RESOLUTION NO. \_\_\_\_\_ OF 2022

**CLASSIFICATION OF ACTION AND DETERMINATION OF SIGNIFICANCE PURSUANT TO  
STATE ENVIRONMENTAL QUALITY REVIEW ACT FOR WEBSTER PARK IMPROVEMENTS**

BE IT RESOLVED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. The Monroe County Legislature determines that construction of a new access-controlled dog park at Webster Park is an Unlisted action.

Section 2. The Monroe County Legislature has reviewed and considered the Short Environmental Assessment Form dated October 5, 2022 and has considered the potential environmental impacts of the construction of a new access-controlled dog park at Webster Park pursuant to the requirements of State Environmental Quality Review Act and has found that the proposed action will not result in any significant adverse environmental impacts. The Monroe County Legislature hereby issues and adopts the Negative Declaration attached hereto and made a part hereof and determines that an environmental impact statement is not required.

Section 3. The County Executive, or his designee, is hereby authorized to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution, and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

Section 4. This resolution shall take effect in accordance with Section C2-7 of the Monroe County Charter.

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project consists of one site located at Webster Park, where a proposed dog park will be constructed. The project will see perimeter fencing established around the existing turf area, sidewalk and site patron improvements and a new .14 acre parking lot.

The parcel contains wetlands and those wetlands have been identified as federal wetlands. The proposed project is not located near any wetlands, thus there are no adverse impacts to wetlands anticipated.

The proposed project does occur within an archaeologically sensitive zone according to the New York State Historic Preservation Office. It is anticipated that there will not be a significant impact due to the limited disturbance required to construct the proposed parking area and other upgrades to accommodate the dog park.

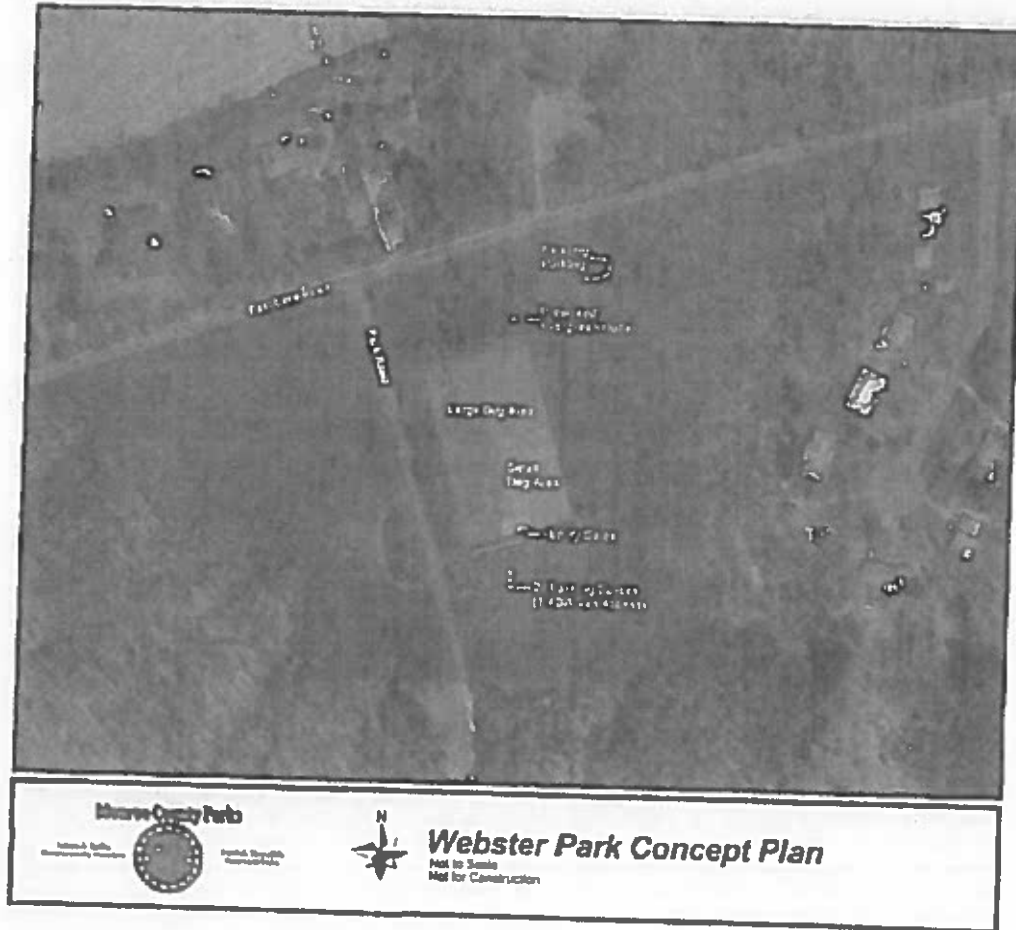

The stormwater runoff from the new .14 acre parking lot will be directed to existing vegetated areas to allow that stormwater runoff to soak back into the ground. Disturbances of soil will be less than one acre in size and during construction, the use of soil erosion and sediment controls will be utilized during construction, therefore are no significant impacts anticipated.

Part 1 of the environmental assessment form (EAF) indicated that the parcel contains areas within the 100 year floodplain area. The proposed activities are not within the 100-year floodplain therefore, they will not be impacted.

There are no significant impacts from this project based on the information identified with in the EAF and supporting documentation provided by the Monroe County Department of Parks. Accordingly, Monroe County has determined that there will not be any significant adverse environmental impacts associated with the proposed action.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Committee Assignment
<b>ENV. &amp; PUB. WORKS</b>

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

**Subject:** Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for Webster Park Improvements

Honorable Legislators:

I recommend that Your Honorable Body determine whether the construction of improvements at Webster Park may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project involves the construction of a new access-controlled dog park at Webster Park adjacent to the existing campgrounds.

This project has been preliminarily classified as an Unlisted Action. The SEQRA regulations found at 6 NYCRR Part 617 require that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

1. Determine that construction of a new access-controlled dog park at Webster Park is an Unlisted action.
2. Make a determination of significance regarding the improvements pursuant to 6 NYCRR 617.7.
3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,  

Adam J. Bello  
Monroe County Executive

### **Short Environmental Assessment Form Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project consists of one site located at Webster Park, where a proposed dog park will be constructed. The project will see perimeter fencing established around the existing turf area, sidewalk and site patron improvements and a new .14 acre parking lot.

The parcel contains wetlands and those wetlands have been identified as federal wetlands. The proposed project is not located near any wetlands, thus there are no adverse impacts to wetlands anticipated.

The proposed project does occur within an archaeologically sensitive zone according to the New York State Historic Preservation Office. It is anticipated that there will not be a significant impact due to the limited disturbance required to construct the proposed parking area and other upgrades to accommodate the dog park.

The stormwater runoff from the new .14 acre parking lot will be directed to existing vegetated areas to allow that stormwater runoff to soak back into the ground. Disturbances of soil will be less than one acre in size and during construction, the use of soil erosion and sediment controls will be utilized during construction, therefore are no significant impacts anticipated.

Part 1 of the environmental assessment form (EAF) indicated that the parcel contains areas within the 100 year floodplain area. The proposed activities are not within the 100-year floodplain therefore, they will not be impacted.

There are no significant impacts from this project based on the information identified with in the EAF and supporting documentation provided by the Monroe County Department of Parks. Accordingly, Monroe County has determined that there will not be any significant adverse environmental impacts associated with the proposed action.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
