The total Increase and Improvement of Facilities in the Rochester Pure Waters District is necessary to provide additional funding for continuation of the "Frank E. Van Lare Wastewater Treatment Plant Electrical System Improvement" Project (Capital Fund 1927). Improvements are required to enhance the reliability and resiliency of the facility's electrical system. The Project includes installation of three (3) 2.5MW standby generators to be located in the recently-constructed electrical system building, as well as associated switches, transformers and switchgear to provide onsite power for all plant processes in the event of an outage of utility power. This work is partially funded by the U.S. Department of Homeland Security Federal Emergency Management Agency (FEMA) and administered by the New York State Division of Homeland Security and Emergency Services (DHSES). Grant funding has been made available in an amount not to exceed total project costs of \$16,852,504 with a Federal Share of \$15,247,503.60 and a required non-Federal matching share of \$1,605,000.40.

The specific Administrative Board action required is to submit a request to the Monroe County Legislature to approve an Increase and Improvement of Facilities in the Rochester Pure Waters District in the amount of \$16,852,504; amend the 2024-2029 Capital Improvement Program and the 2024 Capital Budget to add a project entitled "Rochester Pure Waters District - Frank E. Van Lare Wastewater Treatment Plant Electrical System Improvement;" and amend Bond Resolution 286 of 2021 to provide an increase in funding in the amount of \$16,852,504, for a total project authorization of \$37,852,504.
