RESOLUTION NO. __ OF 2022

CLASSIFICATION OF ACTION, DESIGNATION OF LEAD AGENCY, AND DETERMINATION OF SIGNIFICANCE PURSUANT TO STATE ENVIRONMENTAL QUALITY REVIEW ACT (SEQRA) FOR ADDITIONS TO MONROE COUNTY WESTERN AND EASTERN AGRICULTURAL DISTRICTS

BE IT RESOLVED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. The Monroe County Legislature determines that the additions of the referenced properties to Monroe County Western and Eastern Districts is an Unlisted Action.

Section 2. The Monroe County Legislature designates Monroe County as Lead Agency for coordinated review of the Additions to the Monroe County Western and Eastern Districts.

Section 3. The Monroe County Legislature has reviewed and considered the Short Environmental Assessment Form for Agricultural Districts dated May 9, 2022 and has considered the potential environmental impacts of the additions of the referenced properties to the Monroe County Western and Eastern Agricultural Districts pursuant to the requirements of State Environmental Quality Review Act and has found that the proposed action will not result in any significant adverse environmental impacts. The Monroe County Legislature hereby issues and adopts the Negative Declaration attached hereto and made a part hereof and determines that an environmental impact statement is not required.

Section 4. The County Executive, or his designee, is hereby authorized to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution, and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

Section 5. This resolution shall take effect in accordance with Section C2-7 of the Monroe County Charter.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Fifty two parcels have been requested to be added to the Monroe County Agricultural Districts, Western #5 and Eastern #6. These parcels are located throughout the County. A Part 1 Environmental Assessment Form ("EAF") that utilized the EAF Mapper was completed for each parcel. Those results have been reviewed and aggregated into Parts 1, 2, and 3 of this Short Environmental Assessment Form ("SEAF"). The addition of each parcel is part of the larger Monroe County Annual Additions to the Agricultural Districts. Accordingly, this will be reviewed as one action and all impacts, scope, and significance will be determined together.

Upon review of the SEAF Part 1 for each parcel some individual parcels may contain or be adjacent to endangered species (bald eagle and least bittern), national or state register of historic places or state eligible sites, archaeological sites, wetlands or other regulated water-bodies, 100 year flood plain(s), and remediation sites (see part 1).

The action taking place is the addition of parcels to an agricultural district, no physical construction or changes to the parcels is permitted by this action. Any such physical changes will be consistent with the existing regulations and zoning or will need to be permitted by the local municipality and undergo an environmental review at that time. The parcels being added to the Agricultural District are largely used for agricultural activities that reflect the current and historic character of the surrounding area and will remain the same through this action. They are not anticipated to change in character, attract people or traffic, impact existing water and waste water services.

As such, this action will not result in significant adverse impacts to on-site or adjacent endangered species (bald eagle and least bittern), national or state register of historic places or state eligible sites, archaeological sites, wetlands or other regulated water-bodies, 100 year flood plain(s), and remediation sites are anticipated.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
