Honorable Legislators:

I recommend that Your Honorable Body authorize contracts with Bell Mechanical Constructors, Inc., in the amount of \$1,274,400, for plumbing construction, Hewitt Young Electric, LLC, in the amount of \$229,000, for electrical construction, and John W. Danforth Company, in the amount of \$37,600, for HVAC construction, for the Gates-Chili-Ogden Sewer District's (District) Southwest Pump Station Improvements Project.

The station was originally constructed in 1961 and is located at 89 Old Scottsville Chili Road in the Town of Chili. The pump station receives sanitary flow from its surrounding service area and conveys flows easterly through a 12-inch force main to gravity sewers that discharge to the pump station. Average daily flow is 0.58 million gallons per day. A majority of the station equipment is original and needs upgrading. Improvements include: replacing existing pumping equipment, electrical, heating and ventilation, instrumentation and control and new force main to meet current standards. The project is necessary to maintain the reliability and continuity of services to District customers.
