By Legislators Hughes-Smith and Bonnick

Short Environmental Assessment Form Part 1 - Project Information

Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part I. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Spensor Information							
/itage of Brockport							
Name of Action or Project:							
Nest Avenue Sidewalk Extension							
Project Location (describe, and attach a location map):							
Nest Avenue between Carolin Orive and Briar Rose Lane							
Brief Description of Proposed Action:							
The Village of Brockport will install 2,370 LF of new concrete side of West Avenue. The Village will also install eight detectable wern project will extend the sidewalls system that currently ends at Carr	iino plates al curt	bne eqmen	sireet ¢	rossings on this stre	installed Ich of Wi	on the sou sat Avenue	th side This

Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or small impact may occur	Moderate to large impact may occur
l _e	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	V	
2.	Will the proposed action result in a change in the use or intensity of use of land?	V	
3.	Will the proposed action impair the character or quality of the existing community?	V	
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	V	
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	V	
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	✓	
7.	Will the proposed action impact existing: a. public / private water supplies?	V	
	b. public / private wastewater treatment utilities?	V	
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	V	
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	V	
10.	Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	V	
11.	Will the proposed action create a hazard to environmental resources or human health?

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Negative Declaration - Determination of no significant adverse environmental impact:

The Village of Brockport is proposing to install 2,370 linear feet of new concrete sidewalks on the south side of West Avenue between Carolin Drive and Briar Rose Lane. The Village will also install eight detectable warning plates at curb ramps and street crossings on this stretch of West Avenue. This project will extend the sidewalk system that currently ends at Carolin Drive further west improve the overall safety for those who walk on West Avenue.

The Department of Environmental Conservation (DEC) EAF Mapper indicated that the project site is near a wetland. There is a federal wetland approximately 100 feet west of the intersection of Briar Rose Lane and West Avenue. The sidewalk is ending at Briar Rose Lane and will not impact the wetland.

The Department of Environmental Conservation (DEC) EAF Mapper indicated that the project site is near a environmental remediation site. The RGE - Brockport MGP Site under the Voluntary Cleanup Program and is located approximately 1,700 feet southeast of the sidewalk project. Remedial actions have successfully achieved soil cleanup objectives for restricted-residential use. Residual contamination in the soil and groundwater is being managed under a Site Management Plan and Institutional controls.

The project does not impact the 100 year floodplain or any structures more than 50 years old. The project will not impact existing natural resources, historical or cultural resources and will not alter the existing community character or increase traffic. The proposed action is consistent with existing land use. Accordingly, the proposed action will have no significant effect upon the environment and is determined to be a negative determination.

that the proposed action may result in one or more potential impact statement is required.	
Check this box if you have determined, based on the info that the proposed action will not result in any significant	rmation and analysis above, and any supporting documentation, adverse environmental impacts.
