

Office of the County Executive

Monroe County, New York

Adam J. Bello
County Executive

March 4, 2022

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Amend Resolution 167 of 2019 to Increase the Contract Amount with T.Y. Lin International Engineering, Architecture & Land Surveying, P.C. for Engineering Services for the English Road Culverts Project over Round Pond Creek Tributary and over Kirk Creek in the Town of Greece

Honorable Legislators:

I recommend that Your Honorable Body amend Resolution 167 of 2019 to increase the contract with T.Y. Lin International Engineering, Architecture & Land Surveying, P.C. for engineering services from an amount not to exceed \$210,350.84 to an amount not to exceed \$480,048.91 for the English Road Culverts Project over Round Pond Creek Tributary and over Kirk Creek in the Town of Greece.

This project involves replacement of two (2) existing culverts on English Road with new precast concrete box culverts, with soldier pile wing walls. The project will also consist of water main relocation, guiderail, and pavement improvements in the immediate project areas. The roadway will be closed to traffic, and detours posted. The current schedule is to start work in spring 2022 with an anticipated completion by fall 2022.

Pursuant to Resolution 167 of 2019, Your Honorable Body awarded a contract to T.Y. Lin International Engineering, Architecture & Land Surveying, P.C. in the amount of \$210,350.84 for engineering services for the English Road Culverts Project. Due to additional engineering services being required for the project, the contract amount needs to be increased by \$67,729.65 for additional design services and \$201,968.42 for construction inspection services, for a total contract amount of \$480,048.91. \$56,288.46 of the additional design services is for costs associated with design of timber retaining walls to protect town-owned pedestrian structures in the immediate vicinity of both culvert structures, additional utility relocation design and coordination, and revision to the work zone traffic control plans to accommodate pedestrian access during construction. The remaining \$11,441.19 for additional design services is associated with coordination with the Monroe County Water Authority and the New York State Department of Environmental Conservation for watermain relocation and guiderail design and details at both culvert locations.

The specific legislative action required is to amend Resolution 167 of 2019 to increase the contract with T.Y. Lin International Engineering, Architecture & Land Surveying, P.C. for engineering services from an amount not to exceed \$210,350.84 to an amount not to exceed \$480,048.91 for the English Road Culverts Project over Round Pond Creek Tributary and over Kirk Creek in the Town of Greece.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract, consistent with authorized uses, is included in the 2022 operating budget of the Department of Transportation, fund 9002, funds center 8002050000, Consolidated Local Street and Highway Improvement Program (CHIPS). No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive
