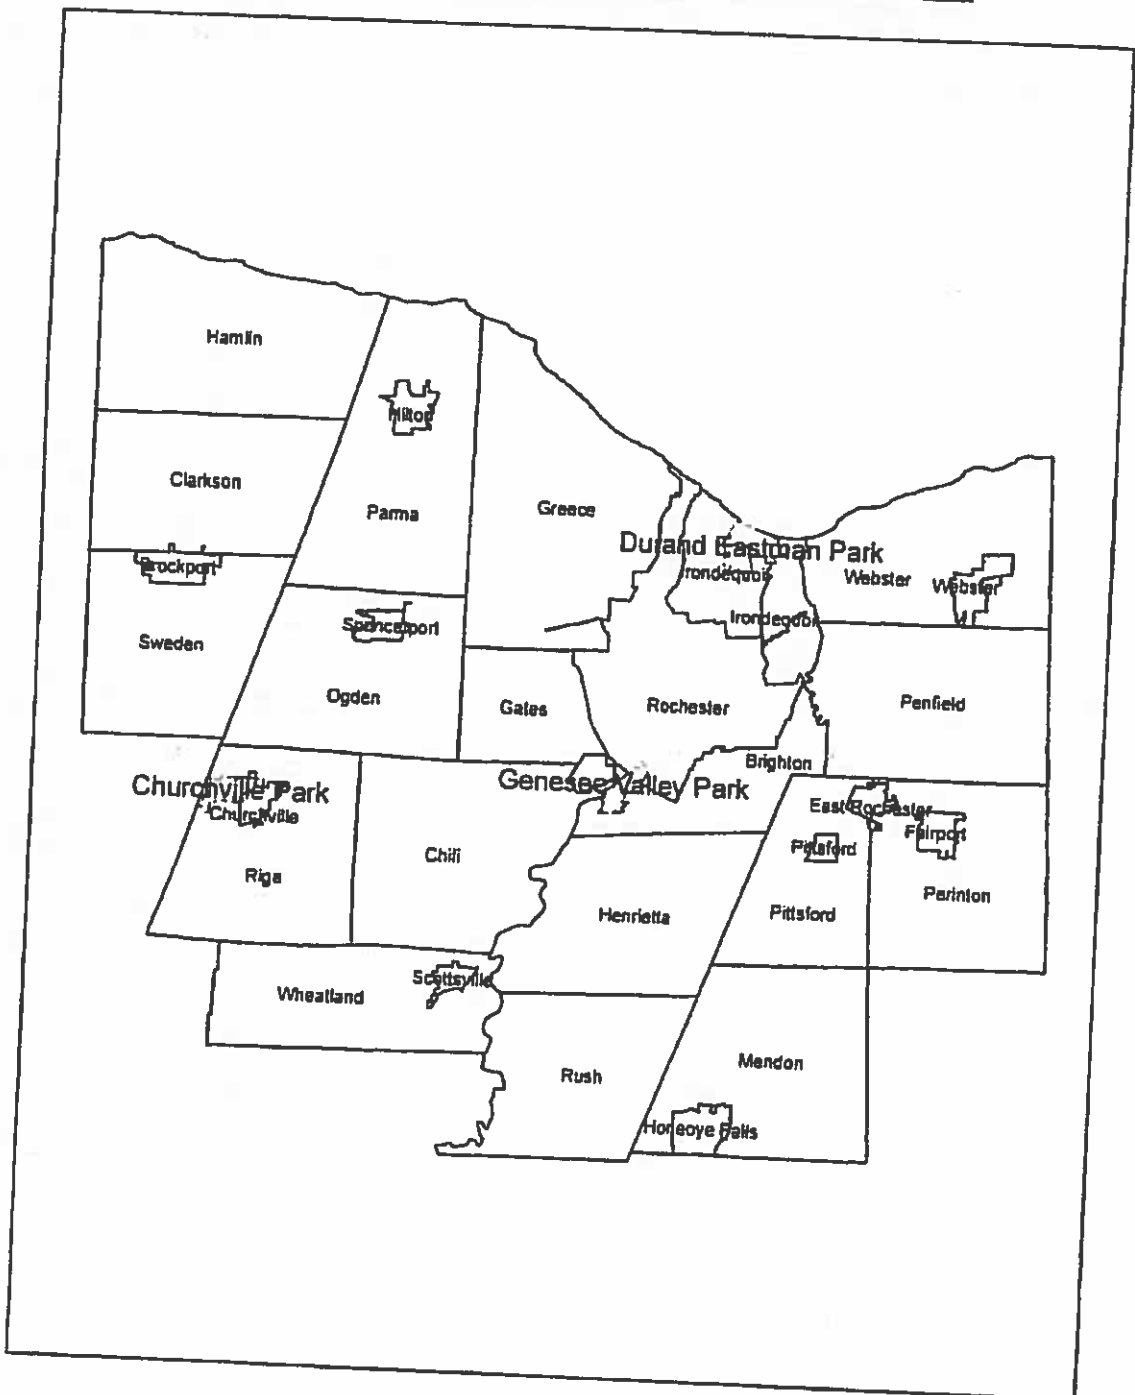

Genesee Valley Park is an eligible national registrar location as it is associated with events that have made significant contribution to the broad patterns of our history (Criteria A) and embodies the distinctive characteristics of a type, period or method of construction; and/or represents the work of a master; and/or possess high characteristic values; and/or represents a significant and distinguishable entity whose component may lack individual distinctions (Criteria C). As Genesee Valley Park is a Frederick Law Olmstead designed park, the park itself as a whole is eligible for designation. Durand Eastman arboretum is possibly eligible for designation and is currently in review with the most recent survey being conducted on 7/06/2021. The arboretum is adjacent to the golf course and there are no plans for any repair activities within that section of the park. The project does not change the aesthetics of the golf courses/parks as the majority of

---

the project seeks to repair and replace existing infrastructure. Patron experiences as a result of the repair and replacement subsurface infrastructure should greatly increase as a result of the project. In addition, the paving of the golf cart paths will have a net positive as turf will no longer be rutted, muddy, and dusty seasonally. These actions are in keeping with the aesthetic and historic nature the golf courses, thus no significant impact is anticipated to the archeological resources and aesthetics.

Based on the above factors, this project will result in no significant adverse impacts on the environment, there an environmental impact statement need not be prepared. Accordingly, a negative declaration is issued.

## Environmental Resource Mapper

The coordinates of the point you clicked on are:

UTM 18	Easting: 264211.1493612261	Northing: 4777523.992513429
Longitude/Latitude	Longitude: -77.89808987650336	Latitude: 43.113758113576935

The approximate address of the point you clicked on is:  
643 Kendall Rd, Churchville, New York, 14428

County: Monroe  
Town: Riga  
USGS Quad: CHURCHVILLE

If your project or action is within or near an area with a rare animal, a permit may be required if the species is listed as endangered or threatened and the department determines the action may be harmful to the species or its habitat.

If your project or action is within or near an area with rare plants and/or significant natural communities, the environmental impacts may need to be addressed.

The presence of a unique geological feature or landform near a project, unto itself, does not trigger a requirement for a NYS DEC permit. Readers are advised, however, that there is the chance that a unique feature may also show in another data layer (ie. a wetland) and thus be subject to permit jurisdiction.

Please refer to the "Need a Permit?" tab for permit information or other authorizations regarding these natural resources.

**Disclaimer:** If you are considering a project or action in, or near, a wetland or a stream, a NYS DEC permit may be required. The Environmental Resources Mapper does not show all natural resources which are regulated by NYS DEC, and for which permits from NYS DEC are required. For example, Regulated Tidal Wetlands, and Wild, Scenic, and Recreational Rivers, are currently not included on the maps.

# Office of the County Executive

Monroe County, New York

**Adam J. Bello**  
*County Executive*

August 5, 2022

<b>OFFICIAL FILE COPY</b>
No. <u>220272</u>
Not to be removed from the Office of the <b>Legislature Of Monroe County</b>
<b>Committee Assignment</b>
<b>ENV. &amp; PUB. WORKS -L</b>

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

**Subject:** Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for Underground Power and Data Utility Upgrades at Gary Beikirch Memorial Park

Honorable Legislators:

I recommend that Your Honorable Body determine whether underground power and data utility upgrades at Gary Beikirch Memorial Park may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project, a component of the proposed \$9.4 million in Phase II Monroe County Parks system-wide improvements, will upgrade the electrical and data fiber connections throughout the festival site at Gary Beikirch Memorial Park – formerly known as Highland Park South – used for various park purposes including the annual Lilac Festival. This project will greatly decrease the noise and environmental impact created by the current heavy use of temporary generators during events and will provide better Internet service to park staff and vendors.

The underground utility work has been preliminarily classified as an Unlisted Action. The SEQRA regulations found at 6 NYCRR Part 617 require that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

1. Determine that the underground utility work is an Unlisted action.
2. Make a determination of significance regarding underground utility work pursuant to 6 NYCRR 617.7.

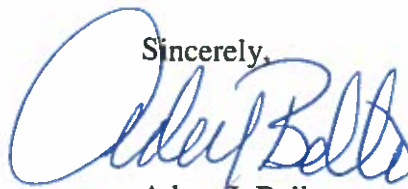

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

## Short-Environmental Assessment Form

### Part 1 - Project Information

#### Instructions for Completing

**Part 1 - Project Information.** The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information			
Monroe County Underground Electrical at Highland Park			
Name of Action or Project: Installation of Underground Electric and Fiber throughout Highland Park			
Project Location (describe, and attach a location map): The Project is located at one site at Highland Park			
Brief Description of Proposed Action: The project will install a series of underground electrical conduits to support electrical upgrades and fiber Internet connectivity throughout Highland Park. Highland Park is visited by more than a quarter million patrons during the spring and during festivals, generators (owned and operated by Monroe County) are used to ensure that festival vendors have their required power. The goal of this project would be to install underground electrical conduit and sub panels allowing direct hook ups by vendors, thus eliminating the need for County employees to man the generators and the diesel fuel to power them. Further within the scope of this project would be an upgrade to wireless internet throughout Park. The current communication and Internet services throughout the Park are coax, a technology that is well past its time.			
Name of Applicant or Sponsor: Monroe County - Robert W. Kiley, Deputy Director		Telephone: 585-753-7279	
Address: 171 Reservoir Rd		E-Mail: robertkiley@monroecounty.gov	
City/PO: Rochester		State: NY	Zip Code: 14620
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.		NO	YES
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval:		<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. a. Total acreage of the site of the proposed action?		25 acres	
b. Total acreage to be physically disturbed?		0.20 acres	
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?		158.42 acres	
4. Check all land uses that occur on, are adjoining or near the proposed action:			
<input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input type="checkbox"/> Residential (suburban) <input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other (Specify): <input checked="" type="checkbox"/> Parkland			

5. Is the proposed action,			NO	YES	N/A
a. A permitted use under the zoning regulations?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Consistent with the adopted comprehensive plan?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?			NO	YES	
			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?			NO	YES	
If Yes, identify: <u>City of Rochester; 1986 Environmentally Sensitive</u>			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?			NO	YES	
b. Are public transportation services available at or near the site of the proposed action?			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements?			NO	YES	
If the proposed action will exceed requirements, describe design features and technologies: <u>This project will allow the elimination of diesel powered generators. Operation of the multiple generators not only will reduce noise generated during their operation, but it will also reduce localized pollution from exhaust and particulates.</u>			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
10. Will the proposed action connect to an existing public/private water supply?			NO	YES	
If No, describe method for providing potable water: _____			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
11. Will the proposed action connect to existing wastewater utilities?			NO	YES	
If No, describe method for providing wastewater treatment: _____			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?			NO	YES	
<u>Located adjacent to the Mt Hope Highland Historic District, the Lamberton Conservatory and other historic structures</u>			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?			NO	YES	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
_____					
_____					

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:

Shoreline  Forest  Agricultural/grasslands  Early mid-successional  
 Wetland  Urban  Suburban

15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

16. Is the project site located in the 100-year flood plain?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

17. Will the proposed action create storm water discharge, either from point or non-point sources?  
If Yes,

a. Will storm water discharges flow to adjacent properties?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?  
If Yes, briefly describe:

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)?  
If Yes, explain the purpose and size of the impoundment.

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility?  
If Yes, describe:

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste?  
If Yes, describe:

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Part 2 - Impact Assessment**

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing: a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project consists of the installation of a series of underground electrical conduits and fiberoptic cabling to allow for access to electric and Internet connectivity throughout Highland Park. During the spring, generators are used to ensure that festival vendors have required power. These generators are diesel fueled owned and operated by the County of Monroe. Installing underground electrical conduit and sub panels will allow direct electrical hook up by vendors, thus eliminating the need for on-site diesel generators. Concurrent with the electrical conduit, fiber optic conduit will be installed thus allowing wireless Internet throughout Park. The current communication and Internet services throughout the Park are coax, a technology that is well past its time.

Minor earthen disturbances would occur when digging for the bury and return pits necessary to advance the directional drilling of the conduit. In areas where earthen disturbances do occur, erosion and sediment controls would be utilized to eliminate the erosion of soil. Depending on the depth of the minor excavating pits, topsoil and subsoils will be differentiated, thus ensuring that the soils are remitted back into the bury pit first, with topsoil being laid to grade. As soil erosion & sedimentation controls would be utilized, there are no significant impacts to land anticipated.

There are no waterbodies within the immediate area of the project, and given erosion and sediment controls would be utilized where earthen disturbances do occur, no significant impacts to waterbodies are anticipated. The NYS-DEC Environmental Resource Mapper was reviewed and while no endangered or threatened species were identified, Highland park is locally known for diverse and high values flora. The care of the flora throughout the park is paramount, thus open trenching was disbanded as a viable concept, with directional drilling being the primary practice for the installation of the electrical conduit. By drilling the conduit, impacts to the root structures of the specimen flora are lessened significantly. Therefore, no significant adverse impacts to flora and fauna are anticipated.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

## Environmental Resource Mapper

The coordinates of the point you clicked on are:

UTM 18	Easting: 287669.45313505596	Northing: 4778402.594476916
Longitude/Latitude	Longitude: -77.61040855802642	Latitude: 43.128599044739026

The approximate address of the point you clicked on is:  
Highland Park

County: Monroe  
City: Rochester  
USGS Quad: ROCHESTER EAST

If your project or action is within or near an area with a rare animal, a permit may be required if the species is listed as endangered or threatened and the department determines the action may be harmful to the species or its habitat.

If your project or action is within or near an area with rare plants and/or significant natural communities, the environmental impacts may need to be addressed.

The presence of a unique geological feature or landform near a project, unto itself, does not trigger a requirement for a NYS DEC permit. Readers are advised, however, that there is the chance that a unique feature may also show in another data layer (ie. a wetland) and thus be subject to permit jurisdiction.

Please refer to the "Need a Permit?" tab for permit information or other authorizations regarding these natural resources.

**Disclaimer:** If you are considering a project or action in, or near, a wetland or a stream, a NYS DEC permit may be required. The Environmental Resources Mapper does not show all natural resources which are regulated by NYS DEC, and for which permits from NYS DEC are required. For example, Regulated Tidal Wetlands, and Wild, Scenic, and Recreational Rivers, are currently not included on the maps.

# Office of the County Executive

Monroe County, New York

**Adam J. Bello**  
*County Executive*

August 5, 2022

<b>OFFICIAL FILE COPY</b>
No. <u>220273</u>
Not to be removed from the Office of the Legislature Of Monroe County
Committee Assignment
<b>ENV. &amp; PUB. WORKS-L</b>

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Demolition and Replacement of the Labor Center at Powder Mills Park

Honorable Legislators:

I recommend that Your Honorable Body determine whether the demolition and replacement of the labor center at Powder Mills Park may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project is a component of the proposed \$9.4 million in Phase II Monroe County Parks system-wide improvements. Due to water infiltration and susceptibility to tree fall damage, the almost 75-year-old staff workshop at this park is in dire need of replacement. The new workshop will be located nearby, but positioned more appropriately to alleviate some of the site conditions that helped lead to the severe issues at the existing building.

The demolition and replacement of this labor center has been preliminarily classified as an Unlisted Action. The SEQRA regulations found at 6 NYCRR Part 617 require that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

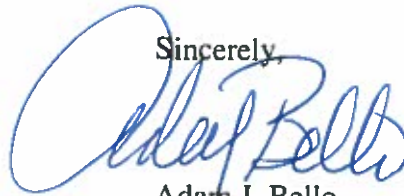

1. Determine that the demolition and replacement of this labor center is an Unlisted action.
2. Make a determination of significance regarding demolition and replacement of this labor center pursuant to 6 NYCRR 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

## Short Environmental Assessment Form

### Part 1 - Project Information

#### Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

<b>Part 1 - Project and Sponsor Information</b>			
Monroe County-Powder Mills Park Labor Center			
Name of Action or Project: Reconstruction of an existing Labor Center			
Project Location (describe, and attach a location map): The Project is located at one site at Powder Mills Park			
Brief Description of Proposed Action: The Powder Mills Park labor center is in dire need of replacement due to age of the facility and deterioration. The labor center is almost 75 years old and is poorly situated at the base of hill leading to damage due to tree falls and water infiltration. Parks seeks to construct a new labor center in close proximity but more appropriately located around the current parking lot.			
Name of Applicant or Sponsor: Monroe County - Robert W. Kiley, Deputy Director		Telephone: 585-753-7279	
Address: 171 Reservoir Rd		E-Mail: robertkiley@monroecounty.gov	
City/PO: Rochester		State: NY	Zip Code: 14620
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.		NO	YES
		<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval:		NO	YES
		<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. a. Total acreage of the site of the proposed action?		_____ 0.25 acres	
b. Total acreage to be physically disturbed?		_____ 0.25 acres	
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?		_____ 373.90 acres	
4. Check all land uses that occur on, are adjoining or near the proposed action:			
<input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input type="checkbox"/> Residential (suburban) <input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other (Specify): <input checked="" type="checkbox"/> Parkland			

5. Is the proposed action,			NO	YES	N/A
a. A permitted use under the zoning regulations?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Consistent with the adopted comprehensive plan?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?			NO	YES	
			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?			NO	YES	
If Yes, identify: _____			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?			NO	YES	
b. Are public transportation services available at or near the site of the proposed action?			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements?			NO	YES	
If the proposed action will exceed requirements, describe design features and technologies: N/A			<input type="checkbox"/>	<input type="checkbox"/>	
10. Will the proposed action connect to an existing public/private water supply?			NO	YES	
If No, describe method for providing potable water: _____			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
11. Will the proposed action connect to existing wastewater utilities?			NO	YES	
If No, describe method for providing wastewater treatment: _____			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?			NO	YES	
			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?			NO	YES	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____			<input checked="" type="checkbox"/>	<input type="checkbox"/>	

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:

Shoreline  Forest  Agricultural/grasslands  Early mid-successional  
 Wetland  Urban  Suburban

15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?

	NO	YES
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

16. Is the project site located in the 100-year flood plan?

	NO	YES
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

17. Will the proposed action create storm water discharge, either from point or non-point sources?  
If Yes,

a. Will storm water discharges flow to adjacent properties?

	NO	YES
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project consists of the demolition and the reconstruction of a new laborer center to be utilized by Parks staff members. The labor center is almost 75 years old, and prior to demolition of the structure, an asbestos sampling / abatement must occur. Once demolished a new premanufactured metal building would be constructed. As the existing labor center is poorly situated on the existing site, the new labor center may shift slightly to ensure the building does not become impacted by the adjacent embankment. Earthen disturbances during construction would be negligible as the existing site is currently paved and there is no basement planned, thus no significant excavation will occur. Erosion and sediment controls would be utilized during construction. As soil erosion & sedimentation controls would be utilized, there are no significant impacts to land anticipated.

The reconstruction of the building will not significantly increase stormwater runoff, as the existing conditions are already paved. However during the construction of the project, the County will review concepts to direct rooftop runoff to adjacent gardens, thus reducing stormwater runoff from reaching local waterbodies. As a result of the aforementioned, there are no significant impacts to waterbodies anticipated. The NYS-DEC Environmental Resource Mapper was reviewed and non listed species, regulated freshwater wetlands and nearby natural communities with high quality occurrence types were noted. As the project does not modify the size / nature of the labor center, no significant adverse impacts are anticipated.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

# Office of the County Executive

Monroe County, New York

Adam J. Bello  
County Executive

August 5, 2022

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Construction of Pickleball Courts at Black Creek Park and Mendon Ponds Park

Honorable Legislators:

I recommend that Your Honorable Body determine whether the construction of pickleball courts at Black Creek Park and Mendon Ponds Park may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project, a component of the proposed \$9.4 million in Phase II Monroe County Parks system-wide improvements, would bring additional pickleball courts into the county park system, located at parks that do not currently offer this amenity. The new courts would supplement our existing courts, which are very heavily used and were resurfaced in the first phase of parks improvements projects.

The construction of these pickleball courts has been preliminarily classified as an Unlisted Action. The SEQRA regulations found at 6 NYCRR Part 617 require that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

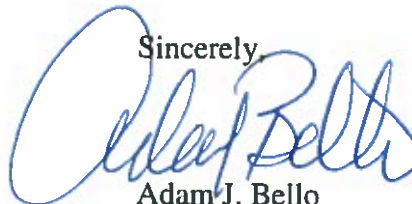

- 1, Determine that the construction of these pickleball courts is an Unlisted action.
2. Make a determination of significance regarding construction of these pickleball courts pursuant to 6 NYCRR 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Monroe County Executive

## Short Environmental Assessment Form

### Part 1 - Project Information

#### Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information			
Monroe County-Installation of Pickleball Courts			
Name of Action or Project:			
Installation of new Pickleball Courts at Black Creek and Mendon Ponds Park			
Project Location (describe, and attach a location map):			
The Project is located at two locations, Black Creek and Mendon Ponds Park			
Brief Description of Proposed Action:			
The County seeks to install new pickleball courts at Black Creek Park and Mendon Ponds Park.			
At Black Creek Park, the new pickleball courts would be constructed along the north side of the park, adjacent to an existing parking lot. Mapping attached. A minor expansion to the parking lot would occur to ensure that patrons have adequate parking. At Mendon Ponds Park, the existing stone / gravel parking lot located east of Hundred Acre Pond would be paved, thus creating the pickleball courts and the associated parking.			
Name of Applicant or Sponsor:		Telephone: 585-753-7279	
Monroe County - Robert W. Kiley, Deputy Director		E-Mail: robertkiley@monroecounty.gov	
Address:			
171 Reservoir Rd			
City/PO:			
Rochester		State:	Zip Code:
		NY	14620
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation?			NO    YES
If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			<input checked="" type="checkbox"/> <input type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency?			NO    YES
If Yes, list agency(s) name and permit or approval:			<input checked="" type="checkbox"/> <input type="checkbox"/>
3. a. Total acreage of the site of the proposed action?			_____ 1.9 acres
b. Total acreage to be physically disturbed?			_____ .95 acres
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?			_____ 4122.2 acres
4. Check all land uses that occur on, are adjoining or near the proposed action:			
<input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input type="checkbox"/> Residential (suburban) <input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other(Specify): <input checked="" type="checkbox"/> Parkland			

5. Is the proposed action,		NO	YES	N/A
a. A permitted use under the zoning regulations?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Consistent with the adopted comprehensive plan?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?		NO	YES	
		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?		NO	YES	
If Yes, identify: _____		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?		NO	YES	
b. Are public transportation services available at or near the site of the proposed action?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements?		NO	YES	
If the proposed action will exceed requirements, describe design features and technologies: N/A		<input type="checkbox"/>	<input type="checkbox"/>	
10. Will the proposed action connect to an existing public/private water supply?		NO	YES	
If No, describe method for providing potable water: N/A		<input type="checkbox"/>	<input type="checkbox"/>	
11. Will the proposed action connect to existing wastewater utilities?		NO	YES	
If No, describe method for providing wastewater treatment: N/A		<input type="checkbox"/>	<input type="checkbox"/>	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?		NO	YES	
		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?		NO	YES	
		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____				

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:

Shoreline  Forest  Agricultural/grasslands  Early mid-successional

Wetland  Urban  Suburban

15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

16. Is the project site located in the 100-year flood plan?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

17. Will the proposed action create storm water discharge, either from point or non-point sources?

If Yes,

a. Will storm water discharges flow to adjacent properties?

	NO	YES
	<input type="checkbox"/>	<input checked="" type="checkbox"/>

b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

If Yes, briefly describe:

\_\_\_\_\_

\_\_\_\_\_

18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)?

If Yes, explain the purpose and size of the impoundment:

\_\_\_\_\_

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility?

If Yes, describe:

\_\_\_\_\_

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste?

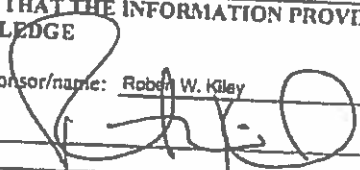

If Yes, describe:

\_\_\_\_\_

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE**

**Short Environmental Assessment Form  
Part 2 - Impact Assessment**

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing: a. public / private water supplies? b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g. wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

**Black Creek Park.** The new pickleball courts would be constructed along the north side of an existing parking lot. Mapping attached. Black Creek Park at this location is a moderately graded, grassed area, utilized for passive recreation. Enhanced use of this area for increased recreational purposes would occur on OdA hydric soils. Earthen disturbances during construction would be less than 0.95 acres and erosion and sediment controls would be utilized during construction. As soil erosion & sedimentation controls would be utilized, there are no significant impacts to land anticipated.

Stormwater runoff from the project will be directed into existing vegetated swales, thus allowing stormwater runoff to infiltrate into the soil media on site. Runoff will be directed south away from Black Creek, ensuring that additional stormwater runoff is not directed to Black Creek. Stormwater runoff will not be conveyed via a stormwater sewer system. As a result of the aforementioned, no significant impacts to waterbodies are anticipated. The NYS-DEC Environmental Resource Mapper was reviewed and rare freshwater mussels were identified. These mussels are not listed in NYS and as the project will not impact the stream in anyway, no significant impacts to flora and fauna are anticipated.

**Mendon Ponds Park.** The pickleball courts would be constructed in an existing gravel parking lot located on the east side of hundred acre pond. Mapping attached. Enhanced use of this area for increased recreational purposes would occur on the gravel lot, with PaC and OpC soils under the existing condition. There will be negligible, if any, earthen disturbances as a result of this project as the current conditions are a gravel parking lot. Therefore, there are no significant impacts to land anticipated.

The asphalt paving of the existing stone parking lot will not significantly increase stormwater runoff, however the County does intend to establish two grassed swales adjacent to the pickleball courts. Runoff will not be conveyed via a stormwater sewer system. As a result of the aforementioned, there are no significant impacts to waterbodies are anticipated.

The NYS-DEC Environmental Resource Mapper was reviewed and while non listed species were identified and wetlands are in the vicinity of the project area, the project will not significantly change the existing conditions on site. Therefore, no significant impacts to flora and fauna are anticipated.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

This location is in the vicinity of Rare Freshwater Mussels – Not Listed by NYS

If your project or action is within or near an area with a rare animal, a permit may be required if the species is listed as endangered or threatened and the department determines the action may be harmful to the species or its habitat.

If your project or action is within or near an area with rare plants and/or significant natural communities, the environmental impacts may need to be addressed.

The presence of a unique geological feature or landform near a project, unto itself, does not trigger a requirement for a NYS DEC permit. Readers are advised, however, that there is the chance that a unique feature may also show in another data layer (ie. a wetland) and thus be subject to permit jurisdiction.

Please refer to the "Need a Permit?" tab for permit information or other authorizations regarding these natural resources.

**Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Construction of a Spray Park at Ontario Beach Park**

Honorable Legislators:

I recommend that Your Honorable Body determine whether the construction of a spray park at Ontario Beach Park may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project, a component of the proposed \$9.4 million in Phase II Monroe County Parks system-wide improvements, would build the first spray park in the county system and would provide a welcome alternative on days when water quality issues close the lake swimming area and for those who cannot swim.

The construction of this spray park has been preliminarily classified as an Unlisted Action. The SEQRA regulations found at 6 NYCRR Part 617 require that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

1. Determine that the construction of this spray park is an Unlisted action.
2. Make a determination of significance regarding construction of this spray park pursuant to 6 NYCRR 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

## Short Environmental Assessment Form

### Part 1 - Project Information

#### Instructions for Completing

**Part 1 - Project Information.** The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information			
Monroe County Installation of Spray Park at Ontario Beach Park			
Name of Action or Project: Installation of new spray park at Ontario Beach Park			
Project Location (describe, and attach a location map): The Project is located at one site at Ontario Beach Park.			
Brief Description of Proposed Action: The new spray park / splash pad feature would be located at Ontario Beach Park, east of the existing playground. Mapping attached. It is known that Ontario Beach Park is a popular park during the summer time due to the Beach, however, periodic beach closures due to high bacteria levels and water clarity causes' patron frustration. The spray park would provide an alternative option during beach closures and provides an ADA compliant option for individuals with differing needs.			
Name of Applicant or Sponsor: Monroe County - Robert W. Kiley, Deputy Director		Telephone: 585-753-7279	
Address: 171 Reservoir Rd		E-Mail: robertkiley@monroecounty.gov	
City/PO: Rochester		State: NY	Zip Code: 14620
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			NO <input checked="" type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval:			YES <input type="checkbox"/>
3. a. Total acreage of the site of the proposed action? b. Total acreage to be physically disturbed? c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?			NO <input checked="" type="checkbox"/>
			YES <input type="checkbox"/>
4. Check all land uses that occur on, are adjoining or near the proposed action:			
<input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input type="checkbox"/> Residential (suburban) <input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other(Specify): <input checked="" type="checkbox"/> Parkland			

5. Is the proposed action,			NO	YES	N/A
a. A permitted use under the zoning regulations?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Consistent with the adopted comprehensive plan?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?			NO	YES	
			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?			NO	YES	
If Yes, identify: <u>Environmentally Sensitive, by the City of Rochester in 1985</u>			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?			NO	YES	
b. Are public transportation services available at or near the site of the proposed action?			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements?			NO	YES	
If the proposed action will exceed requirements, describe design features and technologies:					
<u>N/A</u>			<input type="checkbox"/>	<input type="checkbox"/>	
10. Will the proposed action connect to an existing public/private water supply?			NO	YES	
If No, describe method for providing potable water: _____			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
11. Will the proposed action connect to existing wastewater utilities?			NO	YES	
If No, describe method for providing wastewater treatment: _____			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?			NO	YES	
<u>Ontario Beach Park; 12/31/2018</u>			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?			NO	YES	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
_____					
_____					

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:

Shoreline    Forest    Agricultural/grasslands    Early mid-successional  
 Wetland    Urban    Suburban

15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

16. Is the project site located in the 100-year flood plan?

	NO	YES
	<input type="checkbox"/>	<input checked="" type="checkbox"/>

17. Will the proposed action create storm water discharge, either from point or non-point sources?  
If Yes,

a. Will storm water discharges flow to adjacent properties?

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?

	NO	YES
	<input type="checkbox"/>	<input type="checkbox"/>

If Yes, briefly describe:

---

---

18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)?  
If Yes, explain the purpose and size of the impoundment:

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility?  
If Yes, describe:

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste?  
If Yes, describe:

	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing: a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The existing location at Ontario Beach is a gently graded / relatively flat grassed area, utilized as a passive recreational area. Use of this area for increased recreational purposes would occur on MB hydric soils. Earthen disturbances during construction would be less than 0.50 acres and erosion and sediment controls would be utilized as needed during construction. As soil erosion and sedimentation controls would be utilized, there are no significant impacts to land anticipated.

The project would not result in additional stormwater runoff entering an stormwater sewer system, however the project would connect to the sanitary sewer system. Annual potable water usage is estimated between 7 to 8 million gallons, with that, flow would be directed to the sanitary sewer system. The project is within the 100 year floodplain for Lake Ontario and will be designed and constructed to allow the sanitary sewer system to be shunted off, thus eliminating flow into the sanitary sewer system during a flood event. As a result of the aforementioned, there are no significant impacts to flooding as a result of this project.

In 1986, the City of Rochester designated the area as a critical environmental area, noting that it is a environmentally sensitive area. The NYS-DEC Environmental Resource Mapper was reviewed and no threatened or endanger species were mapped within the project area. As a result, no significant impacts to flora and fauna are anticipated.

There are two remediation sites within 2000 ft of the proposed project, the lighthouse point inland and the old Rochester city landfill on Pattonwood. As the project would not impact these remediation sites, no significant impact is noted.

The project is consistent with the community character and the concept of a spray park was noted within several local community master plans. Therefore, no significant impact to the community character is noted.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

USGS Quad: ROCHESTER EAST OEN

If your project or action is within or near an area with a rare animal, a permit may be required if the species is listed as endangered or threatened and the department determines the action may be harmful to the species or its habitat.

If your project or action is within or near an area with rare plants and/or significant natural communities, the environmental impacts may need to be addressed.

The presence of a unique geological feature or landform near a project, unto itself, does not trigger a requirement for a NYS DEC permit. Readers are advised, however, that there is the chance that a unique feature may also show in another data layer (ie. a wetland) and thus be subject to permit jurisdiction.

Please refer to the "Need a Permit?" tab for permit information or other authorizations regarding these natural resources.

Disclaimer: If you are considering a project or action in, or near, a wetland or a stream, a NYS DEC permit may be required. The Environmental Resources Mapper does not show all natural resources which are regulated by NYS DEC, and for which permits from NYS DEC are required. For example, Regulated Tidal Wetlands, and Wild, Scenic, and Recreational Rivers, are currently not included on the maps.

# Office of the County Executive

Monroe County, New York

**Adam J. Bello**  
County Executive

August 5, 2022

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

**Subject:** Amend the 2022-2027 Capital Improvement Program and the 2022 Capital Budget to Increase the Scope and Funding for the Monroe County Parks System-Wide Facilities Renovations Project and Appropriate Fund Balance for an Interfund Transfer

Honorable Legislators:

I recommend that Your Honorable Body amend the 2022-2027 Capital Improvement Program and the 2022 Capital Budget to increase the scope and funding for the Monroe County Parks System-Wide Facilities Renovations project in the amount of \$9,400,000 and appropriate fund balance for an interfund transfer.

In 2021, Your Honorable Body approved \$7.2 million for an intensive program of renovation, refurbishment, and upgrades targeted at restoring and preserving the most heavily and commonly used components of the parks system. This program focused on preserving and restoring existing facilities and elements within the parks system that are heavily used on a daily basis – simple, “nuts and bolts” aspects of our Parks system such as usable restrooms, passable roads and parking lots for vehicular traffic, and safe and comfortable lodges and shelters to rent.

Significant progress has been made on this program of improvements, with several items completed, a few substantially completed, and the remainder working their way through public bidding and contracting processes and intended to be fully complete early in 2023.

Additional refurbishments, improvements, and targeted additions have been identified to improve residents' experience in our parks system totaling \$9.4 million. This program continues to focus on items that are or will be broadly relevant to our community. A brief breakdown of this second phase of parks system-wide improvements follows:

- **Golf Course Improvements** \$3,000,000  
*This project would include significant irrigation and drainage improvements, continuous cart paths on heavily played courses, tree work, focused on the removal of dead ash trees, and tee box improvements.*
- **New Playgrounds at Powder Mills and Ontario Beach Parks** \$500,000  
*The playground at Ontario Beach would be a fully accessible, ADA-compliant playground, the first in the county system, while the playground at Powder Mills would replace an existing 15-year-old playground that is in poor repair and insufficient to meet the demands in this popular park.*
- **Spray Park at Ontario Beach Park** \$800,000  
*This project would build the first spray park in the county system and would provide a welcome alternative on days when water quality issues close the lake swimming area and for those who cannot swim.*

- Renovation of Kanatota Lodge in Webster \$1,200,000  
*This project would renovate a once-popular and historic rental facility directly on the lakefront within Webster Park.*
- Artificial Surface Ice Rink at Ontario Beach Park \$500,000  
*This project would procure an artificial-surface ice rink that would be set up seasonally at Ontario Beach Park, providing an outdoor skating opportunity that would be an alternative to our existing natural ice ponds which are frequently insufficiently frozen to skate. It is believed that this would be the first large-scale outdoor artificial rink in Monroe County.*
- Pickleball Courts at Black Creek and Mendon Ponds Parks \$500,000  
*This project would bring additional pickleball courts into the county park system, located at parks that do not currently offer this amenity. The new parks would supplement our existing courts, which are very heavily used and were resurfaced in the first phase of parks improvements projects.*
- New Labor Center at Powder Mills Park \$750,000  
*Due to water infiltration and susceptibility to tree fall damage, the almost 75-year-old staff workshop at this park is in dire need of replacement. The new workshop will be located nearby, but positioned more appropriately to alleviate some of the site conditions that helped lead to the severe issues at the existing building.*
- Beikirch Memorial Park Underground Electrical and Data Upgrades \$500,000  
*This project will upgrade the electrical and data fiber connections throughout the Gary Beikirch Memorial Park, which is used for the annual Lilac Festival. This project will greatly decrease the noise and environmental impact created by the current heavy use of temporary generators and will provide better Internet service to park staff and festival vendors.*
- Renovations to the Historic 1905 Dentzel Carousel \$500,000  
*This project would help maintain and preserve for future generations the historic Dentzel Carousel at Ontario Beach Park, the last remaining attraction from its origins as a turn-of-the-century amusement park. The project would also significantly improve on the carousel's existing ADA accessibility.*
- Replacement of Woodburning Stoves in Park Lodges \$325,000  
*This project targets 20 park lodges with damaged or nonfunctional woodburning stoves or chimney liners. In many of these lodges, the woodburning stove is the only source of heat, and replacement of the stove would allow for the extension of the rental season of these facilities.*
- Parks Waterline Investigation, Mapping and Repair \$400,000  
*The county parks system operates and maintains many of its own water mains. The aging of this infrastructure combined with the Monroe County Water Authority's suspension of support for repairs and maintenance of these mains has resulted in significantly increasing operating costs for the department and has disrupted residents' events in park facilities. This project seeks to improve mapping of the location of these lines, investigate their conditions, and begin targeted replacement of water lines.*
- ADA Accessible Canoe / Kayak Launch at Churchville Park \$425,000  
*This accessible launch would provide a brand-new adaptive sport experience for individuals with disabilities on a portion of Black Creek that is extremely popular for recreational boating.*

**The specific legislative actions required are:**

1. Amend the 2022-2027 Capital Improvement Program to increase the scope and funding for the Monroe County Parks System-Wide Facilities Renovations project in the amount of \$9,400,000, for a total project authorization of \$16,600,000.
2. Amend the 2022 Capital Budget to increase funding for the Monroe County Parks System-Wide Facilities Renovations project in the amount of \$9,400,000.
3. Appropriate fund balance in the amount of \$9,400,000 and authorize its transfer from general fund 9001 to capital fund 2010, Monroe County Parks System-Wide Facilities Renovations project.

The second phase of parks system-wide improvements includes Type II actions pursuant to 6 NYCRR § 617.5(c)(1) (“maintenance or repair involving no substantial changes in an existing structure or facility”); (2) (“replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part”); (9) (“construction or expansion of a primary or accessory/appurtenant, non-residential structure or facility involving less than 4,000 square feet of gross floor area and not involving a change in zoning or a use variance and consistent with local land use controls, but not radio communication or microwave transmission facilities;”); and (31) (“ purchase or sale of furnishings, equipment or supplies, including surplus government property, other than the following: land, radioactive material, pesticides, herbicides, or other hazardous materials”) that are not subject to further review under the State Environmental Quality Review Act.

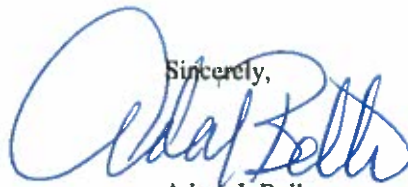

The second phase of parks system-wide improvements includes one (1) Type I Action (Golf Course Improvements) and six (6) Unlisted Actions (New Playgrounds at Powder Mills and Ontario Beach Parks; ADA Accessible Canoe/Kayak Launch at Churchville Park; Beikirch Memorial Park Underground Electrical and Data Upgrades; New Labor Center at Powder Mills Park; Pickleball Courts at Black Creek and Mendon Ponds Parks; and Spray Park at Ontario Beach Park). The provisions of the New York State Environmental Quality Review Act shall be complied with prior to Your Honorable Body undertaking, funding, or approving these actions.

Funding for this project, consistent with authorized uses, will be included in capital fund 2010 once the additional transfer is approved, and any other capital fund(s) created for the same intended purpose.

This interfund transfer will require \$9,400,000 of net County support for which fund balance is hereby appropriated.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

**Subject:** Amend Resolution 415 of 2021 to Accept Additional Funding from the Children's Bureau, an Office of the Administration for Children and Families, through a Subcontract with the University of Maryland, Baltimore for Improving Systems and Implementing Interventions to Support Lasting Reunification of Families

Honorable Legislators:

I recommend that Your Honorable Body amend Resolution 415 of 2021 to accept additional funding from the Children's Bureau, an Office of the Administration for Children and Families, through a subcontract with the University of Maryland, Baltimore in the amount of \$44,391 for Improving Systems and Implementing Interventions to Support Lasting Reunification of Families for the period of September 30, 2021 through September 29, 2022, with the option to renew through September 30, 2025.

By Resolution 415 of 2021, Your Honorable Body authorized the acceptance of a grant from Children's Bureau through a subcontract with University of Maryland, Baltimore. The award is to develop, integrate and evaluate best practices and innovative interventions that will improve outcomes for children and youth in foster care with a goal of reunification with their parents and families. The additional funding will be used to continue to support this program. The additional funding will bring the grant's total to \$220,325.

**The specific legislative actions required are:**

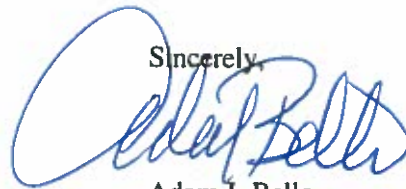

1. Amend Resolution 415 of 2021 to accept an additional \$44,391 from, and to authorize the County Executive, or his designee, to execute a contract and any amendments thereto with, the Children's Bureau, an Office of the Administration for Children and Families, through a subcontract with the University of Maryland, Baltimore for Improving Systems and Implementing Interventions to Support Lasting Reunification of Families, bringing the total program award to \$220,325 for the period September 30, 2021 through September 29, 2022, with the option to renew through September 30, 2025.
2. Amend the 2022 operating budget of the Department of Human Services, Division of Social Services by appropriating the sum of \$44,391 into general fund 9300, funds center 5102010000, Children and Family Services Administration.

This action is a Type II Action pursuant of 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act

This grant is 100% funded by the Children’s Bureau through a subcontract with the University of Maryland, Baltimore. No net County support is required in the current Monroe County Budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

Honorable Legislators:

I recommend that Your Honorable Body authorize a settlement and release of claims agreement with Borgwarner Propulsion Systems, LLC (f/k/a Delphi Powertrain Systems, LLC) and Delphi Automotive Systems, LLC (collectively, "Delphi") in *Borgwarner Propulsion Systems, LLC f/k/a Delphi Powertrain Systems, LLC et al. v. County of Monroe Industrial Development Agency et al.* (Supreme Court, Monroe County Index No. E2021010427).

This litigation is in regards to a Payment in Lieu of Tax Agreement dated September 1, 2007 by and between the County of Monroe Industrial Development Agency, the Town of Henrietta, Rush-Henrietta Central School District, the County of Monroe, and Delphi Automotive Systems, LLC. Under the terms of the settlement, Monroe County will receive \$237,520 from Delphi.

**The specific legislative actions required are:**

1. Authorize the settlement and release of the County's claims against Delphi in *Borgwarner Propulsion Systems, LLC f/k/a Delphi Powertrain Systems, LLC et al. v. County of Monroe Industrial Development Agency et al.* in exchange for \$237,520.
2. Authorize the County Executive, or his designee, to execute and deliver any and all documents necessary to effectuate such settlement.

The legislative action requested in this referral is not an "Action," as that term is defined in 6 NYCRR § 617.2(b), and is not subject to review under the State Environmental Quality Review Act.

This settlement agreement is revenue generating and no net County support is required in the current Monroe County budget.

I recommend that this matter receive favorable action by Your Honorable Body. I request that this referral be considered in Executive Session, pursuant to Public Officer's Law § 105(1)(d).

Sincerely,

Adam J. Bello  
Monroe County Executive
