# EAF Mapper Summary Report

Monday, July 22, 2024 10:47 AM

**Disclaimer:** The EAF Mapper is a screening tool intended to assist project sponsors and reviewing agencies in preparing an environmental assessment form (EAF). Not all questions asked in the EAF are answered by the EAF Mapper. Additional information on any EAF question can be obtained by consulting the EAF Workbooks. Although the EAF Mapper provides the most up-to-date digital data available to DEC, you may also need to contact local or other data sources in order to obtain data not provided by the Mapper. Digital data is not a substitute for agency determinations.

### Short Environmental Assessment Form Part 2 - Impact Assessment

**Part 2 is to be completed by the Lead Agency.**

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:		
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The Town of Brighton 2024 Sidewalk Project involves installation of 6,300 +/- linear feet of ADA compliant, five-foot wide concrete sidewalk at four locations: 1. Elmwood Avenue (north side) between 2700 Elmwood Avenue and Highland Avenue (2,450 LF); 2. Westfall Road (north side) between Roosevelt Road and Monroe Avenue, Westfall Road (south side) between Del Rio and Edgewood Avenue (2,850 LF); 3. Edgewood Avenue (west side) between 17 Edgewood Avenue and Monroe Avenue (500 LF); 4. Allens Creek Road (north side) between Monroe Avenue and Schoolhouse Lane (800 LF).

The Department of Environmental Conservation (DEC) EAF Mapper indicated that the sidewalk projects are near various environmental remediation sites. The Town and Country Dry Cleaners site is listed as a State Superfund Site and located approximately 750 feet northwest of the Edgewood sidewalk project, 1,350 feet north of the Westfall Road sidewalk project and 2,300 feet northwest of the Allens Creek Road sidewalk project. The remediation site will not impact these sidewalk projects as remedial actions are complete and measures are in place to control the potential for coming in contact with contamination remaining at the site. The Carriage Cleaners is a State Superfund Site and is located approximately 1,000 feet south of the Elmwood Avenue sidewalk project. This site will not impact the sidewalk project as remedial actions have successfully achieved soil cleanup objectives for commercial use. Residual contamination in the soil, groundwater, and indoor air is being managed under a Site Management Plan.

Portions of the Edgewood Avenue, Elmwood Avenue and Westfall Road project are in a 100 year floodplain, however the impact will be negligible as the sidewalks will be constructed in an already developed area adjacent to existing roads. The Allens Creek Road sidewalk project is not within a floodplain. These sidewalk projects do not impact any structures more than 50 years old. The projects will not impact existing natural resources, historical or cultural resources and will not alter the existing community character or increase traffic. The proposed actions are consistent with existing land use. Accordingly, the proposed actions will have no significant effect upon the environment and is determined to be a negative determination.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
