

C-PACE Financing available throughout Monroe County!

C-PACE is a financing program that enables loans for hard and soft costs associated with clean energy upgrades or investments to existing commercial buildings or new builds using subordinate loans to conventional financing. Through these investments property owners can improve their properties, lower operating expenses, and positively impact their communities.

Energy Upgrades and Investments may include:

- Solar, wind, and geothermal systems;
- HVAC Improvements, including: boiler conversions, installing heat pumps (air and ground);
- New windows and insulation;
- Anaerobic digesters and more!
