RE: Memorializing the United States Congress to Pass the Child Care Workforce and Facilities Act of 2023

Honorable Legislators:

Child care is a critical component of our economic infrastructure. It is essential to a strong workforce and ensuring children receive the highest quality care. The New York State Office of Children and Family Services has identified many areas of Monroe County as child care deserts. This means there are not enough licensed or registered child care slots to adequately serve the number of children in a geographic area.

The Covid-19 pandemic did substantial harm to the child care sector. In New York alone, the pandemic eliminated an estimated 15,000 child care slots due to the loss of providers. The economic burden due to the loss of providers has primarily been borne by women because they are traditionally the primary caregivers. The impact has been especially high for women of color.

The Child Care Workforce and Facilities Act of 2023 would provide grants through the U.S. Department of Health and Human Services to states and tribal entities to increase access to licensed child care services. The grants may be used to develop and expand the child care workforce or child care facilities in locations with insufficient available providers and locations to meet demand. The funding would cover 50% of the cost of programs to support the education and training of caregivers or projects to build, expand, or renovate child care facilities in these areas. The increased training would create the opportunity to offer more high quality child care and preschool programs.

S268: The Child Care Workforce and Facilities Act of 2023 will help alleviate the child care deserts and help with financial and economic stability.

We encourage the United States Senate to pass this legislation to help improve the lives of children and families in Monroe County and New York State. We also urge the House of Representatives to follow suit and President Biden to sign this into law.

Subject: Adopt 2024-2029 Capital Improvement Program

Honorable Legislators:

I recommend that Your Honorable Body adopt the proposed 2024-2029 Capital Improvement Program as recommended by the Monroe County Planning Board. The proposed Capital Improvement Program is submitted to the County Legislature in accordance with Section C4-10 of Article IV and Section C5-7 of Article V of the Monroe County Charter.

This proposed program includes projects designed to address aging infrastructure while at the same time ensuring that Monroe County continues to grow and expand its job base and quality of life. Projects contained in the program are intended to improve and modernize public buildings, construct needed highway and bridge improvements, as well as continue investment in public safety, the Frederick Douglass Greater Rochester International Airport, the County Parks System, the Monroe County Library System, the Monroe Community Hospital, and Monroe Community College.

The 2024-2029 Capital Improvement Program is the result of a collaborative effort involving the County Executive's Office, Departments of Planning and Development, Finance (Office of Management and Budget), Law, Transportation, Environmental Services, Parks, and Information Services. In addition, the Monroe County Planning Board put in many hours in reviewing and recommending this program. I want to thank all of those involved in the preparation of this program for their hard work and dedication.

The specific legislative actions required are:

1. Fix a public hearing on the adoption of the proposed 2024-2029 Capital Improvement Program.

2. Direct the Clerk of the Legislature to publish legal notice of such public hearing at least once in one daily newspaper of general circulation in the County at least ten (10) days before the date set for the hearing.
3. Adopt the proposed 2024-2029 Capital Improvement Program, as submitted, in its entirety.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(27) (“conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action”) and is not subject to further review under the State Environmental Quality Review Act.

The adoption of the proposed 2024-2029 Capital Improvement Program will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

 Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Part 1 of the EAF indicates the site contains or is near wetlands. New York State and Federal Wetland Regulations will need to be followed to develop this site, but will not be impacted by the sale of this parcel.

The Environmental Mapper also indicates that the subject property, or an adjoining property, has been the subject of remediation. This site under went remediation through the State's Super Fund Program - Site Code: 828021, Site Name: Golden Road Disposal Site (Site Record Attached and additional site materials can be found here: <https://www.dec.ny.gov/data/DecDocs/828021/>).

This parcel was the site of illegal dumping from approximately 1955 to 1976. A Phase II Site Assessment showed elevated levels of heavy metals and low levels of volatile organic compounds in shallow groundwater and petroleum contaminated soil. Remediation efforts were undertaken in 1983 and 2001. Remediation is complete, however residual contamination in the soil, groundwater, and sediment is being managed under a site management plan. Currently, there are no occupied buildings on the site and an environmental notice has restricted the property to remain undeveloped land. Should the current use of the site change in the future, a soil vapor intrusion evaluation needs to be completed at that time. Environmental sampling indicates soil vapor intrusion is not a concern for off-site buildings.

The action is for sale of vacant tax foreclosed property that is subject to a site management plan and a environmental notice restricts the use of the property. No construction or development is contemplated as a part of this review. The sale of this property does not permit any development or construction. Accordingly, no wetlands will be impacted by this sale. Any future development of this parcel is heavily restricted and will be subject to an Environmental Notice, local zoning codes, and the NYS Building Code. Additionally, New York State and Federal Wetland Regulations will need to be followed to develop this site. Accordingly, the sale of this parcel will not result in any significant adverse environmental impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the First Time Home Buyers Program Funded through the Monroe County Home Investment Partnerships Program

Honorable Legislators:

I recommend that Your Honorable Body determine whether the First Time Home Buyers ("FTHB") Program funded through the Monroe County Home Investment Partnerships ("HOME") Program may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project develops affordable housing opportunities by providing a direct subsidy for down payment or closing cost assistance for income eligible first time home-buyers purchasing their first home in suburban Monroe County. This is an administrative program that will aid individuals purchasing private homes that are still subject to existing municipal building and zoning codes.

All property involved in this program are privately owned and still subject to the New York State Building Code and municipal zoning laws. This program will not result in construction or other physical projects; encroachment on wetlands, Critical Environmental Areas, floodplains; encroachment on a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the New York State Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places. This Program will not have any significant adverse environmental impacts.

The specific legislative actions required are:

1. Determine that the First Time Home Buyers Program is an Unlisted Action.
2. Make a determination of significance regarding the First Time Home Buyers Program pursuant to 6 NYCRR § 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution

The FTHB Program funded through the Monroe County Home Investment Partnerships has been preliminary classified as an Unlisted Action pursuant to 6 NYCRR Part 617. The State Environmental Review Quality Review Act regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

This determination will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Acquisition Rehab Resale Program Funded through the Monroe County Home Investment Partnerships Program

Honorable Legislators:

I recommend that Your Honorable Body determine whether the Acquisition Rehab Resale Program funded through the Monroe County Home Investment Partnerships ("HOME") Program may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project develops affordable housing opportunities by providing a direct subsidy for income eligible first time home-buyers purchasing their first home in suburban Monroe County. A subrecipient acquires a single family home, develops work specifications for rehab, awards a contract to complete the work, and bring the home up to minimum standards for resale to individuals purchasing homes, which are still subject to existing municipal building and zoning codes

All property involved in this program are privately owned and still subject to the New York State Building Code and municipal zoning laws. This program will not result in construction that results in the expansion of the original footprint or encroachment on wetlands, Critical Environmental Areas, floodplains; encroachment on a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the New York State Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places.

The specific legislative actions required are:

1. Determine that the Acquisition Rehab Resale Program is an Unlisted Action.
2. Make a determination of significance regarding the Acquisition Rehab Resale Program pursuant to 6 NYCRR § 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution

The Acquisition Rehab Resale Program funded through the Monroe County Home Investment Partnerships has preliminary classified as an Unlisted Action pursuant to 6 NYCRR Part 617. The State Environmental Review Quality Review Act regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

This determination will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Classification of Action, and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Lifetime Assistance Brick Schoolhouse Road Project Funded Through the Monroe County Home Investment Partnerships Program

Honorable Legislators:

I recommend that Your Honorable Body determine whether the Lifetime Assistance Brick Schoolhouse Road Project funded through the Monroe County Home Investment Partnerships ("HOME") Program may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

The project involves renovating the existing one story, slab-on-grade wood framed Individualized Residential Alternative (IRA) group home facility for six developmentally disabled occupants. The intent of these proposed renovations is to increase the residence from four bedrooms to six bedrooms. Each of the bedrooms will be 135 square feet, allowing additional maneuvering space for residents using wheelchairs.

The specific legislative actions required are:

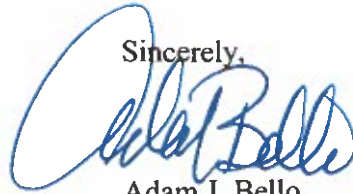

1. Determine that Lifetime Assistance Brick Schoolhouse Road Project is an Unlisted Action.
2. Make a determination of significance regarding the Lifetime Assistance Brick Schoolhouse Road Project pursuant to 6 NYCRR § 617.7.
3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of SEQRA, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under SEQRA, and any other actions to implement the intent of this resolution.

The Lifetime Assistance Brick Schoolhouse Road Project funded through the Monroe County Home Investment Partnerships (HOME) Program has been preliminarily classified as an Unlisted Action pursuant to 6 NYCRR § 617(b). The State Environmental Quality Review Act regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project involves renovating the existing one story, 1996, slab-on-grade wood framed Individualized Residential Alternative (IRA) group home facility in accordance with 2020 New York State Residential Code and 2000 NFPA-101 Life Safety Code Chapter 33 Existing Board and Care occupancy for six developmentally disabled occupants. The intent of these proposed renovations is to increase the residence from four bedrooms to six bedrooms. Each of the bedrooms will be 135 square feet, allowing the existing occupants to have their own bedrooms and ensure that each bedroom is accessible for wheelchair uses. Other minor modifications to hallways and storage areas bring the addition to a total of 364 square feet.

No historic properties, including archaeological and/or historic resources, will be affected by this undertaking. It is anticipated that this project will not have an impact on historic, natural, and cultural resources and will not alter the existing community character or increase traffic. The proposed action is consistent with existing land use. Accordingly, the proposed action will have no significant effect upon the environment and is determined to be a negative determination.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Approval of this submission by HUD will provide the County with funding in the amount of \$3,444,380 for the period of August 1, 2023 to July 31, 2024. This represents the combined total of funds for the CDBG Program in the amount of \$1,872,408; the HOME Program in the amount of \$1,410,985; and the ESG Program in the amount of \$160,987. This year's allocations represent a \$312,745 increase in funding received from HUD last year. This is the 48th year the County will receive this funding.

The CDBG, HOME and ESG programs have been designed to carry out neighborhood projects, Americans with Disabilities Act (ADA) improvements to public facilities, community services, economic development activities, housing activities, and homeless services. Pursuant to HUD regulations, these programs must principally benefit low to moderate-income persons, the elderly, and persons with special needs who live in the towns and villages that participate in the Monroe County Community Development Consortium.

Appropriate the sum of \$3,444,380 for grant funds, or such other amount as determined by the United States Department of Housing and Urban Development (“HUD”), and the sum of \$241,424, which is the estimated Program Income expected to be generated during the program year, into fund 9005; funds center 1501010000, Community Development Grants, contingent on HUD approval.
4. Authorize the County Executive, or his designee, to execute all contracts, including intermunicipal agreements, and any amendments thereto, that are necessary to carry out the administration of the Community Development Block Grant, Home Investment Partnerships Program and Emergency Solutions Grants programs.
5. Executive Summary

AP-05 Executive Summary - 91.200(c), 91.220(b)

1. Introduction

Monroe County's Annual Action Plan (Plan) goals are administered utilizing CDBG, HOME, and ESG funds made available by the United States Department of Housing and Urban Development (HUD). 2023 is the fourth year of the 2020-24 Five-Year Consolidated Plan and marks the forty-eighth year that Monroe County has received an allocation from the Community Development Block Grant (CDBG) program, the thirty-second year for Home Investment Partnerships Program (HOME), and it also marks the seventeenth year with the Emergency Solutions Grants (ESG) program. Combined, these program funds channel more than three million dollars annually through the Department of Planning and Development, Community Development division, for suburban towns and villages that comprise Monroe County's consortium in support of housing, public works, economic development, and community services programs that primarily benefit low to moderate-income households, seniors, and persons with special needs. This Plan addresses both projects funded on an annual basis and new program initiatives that focuses on accomplishing the following primary program goals and objectives:

- Develop affordable and accessible housing and home ownership opportunities for all low to moderate income residents, with a priority focus on the development of housing in the towns and villages that do not currently provide affordable units that have been financed, in part, through the CDBG and/or HOME programs
- Repair and conserve existing housing stock
- Improve essential infrastructure in lower income areas
- Provide job training and economic development for low- and moderate- income persons and persons with special needs
- Provide essential public services, particularly those that promote home ownership, fair housing, and housing stability
- Revitalize deteriorated neighborhoods.

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

Monroe County intends to continue our mission, which was identified in the Needs Assessment of Monroe County's 2020-2024 Strategic Plan in promoting community development, in addition to Monroe County's Analysis of Impediments to Fair Housing Choice in order to accomplish the following primary program goals and objectives during the 2023-2024 program year:

- a) Develop affordable and accessible rental and home ownership opportunities for all low to moderate-income residents with a priority focus on the development of housing in towns and villages that do not

currently provide affordable units that have been financed, in part, through the County's CDBG and/or HOME Program; b) Repair and conserve existing housing stock; c) Increase energy efficiency of existing housing stock; d) Improve access to and the quality of public facilities; e) Provide essential infrastructure in lower income areas; f) Provide job training and economic development opportunities for low to moderate-income persons and person with special needs; g) Provide essential public services, particularly those that promote home ownership, fair housing ad housing stability; h) Revitalize deteriorated neighborhoods.

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

Projects funded with CDBG, HOME, and ESG grants have had a positive effect on the individuals and communities served. These projects were carried out to meet our primary program goals and objectives in housing, economic development, community services, and public works/facilities improvement projects. The Home Improvement Program (HIP) annually helps between 60 to 70 low to moderate-income homeowners make necessary home repairs. The repairs made under the HIP allow homeowners to make essential repairs that allow them to stay in their homes. This program is all the more critical in our community due to the lack of available housing stock/options for relocation. Neighborhood and utility improvements are a high priority for Monroe County because of their importance in preserving neighborhoods. A large number of communities throughout suburban Monroe County have deteriorated infrastructure due to age. Monroe County uses CDBG funding to improve roads, sidewalks, and sewers in low to moderate- income neighborhoods. This funding helps local governments undertake projects they would not otherwise be able to do because of funding limitations. Public services projects and programs have been essential in maintaining safe and affordable housing for the community and providing services that benefit underserved populations including seniors and those with special needs.

Monroe County has continued to monitor housing and economic metrics relating to potential impediments to fair housing choice that were identified in the 2020 Analysis of Impediments to Fair Housing Choice (AI). Between 2018 (the data available at the time of the AI development) and 2021, the overall poverty rate in Monroe County has declined 1% (from 13.8% to 12.8%). When comparing 2016 poverty rates by municipality to 2021 poverty rates by municipality, Monroe County has observed that there has been a growth in rural poverty in Brockport, Scottsville, Hamlin, and Hilton. The percentage of the population living in poverty has decreased in Henrietta, Greece, and Spencerport.

Additional statistics that Monroe County has been monitoring since the 2020 AI includes the unemployment rate across Monroe County. The most recent data available from the American Community Survey compared to the 2018 American Community Survey data used for the AI shows that the unemployment rate in Monroe County has gone from 6% to 5% during this time.

Monroe County has acted on recommendations from its Analysis of Impediments in its partnerships and support of local senior and special needs populations. This includes utilizing community development funding to provide more than 300 senior households with minor home repairs and installation of fall safety features.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

Monroe County holds two (2) public hearings annually at convenient, fully accessible locations. For the 2023 program year, Monroe County continued a hybrid in-person/virtual public meeting in January to inform and announce the opening of the 2023-24 application round, which was attended by 11 individuals in person and 32 individuals virtually. The Steering Committee meeting, which is comprised of town and village officials who are members of the County's Consortium, was held immediately following the public hearing and attended by both virtually and in-person by 26 individuals. Meetings are fully accessible with bilingual and/or sign language interpreters and other accommodations provided upon request to interpret policies and program requirements. In addition, Monroe County conducted a brief survey to gather feedback on the various programs and project priorities, which was extended through January 31, 2023. Fifteen community members responded to the survey, which asked community members if they were attending the public hearing as a representative of a municipality, representing non-profit, a member of the general public, or other. 53% of respondents were representing non-profit organizations, while 40% were representing municipalities and one county legislator was in attendance and responded to the survey. Respondents were asked what they believe should be the highest priority for Monroe County's Community Development. 46.7% of respondents believe that the highest priority should be investment in public facilities and infrastructure, while 40% of respondents believe that the highest priority should be the development of affordable housing. Several individuals indicated that they believe emergency services and public services should be the biggest priority for Monroe County. The survey also provided community members with an opportunity to provide comments, suggestions, and recommendations in a narrative format. Monroe County accepted these responses as part of the collection of public comments. See Summary of Public Comments section of this Plan.

The May public hearing was held on May 4, 2023 @ 9:45a with the Steering Committee @ 10:00a, which was also held in-person and via Zoom. 13 individuals attended the public hearing and 18 participants attending the Steering committee meeting. This meeting encourages the public to review and comment on the Draft Annual Action Plan. The 30-day public comment period was available from May 4 – June 12, 2023. The public hearing notice and availability of the Draft Action Plan for public comment was posted in the Daily Record and the Rochester Business Journal newspapers, as well as the County's website - Community Development page, and upon request.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

Comments received from the January Public Hearing and Steering Committee are attached to the Citizen Participation section of the Draft Annual Action Plan.

The Public Comment period was from May 4 – June 12, 2023. Public comments received will be attached to the Citizen Participation section of the Plan.

6. Summary of comments or views not accepted and the reasons for not accepting them

All comments received at the public hearing and during the public comment period are accepted.

7. Summary

All CDBG, HOME, and ESG funds, including program income will be used to continue to meet goals included in the Strategic Plan and in the 2023-24 Annual Action Plan to improve the quality of life for low to moderate-income families, seniors, and persons with special needs in Monroe County. The Plan addresses the goals by providing affordable housing and home ownership opportunities, repairing and conserving existing housing stock, financing public infrastructure and infrastructure improvements, creating and retaining jobs, and funding public services that stabilize and enhance living conditions.

AP-10 Consultation - 91.100, 91.200(b), 91.215(l)

1. Introduction

Monroe County Department of Planning and Development consists of the Community Development, Economic Development, Planning, and Procurement Technical Assistance divisions. These four (4) divisions coordinate and collaborate on many efforts. CD works with local town and village governments, the City of Rochester, as well as many agencies, organizations, and groups to address the needs of the community. Monroe County is fortunate to be home to many agencies, organizations, and groups that focus on the wellbeing of the community as a whole.

Provide a concise summary of the jurisdiction’s activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l)).

The Department of Planning and Development and the CD staff periodically meets with local developers, Fairport Urban Renewal Agency (FURA) to coordinate the planning of housing projects and federal grant applications. The County, City of Rochester, and RHA continue to explore ways to enhance our Section 3 efforts. Planning and Development coordinates, collaborates, and consults with other departments throughout Monroe County, including Human Services, Public Health, and Office of the Aging, in the planning process as often as possible and to maximize resources. Monroe County will continue to meet and coordinate with public and assisted housing providers within the Monroe County service area. These housing providers keep Monroe County informed about upcoming projects. Monroe County staff members are engaged with the Continuum of Care on initiatives for and in support of community members experiencing and at risk of homelessness.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The County actively participates in the Rochester/Monroe County Homeless Continuum of Care (CoC) locally known as Partners Ending Homelessness (PEH). The CoC coordinates the allocation of HUD CoC federal funding to facilities and programs within the CoC's service area. County staff consult on a regular basis with the organizations that participate in the CoC and the Homeless Services Network (HSN). County staff serve on the CoC Board and on the Steering Committee of HSN. County staff also serve on the Chronically Homeless Work Group that plans, coordinates, and implements activities and strategies for servicing the chronically homeless and sit on the CoC Project Selection and Monitoring Committee. CoC staff participate in reviewing applications for Emergency Solution Grant applications submitted annually to Monroe County.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

County staff work closely with the CoC and other agencies to develop funding applications and determine the best use of ESG funds. By working with the CoC, County staff are involved in improving coordination among agencies, facilitating data collection through HMIS and allocating funds. The CoC Executive Director serves on the County ESG proposal review team along with staff from Monroe County Department of Human Services (DHS), City of Rochester, and community representatives. The County and the City release a joint RFP for ESG funding which has increased the efficiency and coordination of ESG funding in the community. The CoC Board has 21 ex-officio members representing public and private organizations deemed necessary to develop, maintain, monitor, and continuously improve a comprehensive, coordinated, and flexible system of homeless housing and support services. They represent Monroe County, City, RHA, Homeless Services Network (HSN - the CoC's Stakeholder Group), formerly homeless community members, a domestic violence advocacy organization member, and a health services representative. In addition, there are elected general members from both public and private groups from the community (business sector, legal field, faith-based organizations, veteran organizations, schools, law enforcement, criminal justice, advocacy groups). This diverse team is the primary planning and coordinating body for homeless housing and services in this community. The CoC is now a 501(c)(3) not-for-profit organization and is the Collaborative Applicant for HUD CoC funding and the HMIS Lead Agency. Long term goals include becoming a Unified Funding agency and continually striving to achieve the status of a High Performing Community. The CoC has been a long-time participant in the ESG planning process for the County and City, and are represented on the Rating and Ranking Committee of the CoC to review applications submitted annually for HUD CoC Homeless Program funding. ESG community priorities and planning have been discussed at both CoC and HSN meetings, especially in terms of policy priorities, the efficient use of resources and community objectives. The CoC staff also reviews the ESG proposals for fidelity to the ESG requirements and additional information set forth by HUD via policy briefs. ESG funding continues to be a critical issue for local homeless service providers. Facilitated discussions of ESG community priorities are held at the HSN meetings; CoC members and community stakeholders are strongly encouraged to participate. The County staff members participate on the Coordinated Entry (CE) Oversight workgroup. CE is the portal for all referrals to Permanent Supportive Housing (PSH) and Rapid Re-Housing (RR) programs and prioritizes those who are the most vulnerable when openings occur. CE is fully implemented in Monroe County and is continually being improved. CE is working and is successful in ensuring that homeless persons are directed to the programs that will best meet their needs; and that homeless persons with the highest vulnerability are prioritized for placement. CE is exploring options for a new vulnerability assessment tool. The current tool, the Vulnerability Index-Services Prioritization Decision Assistance Tool (VI-SPDAT) is no longer being supported. CE will look at other existing tools or develop a community tool. CE has created a new position and since hired a Housing Resource Specialist who recruits landlords to provide units for PSH and RRH programs; and is a liaison between programs and

landlords. The Housing Recruitment Specialist will also be centralizing information on permanent housing resources and unit availability in the CE website, www.FrontdoorNY.org.

Expected Resources

AP-15 Expected Resources - 91.420(b), 91.220(c)(1,2)

Introduction

2023 marks the fourth year of Monroe County's 2020-2024 Five-year Consolidated Plan. This is the 48th year of the Community Development Block Grant program, and the 32nd year of the HOME Investment Partnerships Program. This is the 17th year that Monroe County has received an Emergency Solutions Grants allocation. Funds for all three programs are used for projects that primarily benefit lower income families, elderly and disabled residents in the suburban towns and villages in the county of Monroe. The Community Development division of the Department of Planning and Development administers these HUD-funded programs on behalf of 17 towns and 10 villages that comprise the Monroe County Community Development Consortium. All municipalities in Monroe County are members of the consortium, with the exception of Greece, Irondequoit and the City of Rochester. The Towns of Greece and Irondequoit participate in the HOME Program only, bringing HOME consortium membership to 19 towns and 10 villages. The Towns of Greece and Irondequoit apply directly to HUD and receive their own CDBG allocations. The City of Rochester also receives funding directly from HUD for these programs. Monroe County expects to receive an allocation of \$3,444,380 from HUD for the period of August 1, 2023 to July 31, 2024. This represents the combined total of funds for the Community Development Block Grant (CDBG) in the amount of \$1,872,408; the Home Investment Partnerships Program (HOME) in the amount of \$1,410,985; and the Emergency Solutions Grants Program (ESG) in the amount of \$160,987. This year's allocation includes an increase of \$312,745 from HUD funding received last year.

Estimated program income (interest on outstanding loans and other repayments) is expected to total \$100,000 for the CDBG program and

\$141,424 for the HOME program.

Table 2 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

The potential sources of these leveraged funds (other than match funds) include investor equity, tax credit syndications; homebuyer down payments through private funding, private rental and home ownership loans; other federal, state, and local housing and community development programs and foundations. CDBG, HOME, and ESG sources leveraged additional resources, which are wide, including the items listed. Match contributions for both HOME and ESG will be made from non-federal resources. The match contributions for HOME will total no less than 25% of the funds drawn from the County's HOME account each fiscal year. Monroe County CD maintains records demonstrating

compliance with HOME match requirements, including a running log and project records documenting the type and amount of match contributions by project. The HOME program attracts substantial private and other public dollars into its funded projects. This year, Monroe County, through our non-profit partner has also secured a grant from a local bank to help offset the cost of up to three (3) properties through the acquisition, rehab, resale program. Match contribution from ESG will be a one-to-one (1:1) cash and or/in-kind services match.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

There are no publicly owned properties in Monroe County that are funded through any of the funding sources from HUD.

Affordable Housing

AP-55 Affordable Housing - 91.420, 91.220(g)

Introduction

Through the CDBG HOME, and ESG funds, Monroe County administers programs to preserve and increase access to affordable housing. The Home Improvement Program (HIP), funded with both CDBG and HOME provides income eligible homeowners with grants and/or loans for needed repairs, thereby maintaining affordability. Home funds are utilized to provide gap financing for the development of affordable rental housing development, acquisition rehabilitation and resale as well as down payment and closing cost assistance for homeownership opportunities to low-mod income individuals, families, seniors, and individuals with developmental and intellectual disabilities. ESG funds provide rental assistance for homelessness prevention and rapid rehousing.

Discussion

The Acquisition Rehab Resale program in suburban Monroe County makes available single family residential homes for homebuyers purchasing their first home. This is especially critical in our community with the competitive housing market. The homes sold through the Acquisition Rehab Resale program are only available to those who have completed homebuyer education and are low- to moderate- income first-time homebuyers who are often outbid by market rate homebuyers with less restrictions. Homes sold through the Acquisition Rehab Resale program are completed to code with updated major systems.

The Home Improvement Program allows our older adults to age in place because the decision to remain in the home due to market conditions is ever increasing with demand on single family homes at an all-

time high. However the challenges and financial decision of making major necessary improvements remains difficult to age in place without assistance of the HIP program to make the necessary improvements such as walk-in showers allows our older adults to age in place.

Monroe County designates the Community Liaison as Community Development's Fair Housing Officer. Any Fair Housing complaints must be in writing and must contain such information as the Community Liaison requires. Upon receipt of such complaint, the Community Liaison must furnish a copy of the same to the person or persons who allegedly committed or about to commit the alleged discriminatory housing practice. Within thirty (30) days after receiving a complaint, the Community Liaison must investigate the complaint and give notice in writing to the person aggrieved whether he/she/they intends to resolve it.

Current program demographics through FURA's Section 8 program reflect a total of 218 elderly and disabled families, and 200 other eligible households (i.e.: non-disabled families and 2-adult households). The average annual total household income of participants in FURA's program is \$18,245. The average Housing Assistance Payment is \$537 and the average tenant payment for rent and utilities is \$413. FURA is authorized to administer 497 vouchers.

Actions planned during the next year to address the needs to public housing

RHA is continuing its initiative to "Change the Face of Public Housing" by renovating and constructing new units that residents will be proud to call home. Current projects are RHA's Bond-Hamilton, Edinburgh St., Thomas St., and Bronson Court Apartments located in the city of Rochester. RHA will continue its "Beautification Initiative" for all its public housing developments that will not only enhance curb appeal but the rest of the property as well. RHA will continue to provide quality affordable housing and services for its residents. RHA meets with resident councils, resident Commissioners, staff and

neighborhood associations to address needs and discuss upcoming projects. RHA has established a Resident Relations Committee which reports out to the Board of Commissioners. The Committee is comprised of RHA staff, resident commissioners, and resident council presidents who bring ideas and discussion items to each meeting. RHA takes all suggestions and recommendations from these sources into consideration when preparing the five-year Capital Improvement plan. Due to ever changing conditions, items are prioritized and can fluctuate within the plan from year to year. There are currently multiple projects in various stages, and more are being planned for the upcoming year. RHA will typically undertake roof replacement, driveway resurfacing, and porch restoration/replacement projects at several scattered site properties throughout the year. Focused investment of capital funds will occur at RHA's Bronson Court Apartments, Atlantic Townhouses, and Lexington Court Apartments. RHA was awarded a NYS Preservation Opportunity Program grant to develop plans for the preservation of public housing, which resulted in physical needs assessments (PNA) and environmental testing performed at most Public Housing locations. All the data is currently under review and will be categorized for each site which will enable RHA to create a pipeline of preservation/renovation/development strategies for sites like Harriett Tubman Estates, Lena Gantt, Holland Townhouses, Lexington Court, various high-rises, Bay-Zimmer Apts., and scattered sites RHA is advancing the redevelopment of its public housing sites; Federal Street Townhouses/Scattered Sites Rental Assistance Demonstration (RAD) project that is scheduled to close in Spring 2023, Parliament Arms-Fairfield Village which is scheduled to close Fall of 2023, Fernwood Phase I with financing applications submitted and Glenwood Gardens redevelopment project is in the design phase. These redevelopment projects may increase or decrease the number of available public housing units with the goal of increasing the number of quality affordable housing units. RHA has room in its Faircloth limit to add public housing units to its portfolio. RHA was awarded Low Income Housing Tax Credits (LIHTC) and other sources of funding to redevelop Federal St. Townhouses/Scattered Sites and has applied for LIHTC's for other projects. RHA may also issue its own bonds for development activities and acquiring property. RHA intends to apply for NYS funding opportunities for development and capital improvement activities and acquiring property. RHA intends to apply for NYS funding opportunities for development and capital improvement activities. RHA will be applying to New York State Housing and Community Renewal's Public Housing Preservation Program (PHP) when the NOFA is available. PHP is a partnership among HCR, HUD, Federal Public Housing Authorities (PHAs) outside New York City, and collaborating with private for profit and non-profit developers to address the needs of these properties and assist RHA in completing their plans to ensure the long-term sustainability of existing public housing units.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

RHA is committed to continuously improving communication between management and its residents and program participants and continues to work with area partners to provide services. RHA has created a new position, Public Participation Coordinator, to increase resident participation in self-sufficiency program offerings. RHA will continue to develop and promote its Section 3 program, resident councils and advisory board. RHA has established a Resident Relations Committee which reports out to the Board

of Commissioners. The Committee is comprised of RHA staff, resident commissioners and resident council presidents who bring ideas, discussion items to each meeting. RHA's Resident Services will continue to assist with resident needs and actively engage in homeownership opportunities and self-sufficiency program development. RHA intends to perform physical needs and environmental assessment of its public housing scattered site units and determine which single-family units will be designated for homeownership. Current residents will be given first option to purchase the home. RHA may use capital funds and/or operating reserves to renovate designated public housing scattered site homes prior to being offered for homeownership. RHA has implemented a homeownership plan that will include HUD's Section 32 Homeownership. This comprehensive plan outlines the requirements and guidelines of the program. RHA has 7 public housing residents to purchase their public housing home. RHA is submitting its Special Application Center submission to continue the process. RHA has surveyed additional public housing residents in an effort to create a pipeline of Section 32 homeowners. Thus far, 41 responses have been submitted and the Resident Services department will meet one on one with each resident who wishes to purchase their home and create a path to successful homeownership. In addition to the Plan, RHA has developed a post homeownership program to assist families in maintaining their homes and ensuring homeowners that they have somewhere to go for assistance when they need it. RHA intends to increase utilization of homeownership vouchers through increased outreach. RHA intends to seek partners who will grow and assist family self-sufficiency initiatives. RHA continues to improve use of its community-based Computer Labs with faster service, new equipment, and utilize Community Service hours to monitor computer labs. RHA may utilize unused (Tenant Participation Funds) Per Unit Monies (PUM) of developments without an active Resident Council to create a Youth Employment and Education Program (YEEP) for public housing residents. RHA has started an annual scholarship for youth and adults to promote self-sufficiency. RHA plans to promote other scholarship opportunities for public housing residents and HCVP Participants utilizing partnerships and sponsoring various activities to obtain funds, including grants, and unused resident participation funds. RHA plans to create a building trades pre-apprenticeship program by partnering with various groups who will provide hands-on training for public housing residents and HCVP Participants. RHA will explore and create new partnerships and seek funding opportunities to create a Youth, Sports, and Fine Arts Chapter to enhance the outreach opportunities for youth to participate in routine and non-traditional leisure activities including but not limited to golf, swimming, basketball, dance, performing arts, scuba diving, football, tennis, writing, and much more. RHA will partner with the Boy Scouts and work together to bring scouting opportunities to its families. RHA intends to create business opportunities for resident councils and/or the Jurisdiction-wide Resident Council or individual residents.

If the PHA is designated as troubled, describe the manner in which financial assistance will be

provided or other assistance

This is not applicable since RHA has never been designated as a troubled Public Housing Authority (PHA).

Discussion

(con't) HCR, RHA and HUD will coordinate to develop and implement a five-year strategy to preserve public housing units, address their need for capital improvements, and ensure their continued affordability. RHA intends on using Capital Funds to further its mission of “Changing the Face of Public Housing” and make needed repairs to its Public Housing stock. RHA will identify sites based on physical needs assessment and environmental testing reports, prioritize the most strategic use of its funds to preserve its housing stock. RHA will participate in task forces and initiatives to address the housing quality, homelessness, and emergency housing needs in the community. RHA completed a comprehensive physical needs assessment on all of its public housing properties. There was an emphasis on prioritizing single family units for homeownership. Work performed will include landscaping, paving, HVAC upgrades, and interior and exterior improvements. RHA will continue to reduce unit turnaround time for vacated housing units so that they can be filled with applicants from the waiting list. RHA will engage in energy saving projects such as lighting, water conservation, and more efficient HVAC systems that will improve the quality of life for residents. RHA Resident Services also works to partner with other agencies that can assist residents in self-sufficiency initiatives and goals. Homeownership, training, employment, life skills, and financial education continue to be a focus in the upcoming year. RHA has been awarded HUD Family Self-Sufficiency (FSS) and Resident Opportunity & Self Sufficiency (ROSS) grants and contributes additional funds to further its mission of assisting residents and participants in becoming self-sufficient.

FURA awarded 28 additional Project Based Vouchers (PBV) through an RFP process in 2021. 20 PBVs were awarded to Rochester’s Cornerstone Group for a 150 new construction supportive senior housing development at Marketplace Mall. Financing includes HFA bonds, Supportive Housing Opportunity Program funds, NYSEDA, ESSHI, Monroe County HOME. FURA has executed an agreement for Housing Assistance Payment with Cornerstone. Construction has begun with completion by June 2024. The remaining 8 PBVs were awarded to PathStone Development Corp for new construction of a 74-unit senior housing development on Baird Road in Fairport. Financing for the project includes LIHTC HTF, NYS HCR HOME, and NYSEDA. This project is currently under AHAP and FURA. Construction will begin soon. The project is expected to be completed in October 2024. FURA will be opening its Section 8 and Project Based Waiting list in May 2023. The list has been closed for nearly 3 years. Typically, FURA’s Section 8 waiting list will remain open until there is a 2 year wait time for rental assistance. For the first time, FURA will be accepting applications electronically through a wait list portal. Applicants will be encouraged to apply online through the portal, however, paper applications will also be available to those who wish to apply in person or by mail.

Effective July 2023, FURA will be implementing a new landlord outreach and incentive program to improve low-income housing opportunities to program participants. FURA will engage in proactive

outreach to recruit landlords and will offer financial incentives to new landlords who lease units to program participants. Other financial incentives will be available to mitigate concerns over financial loss due to action or inaction of a tenant. This will help to retain existing landlords and recruit new landlords who are reluctant to participate in the program. Semi-annual landlord forums will be held to facilitate positive relationships with new and existing landlords. Section 8 staff will provide current and upcoming program information and discussions will be encouraged to allow landlords to discuss concerns or questions.

AP-65 Homeless and Other Special Needs Activities - 91.420, 91.220(i)

Introduction

Monroe County will continue to work with the Continuum of Care to coordinate services to the homeless and to provide outreach and other services, emergency shelter, transitional housing and permanent supportive housing to persons experiencing homelessness and/or with special needs. Coordinated Entry (CE) and the Housing First model are the primary tools that will end chronic homelessness. Through CE, the Chronically Homeless are prioritized for placement into permanent supportive housing. All CoC and ESG programs incorporate housing first principles into their programs to reduce barriers to accessing housing and to reduce terminations from programs. In 2016, the Rochester/Monroe County CoC reached functional zero toward ending veteran homelessness. Functional zero status does not mean that veterans won't become homeless; but it means that the CoC now has sufficient resources to get veterans into appropriate housing quickly and that veterans remain stably housed. The CoC, City, and County continue to partner with the Veterans Administration, Veterans Outreach Center, and other organizations serving veterans to ensure current resources are maintained and support new housing units targeted to veterans. To end homelessness for families and dependent children, the primary strategies being utilized are diversion and rapid re-housing. Strategies to end homelessness for unaccompanied youth include outreach, transitional housing and a rapid re-housing dedicated to young adults (ages 18 – 23). The CoC will continue to pursue additional resources for homeless youth through HUD's Youth Homelessness Demonstration Grants. Transitional housing, rapid re-housing programs and permanent supportive housing programs serving the re-entry population are proving to be successful in assisting this population with accessing and remaining stable in permanent housing. The Coordinated Entry system fully implemented in January 2018 aids in reaching these goals by employing diversion strategies to prevent entry into the homeless system and vulnerability assessments to ensure that those with the highest needs are prioritized and are referred to the programs that will best meet their needs. Consistent with the 2012 Homelessness Resolution Strategy, Rochester will: Continue to implement diversion as the first response to a housing crisis; Emphasize a rapid rehousing/housing first approach for the entire system; Increase Rapid Rehousing and Permanent Supportive Housing (PSH) resources; Use Progressive Engagement in Providing Services; improve practice and capacity in PSH programs by targeting PSH to people with the highest needs based on the vulnerability assessment tool, building PSH provider capacity, integrating employment services into PSH programs, and implementing a "Moving On Strategy" from PSH interventions; Implementing data-driven decision-making and evaluation; and ensuring leadership and accountability.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their

individual needs

Person Centered Housing Options (PCHO) and the Rapid Engagement Demonstration (RED) Team will continue to identify and engage the unsheltered homeless. PCHO, RED, MC Collaborative, and the Veteran Administration regularly visit soup kitchens, libraries, and public places that unsheltered homeless adults frequent. Youth street outreach workers will continue to regularly engage homeless and at-risk youth on the street, recreational centers, and other locations that youth frequent. The objective is to engage with the unsheltered homeless and link them with housing, services, and mainstream benefits. Additional outreach is conducted during the Code Blue season, when temperatures fall below 32 degrees. Any person requesting emergency shelter when the temperature is below 32 degrees must be placed in shelter or if there are no shelter beds available, in local hotels. Youth service providers will continue to utilize street outreach workers who use a mobile unit to conduct ongoing, regular outreach efforts with homeless and at-risk youth, including LGBT youth. Services include medical screenings (including HIV testing), condom distribution, and linking youth to community-based services and income streams. Homeless youth who agree to placement are transported to emergency shelters. Veterans outreach workers visit shelters, soup kitchens, and other locations in an effort to identify homeless veterans and link them to the VA and community-based services. Street outreach is conducted to engage the unsheltered homeless in the locations where they are known to congregate (e.g., encampments, parks, etc.). Specialized Office of Mental Health (OMH) outreach workers connect with homeless persons experiencing serious mental and/or substance abuse issues. Outreach workers who speak Spanish and other languages participate in these efforts.

Addressing the emergency shelter and transitional housing needs of homeless persons

Monroe County works with the CoC and its partners to carry out outreach and services to homeless persons and to provide emergency shelter for all homeless populations; homeless youth, veterans, victims of domestic violence, persons with chemical dependency and/or mental health issues and other homeless individuals and families. Transitional housing is provided for homeless youth, veterans, and re-entry populations many of whom have chemical dependency and/or mental health issues. The emergency shelter system was greatly impacted by COVID-19. Shelters were decompressed (census reduced) in late March of 2020 to ensure social distancing guidelines could be followed by shelters. This was accomplished by placing those who would be most vulnerable to COVID based on age and/or chronic health conditions into hotels where they would have their own rooms. By the end of 2021, most shelters were back at their optimum capacity and shelter occupancy is approaching pre-COVID numbers.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were

recently homeless from becoming homeless again

To end homelessness among households with dependent children, the CoC is utilizing Rapid Rehousing (RRH) programs. RRH provides short term rental assistance and case management services to move families from shelter to permanent housing quickly and ensure housing stability. It is also providing diversion assistance for those who have a viable alternative to a shelter but require some support. The CoC plans to increase the number of homeless households with children assisted through RRH projects by working with TH projects serving families to help them restructure using a RRH model and by soliciting housing organizations without such programs to create new RRH projects. ESG funding supports Coordinated Care Services, Inc.'s Rapid Rehousing program (RRP) that responds quickly to households referred through coordinated entry, secures appropriate PH, and uses an array of mainstream benefits and supports to maximize resources, increase housing stability and reduce repeat episodes of homelessness. RRH projects have sought and been awarded funding from other sources (e.g., NYS OTDA, and HUD CoC Funding), and this effort will continue. The needs of domestic violence victims, including their families, will continue to be broadly addressed. The Rochester/Monroe County Domestic Violence Consortium, with 50-member organizations from human services and the legal system, promotes a coordinated community response to domestic violence. In addition, staff of housing providers who serve domestic violence victims are trained in trauma-informed care and safety planning. Willow DVC serves people who are victims of domestic violence (or at risk) along with their children, offering counseling, education, and a secure shelter, whose location is not publicly identified. A 24-hour hotline provides information on housing and services for domestic violence victims. Willow DVC has stringent policies to ensure the safety and privacy of its clients, and names and other identifying data are not entered into HMIS. YWCA, LAWNY and Willow operate a rapid rehousing project for households experiencing domestic violence. For the past several years, there has been a DV Bonus Project opportunity as part of the annual HUD CoC funding competition. A Rapid Rehousing project was submitted but not selected for an award. The Center for Youth (CFY) Services Center House provided emergency housing and services for unaccompanied homeless youth, ages 12-17. CoC will continue to offer a range of outreach, emergency, and transitional housing and support services available through CoC and other funding resources. The Center for Youth (CFY) operates a RRH program for Transition Age Youth (ages 18 – 24) in our community. Youth providers have a common intake form, work together closely, and meet on a monthly basis to ensure that homeless youth have access to safe housing and services. In all cases, before a youth leaves a program, the youth is linked to a family member or other responsible, supportive adult. Youth providers will continue to work with Monroe County Office of Mental Health (OMH) to ensure access to mental health services and ease transition from the youth to the adult mental health system. Youth ages 16-17 and 18-24 will be targeted separately and offered age-appropriate services, while youth as young as 12 will also be served. Genesis House, an emergency housing program for older homeless youth, ages 17-20, closed its doors due to insufficient funding. This was the only emergency housing program dedicated to this population. Homeless youth who are 18-20 are able to access the adult shelters.

Helping low-income individuals and families avoid becoming homeless, especially extremely

low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

Youth being discharged from foster care or other institutional settings typically return to their family of origin or another responsible family member or adult. When no such adult can be located, the youth is placed in a community program specifically designed to prepare youth for independent living. CoC will continue to educate homeless providers about the importance of ensuring that youth are not discharged into homelessness. Shelters have been instructed to immediately contact MCDHS to report the failed discharge plan if a youth is attempting to access homeless services. The youth is then connected to a caseworker who attempts to re-unite the youth with his/her family or other responsible adult and link him/her to appropriate services. If such a re-uniting is not possible, the youth is referred again to a community program that prepares youth to transition to independent living.

Hospitals have been encouraged to not discharge people with no available housing after hours or weekends so that they can first go to MCDHS for assessment and placement into a shelter that can best meet their needs. When this is not possible or patient leaves against medical advice, hospital social work staff have been provided with information on local emergency shelters (e.g., physical layouts, staffing, hours open) so a referral is made to the shelter that can best meet the person's needs. Hospital staff call the shelter to confirm a bed is available, any required follow-up care is communicated to shelter staff, and the patient is provided with a sufficient supply of medication. Three emergency shelters (12 beds) have beds dedicated for persons who are being discharged from hospitals, due to health or mental health who are homeless which provide additional support through the use of peers and Health Home Care Managers to transition to and stabilize in permanent housing.

Inpatient facilities licensed or operated by NYSOMH and NYSOASAS are encouraged to refer individuals to housing consistent with the level of care required by the patient and to not discharge patients until a comprehensive discharge plan is in place. Prior to discharge, individuals in need of supervised housing, and who agree to a referral are referred to the County Single Point of Access (SPOA). The SPOA facilitates housing assistance for eligible individuals and connects persons to mental health care coordination services. Through HSN, CoC will continue to educate stakeholders about the primary providers of licensed mental health residential beds (DePaul Community Services, East House, Housing Options Made Easy, Rochester Psychiatric Center), intensive case management programs (Strong Memorial Hospital, Rochester General Health System, Unity Health System), and care coordination services (ACT Team, Project Link, MICA Net).

Ex-offenders are most frequently discharged to their families or to independent living under the supervision of parole. NYS Parole has contracts with several community agencies to place ex-offenders when no other housing can be located (e.g., Salvation Army Adult Rehab Center, Grace House, and

DuBois Re-Entry Program). NYS is implementing a pilot project in Monroe County for effectively linking eligible individuals from this population to Health Homes, which will provide enhanced care management, ensuring that enrollees are linked to housing and social services supports. CoC Team and Monroe County Re-Entry Task Force will continue to work closely, utilizing common members, to assist ex-offenders to successfully transition back into the community. Linking ex-offenders to mainstream resources will reduce the number of ex-offenders from entering the homeless system. Delphi, the umbrella agency for Monroe County Re-Entry Task Force operates a very successful RRH program for persons who are released and have no permanent housing identified.

Discussion

Con't from Helping homeless persons Project Anchor, a new project that began operations in late 2022 is a partnership with MCDHS and Catholic Charities Family and Community Services (CCFCS) to provide a rental supplement up to 100% of the metro-Rochester FMR for households with incomes under 50% AMI to 300 households in Monroe County. Up to 50% of the rental supplements will be reserved for homeless individuals or families. Priority will be given to households involved in the Child Welfare System. The ability to pay 100% of FMR will increase the ability of households to remain stable in permanent housing, reducing the number of households entering the homeless system.

The primary strategy to address the needs of the chronically housing population is permanent, supportive housing (PSH). PSH provides a deep rent subsidy (participant pays 30% of income for rent) and on-going case management and support services to participants who have a long term disability and who have been homeless for more than one year, or have had four or more episodes of homelessness totaling at least one year in the past three years. There is no limit on the length of stay in PSH. Housing First principles have been adopted by all of the PSH programs in the CoC to reduce barriers to accessing housing. Chronically homeless persons are prioritized for entry into all PSH programs when openings occur. The CoC Strategic Plan includes a goal of increasing affordable, supportive housing programs for homeless populations using nonCoC funding. Two programs utilizing Empire State Supportive Initiative (ESSHI) funding for the chronically homeless opened in 2021. Two new ESSHI projects, a 24 unit project serving homeless and a 35 unit project for the chronically homeless began renting up in November and December 2022.

The Veterans Administration (VA) and the Veterans Outreach Center (VOC) will continue to exclusively serve homeless veterans in the CoC geography. Both the VA and VOC provide emergency and transitional housing options for veterans. Both also partner with the Rochester Housing Authority (RHA) to provide PSH options for Veterans. Referral to the PSH programs come directly from the VA and/or through Coordinated Entry. VOC and Eagle Star have recently opened affordable, supportive housing for veterans that have been funded through the Empire State Supportive Housing Initiative (ESSHI).

Con't from Helping low-income individuals and families avoid becoming homeless The Reentry

Association of Western New York (RAWNY) recently began operations of a Reentry One Stop Center to provide services, support, and to make connections to community resources men and women returning home from incarceration from the Monroe County jail, state correctional facilities, and federal detention. Safe, affordable housing is the most requested service by persons who are criminal justice involved and one of the primary reasons for homelessness.

To reduce the time in Emergency Shelter (ES) or Temporary Housing (TH), the CoC has adopted a Housing First approach, which has resulted in eliminating many preconditions (e.g., sobriety, minimum income threshold) that can be barriers to accessing safe, affordable permanent housing. In addition, ESG funds have been used for rapid rehousing efforts, especially for families, to move them quickly to PH and reduce future episodes of homelessness. Data on the length of time that homeless individuals and families spend in CoC and ESG-funded ES, TH, and Supportive Housing (SH) programs are included in HMIS and will be used to track changes over time. Non-HUD funded projects are represented among the over 70 community agencies in the HSN, where members are educated on best practices and tools that can be used to reduce the length of time individuals stay homeless.

AP-75 Barriers to affordable housing -91.420, 91.220(j)

Introduction

Monroe County is working to expand access to and knowledge of County administered community development services, such as the Home Improvement Program, first time homebuyer programs, and HOME funded affordable rental housing units by providing/conducting outreach, and by providing easily accessible information. Communities outside of the City limits struggle with vacant property issues and there are few high quality, homeownership opportunities for low and moderate-income buyers in many Monroe County communities. In addition, the supply of single family residential properties for lower income homebuyers is limited and has been difficult to acquire with the current state of the housing market. Monroe County is continuing to fund the acquisition rehab resale program that will revitalize neighborhoods, increase inventory, and make available more affordable housing properties to first time homebuyers interested in purchasing their first home. Due to the foreclosure moratorium during the COVID-19 pandemic and the increased cost of properties, low-income homebuyers have had to compete for the purchase of homes with those who do not have the same funding or regulatory restrictions in the purchase of their home. Monroe County vacant properties are harder to purchase when competing/bidding with landlords who are purchasing properties for renters with no income restrictions. The need for affordable housing is especially acute for families and seniors in Monroe County. Local housing problems could be solved with more single family or family rental housing.

Monroe County is aware of the fact that nationwide, 61.7% of fair housing complaints were based on disability discrimination in 2019. During the COVID-19 pandemic, 31% of COVID-19 deaths in the US were older adults, staff, and caregivers in institutional settings as of June 2021. Nationwide, less than 1% of housing units are available to people who use a wheelchair full time. The impediments to available housing nationwide are also concerning in Monroe County because the CDC has found that adults with disabilities are twice as likely as those without disabilities to have inadequate transportation.

Monroe County will continue to work with partners in local governments, public housing providers, local developers, as well as community partners to help address housing needs of community members and promote and market affordable housing.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The Update to the Analysis of Impediments (AI) indicates that discrimination continues to be the major negative factor in locating housing for seniors and families. The Plan is a multi-year plan designed to address barriers to housing in Monroe County for low-income families and individuals and members of protected classes. Monroe County will work with municipal, developers, and community partners

through outreach and engagement to promote and market affordable housing.

Discussion

(con't from AP-65) To reduce the extent to which individuals and families leaving homelessness experience additional homeless episodes, the CoC will utilize prevention, diversion, and short-term rental assistance, and arrears payments. The Monroe County DHS Diversion Unit will continue to assist those at risk of homelessness with payments for such costs as back taxes, mortgage payments, auto repairs, and tools/uniforms for jobs. Returns to homelessness are also decreased as the result of less stringent compliance demands for participants, automatic renewals of leases, and ensuring that discharges are in accordance with fair housing requirements. Data in HMIS is used to determine if and when individuals and families leaving TH, RRH, and PSH experience another episode of homelessness in those cases where either they exit to homelessness or they exit to permanent housing, but subsequently re-enter the homeless system in the CoC geography. To improve the housing stability of persons in permanent supportive housing, the CoC will utilize the local Coordinated Entry System to ensure that households are directed to the housing and services that will best meet the needs of that household. Special attention is given to increasing access to mainstream supportive services and enhancing case/care management options to ensure effective integration of homeless housing & community-based services and supports.

AP-85 Other Actions - 91.420, 91.220(k)

Introduction

Actions planned to address obstacles to meeting underserved needs

Housing costs remain a burden to low-moderate income families as well as availability of units. Demands for resources continue to increase due to funding regulations and restrictions. Monroe County will continue to focus on: 1) creating and maintaining affordable housing stock; 2) continuing the Home Improvement Program to assist low income homeowners maintain their home and pay for necessary repairs; 3) continue to fund programs that assist job creation and retention and business expansion; 4) increase efforts to expand Section 3 new hires by increasing coordination with the City of Rochester, Rochester Housing Authority, RochesterWorks, Monroe County Human Services-Employment Assistance Division to assist contractors in finding and hiring low income individual and contracting with Section 3 businesses; 5) maintaining funding for the acquisition rehab resale program to increase housing stock and making available more affordable housing for first time homebuyers in suburban Monroe County.

Actions planned to foster and maintain affordable housing

Monroe County will: Create, maintain, and rehabilitate affordable housing stock; prioritize projects in communities where there is currently no affordable housing; and continue to fund public works/infrastructure improvement projects in low and moderate income areas. Monroe County's partnership with the Rochester Housing Development Fund Corporation (RHDFC)/Greater Rochester Housing Partnership (GRHP) has worked to expand the acquisition rehab resale program in suburban towns and villages. This program has, and will continue to increase affordable housing inventory and make available more single family units for homeowners interested in purchasing their first home in suburban towns and villages throughout Monroe County where housing stock is low and competitive for First time homebuyers.

This year, the GRHP staff have been awarded additional grant funding from a local bank to make available up to \$40,000 for three (3) properties in the County's acquisition rehabilitation resale program, which will offset the total development cost per project and allow Monroe County to maximize HOME funds to purchase additional properties to rehab and resale to income eligible homebuyers.

Actions planned to reduce lead-based paint hazards

Monroe County will continue to enforce actions specific to its housing programs in lead-based paint hazard identification, disclosure, and reduction. These activities are expected to make up half of the repairs undertaken this year. Federal requirements for lead-safe work practices and contractor certifications have substantially increased the cost of home repairs, making it more difficult to accomplish steps necessary to ensure health and safety related deficiencies are corrected. All properties

purchased through the First-Time Homebuyer Program must have inspections for lead-based paint hazards prior to final approval of applications for assistance. Purchase subsidies are issued only after receipt of inspection reports indicating that no lead-based paint hazards are present at the time of purchase. Proway Management, a NYS Certified Women/Minority Owned Business, Rochester based lead paint testing firm provides *risks assessment, lead based paint inspections, and clearance inspection services for the Home Improvement program participants. The Monroe County Department of Public Health's Lead Poisoning Prevention Program is funded by the NYSDOH. The current grant known as "Childhood Poisoning Prevention Program +" has been approved for a contract period of 10/1/21-9/30/26 with a total of \$5,175,000. The lead program conducts medical case management and environmental inspections for children with a known blood lead level $\geq 5\mu\text{g}/\text{dl}$. In 2022, the lead program identified 195 children with elevated blood lead levels. Inspections of housing units associated with the children were conducted in 181 units and 97 units were identified with lead hazards. Please refer to attached Monroe County maps which show number of children with confirmed Elevated Blood Lead Levels (EBLLs) above the current NYSDOH reference level of $5\mu\text{g}/\text{dl}$ blood lead level. The city of Rochester boarder is shown in purple. Local data show that children residing outside of the city continue to be at risk for lead poisoning and continue to have elevated blood lead levels above the reference value of $5\mu\text{g}/\text{dl}$. This data supports the continued effort to focus on lead hazard identification, remediation, and education when serving the residents of Monroe County. Lead Program Public Health Sanitarians conduct environmental inspections of properties to find lead hazards in homes where children with elevated lead levels reside or spend considerable time. Any hazards found must be remediated using Lead Safe Work practices and be conducted by a Certified Renovator. All properties must achieve lead dust clearance in accordance with current EPA standards. A Lead Program nurse ensures that children receive follow-up testing and care from their pediatric provider. Both sanitarians and nurses provide lead poisoning prevention education to parents and guardians.

Actions planned to reduce the number of poverty-level families

Rochester Monroe Anti-Poverty Initiative (RMAPI) coordinated efforts to access the initial funding to establish two adult mentoring programs. Bridges to Success and Family Independence Initiative (FII). FII completed its first funding cycle and successful program, meeting its target outcomes of increased employment and earned income. Bridges to Success finished Cohort 1 last year and because it had better outcomes than FII was extended into a second cohort which is still in full operation. Bridges to Success in being run in partnership with Action for a Better Community serving 100 participants.

Monroe County Department of Human Services and Rochester Rehabilitation are partnering in a program "Paths to Empowerment." This program will support individuals who are making the transition from public assistance to self-sufficiency. The program will coordinate existing resources and make linkages to community resources to maximize success for persons working toward employment retention.

The CoC is focusing on increasing income for all participants in CoC funded homeless

programs. Activities include ensuring participants are receiving all public benefits that they are eligible for, creating a SOAR program that will assist participants with long term disabilities in securing SSI/SSDI benefits, linking participants to employment and educational services in the community, and providing financial literacy services. While linking people to public benefits may not always lift a household out of poverty, ensuring that all households have a source of income, health insurance and adequate food resources (SNAP, WIC, etc.) is essential.

Actions planned to develop institutional structure

Monroe County Community Development will continue to work collaboratively with the divisions in Planning and Development, other County departments, including the Department of Human Services, Office of Mental Health, Office of the Aging, area service providers, the City of Rochester, the Rochester Housing Authority, the Fairport Urban Renewal Agency, Partners Ending Homelessness (PEH), the local Continuum of Care, and local towns and villages to enhance services and develop a more effective system for service coordination.

Monroe County is updating its Comprehensive Plan, known as Plan Forward. The Plan when completed will address big, global concepts like sustainability, social equity, energy supply & conservation, and climate change adaptation in ways that are appropriate and unique to Monroe County, while at the same time addressing local challenges like accessibility, economic development, recreation, food accessibility, and transportation.

Actions planned to enhance coordination between public and private housing and social service agencies

Community Development staff works collaboratively with the Department of Human Services, the City of Rochester, local towns and villages, local and state public and private housing agencies, including the Rochester Housing Authority and the Fairport Urban Renewal Agency. Coordination with public and private housing and social services agencies are a priority to enhance services and maximize resources.

Monroe County has re-established The Council of Governments (COG), which is an intergovernmental body made up of the chief elected officers of the County, City of Rochester and every town and village in Monroe County. The goal of this bipartisan assemblage is communication and collaboration to enhance government services for our community.

Discussion

(con't from Actions planned to reduce lead-based paint hazards) The MCDOPH is currently executing a Healthy Neighborhoods Grant. The grants run from April 1, 2022 to March 31, 2027. The focus of the grant is primary prevention for Tobacco Control, Fire Safety, Injury Prevention, Lead prevention, Indoor Air Quality, General Housing Conditions, and Asthma Control. Each year, Outreach workers will perform approximately six hundred (600) initial visits in zip codes 14605, 14608, 14609, 14611 and 14621, which

have well documented public health and housing issues. Additional zip codes may be added during this grant round. A total of 125 follow-up visits are also anticipated. Topics covered will include lead poisoning prevention (deteriorated paint, dust, cleaning, and nutrition), fire safety issues, carbon monoxide, general sanitation issues, code violations, electrical problems, tobacco cessation, general home safety, and controlling asthma triggers. Referrals will be made to MCDOPH programs and other agencies when problems are identified. During this grant round, the HNP grant manager intends to expand referrals made to outside agencies/programs that can provide additional assistance in home environmental issues, especially in relation to asthma and home repair/improvement.

Emergency Solutions Grant (ESG)

1. Include written standards for providing ESG assistance (may include as attachment)

The County, the City of Rochester, the Continuum of Care (CoC) and HSN (a collaboration of more than 60 local homeless services, legal, primary care, mental health, substance abuse, re-entry providers and community stakeholders) have met throughout each program year to jointly plan for ESG. In keeping with past practice of providing the Emergency Shelter Grants (ESG) Program Desk Guide March 2001 to all sub-recipients, the County and City has provided sub-recipients and community providers that coordinate with them the Emergency Solutions Grant Rules and Regulations, and tools available to date including Definition of Homelessness (Criteria for Defining Homeless and Record Keeping Requirements), and Emergency Solutions Grants (ESG) Program Components and Activities. The County and the City provided sub-recipients with information about the new homeless definition and eligibility, documentation and record requirements and HMIS participation. The CoC provides HMIS licenses and training to the County's ESG sub-recipients.

Written standards are attached for Street Outreach, Emergency Shelter, Shelter Operations, Homeless Prevention, and Rapid Rehousing. These programs are eligible for ESG funding.

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

Coordinated Entry is defined by HUD as a consistent and streamlined process for accessing the resources available in the homeless crisis response system...ensuring that those with the highest need, most vulnerable households in the community are prioritized for services and that the housing and supportive services in the system are used as efficiently and effectively as possible.

The intended target population for Coordinated Entry is all households or person(s) who are experiencing homelessness or at-risk of experiencing homelessness in Rochester and Monroe County and seeking assistance from the local crisis response system, which includes prevention assistance and homeless system services. This includes single adults without children, adults

accompanied by children, families, unaccompanied youth, parenting youth, person(s) fleeing domestic violence, and veterans.

The community has agreed upon the use of a common assessment tool, known as the VI-SPDAT, to help identify the immediate needs of the household and begin directing them to the appropriate permanent housing intervention based on those needs. Interventions include Rapid Re-Housing for those; who have moderate needs and Permanent Supportive Housing, which will be reserved for those with the highest needs. Households scoring low on the assessment are identified as not needing a housing intervention and are likely able to resolve their homelessness without ongoing assistance. The VI-SPDAT score will be used as one of the determinants in the community-wide prioritization model. While it is important to have an efficient and effective process by which households can access the homeless system, it is equally important for households to be quickly exited into the appropriate permanent housing that will best meet their needs and minimize their likelihood of returning to homelessness. The CE program is currently exploring options for a new assessment tool as the VISPDAT is no longer going to be supported by its developer, Org Code.

Prioritization is a critical component of a Coordinated Entry system to appropriately exit households to permanent housing and to ensure those with the greatest needs have timely access to services. CE has developed a prioritization model based on input from community stakeholders to establish a process to effectively identify those with the highest needs and connect them to the appropriate permanent housing more quickly. CE Workgroup meets regularly to determine how households are prioritized and what information will be used to determine the way in which the list is ordered. A by name prioritization list is now in place and all TH, PSH and RRH housing providers are only permitted to accept households that are referred through the Coordinated Entry prioritization process. The work group continues to meet to make sure CE is functioning efficiently and makes revisions to policies and procedures as needed.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

Awards for the 2023-24 program year were based upon a 2022 Request for Proposal (RFP) process, which was jointly administered by the County and City. The notice was published by legal notice in The Daily Record and distributed via networks including those of the CoC and HSN and respectively on its established website. Awardees were chosen by a committee of County, County Department of Human Services, City, and CoC administrative board, and a formerly homeless community member. Services under this proposal cycle will run from August 1, 2023 – July 31, 2024.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions

regarding facilities and services funded under ESG.

In compliance with Section 576.405(a) of the Interim Rule, the County has engaged persons who are currently or formerly homeless in their planning process. Formerly homeless persons are active members of the Homeless Services Network and are represented on the CoC Board and the HSN Steering Committee. Programs serving the homeless are also required to have homeless or formerly homeless persons involved in policy setting and decision making processes. Both permanent supportive housing and street outreach programs are utilizing persons with lived experience as peers to provide additional support to participants.

5. Describe performance standards for evaluating ESG.

The County utilizes the Integrated Disbursement and Information System (IDIS) to document program progress and monitor program performance on an ongoing basis. The County requires all ESG sub-recipients to submit data to HMIS as required by HUD. A Consolidated Annual Performance and Evaluation Report (CAPER) is prepared annually by the County. Each ESG funded project uses HMIS to run their CAPER and download it directly into SAGE for the County to produce that report. The CoC will assist the projects as needed to do the submission. The CAPER contains a summary of resources and programmatic accomplishments, the status of actions taken in concert with the CoC to implement the strategies contained in the Consolidated Plan, and evaluation of progress made in addressing identified priority needs and objectives.

Performance Standards are in alignment with the new measures implemented with the HEARTH Act including: reducing the duration of homelessness; reducing recidivism; reducing the number of people who become homeless; increasing employment and income; and stability in permanent housing.

Monroe County Legislature

Subject: Acceptance of a Gift from the Greater Rochester Disc Golf Club of Disc Golf Baskets for Ellison Park's Disc Golf Course

Honorable Legislators:

I recommend that Your Honorable Body authorize the acceptance of a gift from the Greater Rochester Disc Golf Club ("GRDGC") of 18 Disc Golf Association ("DGA") "Mach 7" disc golf baskets with a retail value of approximately \$8,910 for Ellison Park's Disc Golf Course.

The Monroe County Parks Department was approached by David Copp, current president of the GRDGC, regarding improvements to the existing disc golf course at Ellison Park. Mr. Copp has applied to the DGA's "RePlay Course Growth Program" and has received a tentative award of 18 Mach 7 disc golf baskets, which act as the "holes" on a disc golf course, pending his confirmation to the DGA of the approval of this body to accept his donation of the baskets to the County.

Upon acceptance of this gift, the Parks Department intends to donate the 18 older-model baskets being replaced to the Brockport Central, East Rochester Central, and Churchville-Chili Central school districts (six baskets to each district), for the creation of small instructional courses at schools within the district. All three athletic directors involved have been in discussion with the GRDGC and are interested in accepting these baskets if the GRDGC's application to the DGA is a success and this referral is approved. These baskets are DGA "Mach 3" baskets which were purchased by and donated to the County by the GRDGC in 1989, at an original purchase price of \$5,040 and an estimated current value of \$1,800. The transfer of this county property to the three school districts would be completed as per the requirements of the county's disposal policy.

The specific legislative action required is to authorize the County Executive, or his designee, to accept a gift from the Greater Rochester Disc Golf Club of 18 "Mach 7" disc golf baskets with a retail value of approximately \$8,910 for Ellison Park's Disc Golf Course.

This action is a Type II Action pursuant to 6 NYCRR 617.5(c)(31) (“purchase or sale of furnishings, equipment or supplies, including surplus government property, other than the following: land, radioactive material, pesticides, herbicides, or other hazardous materials”) and is not subject to further review under the State Environmental Quality Review Act.

This gift will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Subject: Approve and Adopt the Updated 2023 Monroe County Hazard Mitigation Plan

Honorable Legislators:

I recommend that Your Honorable Body approve and adopt the updated 2023 Monroe County Hazard Mitigation Plan ("the Updated Plan").

The Disaster Mitigation Act of 2000 requires that all local governments have an approved disaster mitigation plan in place in order to be eligible for Federal Hazard Mitigation Grant Program project funding. Monroe County and the political subdivisions within the County opted to author a multi-jurisdiction plan and have actively participated in the design and writing of the Updated Plan. Federal regulations implementing the Disaster Mitigation Act of 2000 (44 CFR Section 201.6(c)(5)) require that the Updated Plan be formally adopted by each jurisdiction requesting its approval. Therefore, the County Legislature and the local government legislative bodies must approve and adopt the Updated Plan.

The Disaster Mitigation Act of 2000 requires that disaster mitigation plans be revised on a 5-year cycle. The Updated Plan replaces the existing Monroe County Hazard Mitigation Plan previously adopted by the County Legislature on May 9, 2017. The Federal Emergency Management Agency designated the Updated Plan as Approvable Pending Adoption on March 16, 2023.

The specific legislative actions required are:

1. Schedule and hold a public hearing on the updated 2023 Monroe County Hazard Mitigation Plan.

2. Approve and adopt the updated 2023 Monroe County Hazard Mitigation Plan.
3. Authorize the County Executive, or his designee, to submit the updated 2023 Monroe County Hazard Mitigation Plan to the New York State Division of Homeland Security and Emergency Services and the Federal Emergency Management Agency.

The Plan will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Enact a Local Law Amending the Monroe County Purchasing Law to Allow Procurement on the Basis of Best Value

Honorable Legislators:

I recommend that Your Honorable Body enact a local law amending Chapter 25 of the Administrative Code known as the "Monroe County Purchasing Law" to allow for the use of "best value" procurement for the County's purchase contracts.

New York State General Municipal Law Section 103(1) provides that purchase contracts for materials, supplies, equipment, apparatus or services, but excluding contracts necessary for public works, may be awarded on the basis of best value to a responsive and responsible bidder. Section 163 of the State Finance Law defines best value as the basis for awarding contracts "which optimizes quality, cost and efficiency, among responsive and responsible offerers." Under the State Finance Law, such basis should reflect, wherever possible, objective and quantifiable analysis. Best value may also include quantitative factors for offerers, such as small businesses and certified minority or women-owned business enterprises.

The best materials, supplies, equipment, apparatus and services required are not always the lowest cost. In addition to price, the proposed Local Law will allow the County to consider factors such as product and service quality and efficiency, small businesses, certified minority or women-owned business enterprises, certified service-disabled veteran-owned business enterprises, and State-approved green specifications when evaluating responsive and responsible bidders. The proposed Local Law will also permit the County to purchase materials, supplies, equipment, apparatus or services on the basis of best value from contracts let by the Federal Government or another state, political subdivision, or district.

The specific legislative actions required are:

1. Schedule and hold a public hearing on the proposed Local Law.
2. Enact a Local Law to amend the Chapter 25 of the Administrative Code known as the "Monroe County Purchasing Law" to allow for the use of "best value" procurement for purchase contracts.

This is a Type II Action pursuant to 6 NYCRR Section 6217.5(c)(26) (“routine continuing agency administration and management not including new programs or major reordering of priorities that may affect the environment”) and (33) (“adoption of regulations, policies, procedures and local legislative decisions in connection with any action on this list”) and is not subject to further review under the New York State Environmental Quality Review Act.

Enactment of this local law will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Authorize a Contract with Brown & Brown of New York, Inc. to Act as Insurance Broker of Record for the County of Monroe

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Brown & Brown of New York, Inc. for the purpose of serving as the County's Insurance Broker of Record in connection with the administration of the County's insurance and self-insurance program, at a fixed rate of \$58,500, for the period of October 1, 2023 through September 30, 2024, with the County's option to renew the contract for two (2) additional one-year terms at the rate of \$58,500 per year.

Monroe County has a self-insured retention for general liability claims of \$2,000,000. The County has traditionally contracted with an outside entity to act as its Broker of Record to procure policies of insurance for excess general liability, real and personal property, aviation, worker's compensation, cyber, boiler and machinery and other coverages, and to assist the County in the administration of its self-insurance program.

A Request for Qualifications was issued for the provision of these services and Brown & Brown of New York, Inc. was selected as the most qualified to provide the services.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with Brown & Brown of New York, Inc., 45 East Avenue, Rochester, New York 14604, to serve as the County's Insurance Broker of Record in connection with the administration of the County's insurance and self-insurance program, at a fixed rate of \$58,500 for the period of October 1, 2023 through September 30, 2024, with the County's option to renew the contract for two (2) additional one-year terms at the rate of \$58,500 per year.

This is a Type II Action pursuant to 6 NYCRR Section 6217.5(c)(26) (“routine continuing agency administration and management not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the New York State Environmental Quality Review Act.

Funding for this contract is included in the 2023 Monroe County budget, internal service fund 9020, funds center 1275010000, Liability Insurance. No additional net County support is required in the current Monroe County budget.

The records in the office of the Monroe County Treasury have indicated that neither Brown & Brown of NY, Inc., nor any of its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firm are:

Donald McGowan, President
Nicholas Dereszynski, Executive Vice President
Andrew Meloni, Executive Vice President
John Moccia, Executive Vice President

Subject: Appropriate Fund Balance to Establish a Research Strategy and Development Team within the Department of Finance and Authorize the Creation of Ten New Positions

Honorable Legislators:

I recommend that Your Honorable Body appropriate fund balance in the amount of \$745,086 to establish a Research Strategy and Development team within the Department of Finance and authorize the creation of ten (10) new positions.

The Research Strategy and Development team is being established to assess the impact of County investments throughout our community to help inform policy and future investment decisions. The County is uniquely positioned to analyze data collected by local departments such as the Department of Public Health, Human Services, Public Safety and the Office of Mental Health.

The team will serve a critical community need by assembling and organizing relevant data from County sources, funded providers, and community fieldwork. Information will be evaluated using mixed research methods (quantitative and qualitative) to identify trends and determine the effectiveness of programs.

While primarily staffed within the Department of Finance, several critical systems and data positons will reside, organizationally, within other departments for systems security and compliance purposes.

The specific legislative actions required are:

1. Amend the 2023 operating budget by appropriating unassigned fund balance in the amount of \$584,390 into the Department of Finance, general fund 9001, funds center 1202010000 Research Strategy and Development.
2. Amend the 2023 operating budget by appropriating unassigned fund balance in the amount of \$60,780 into the Department of Information Services, internal services fund 9020, funds center 1901010000 I/S Administration.
3. Amend the 2023 operating budget by appropriating unassigned fund balance in the amount of \$49,532 into the Department of Human Services, Office of Mental Health general fund 9001, funds center 5701010000 Mental Health Administration.

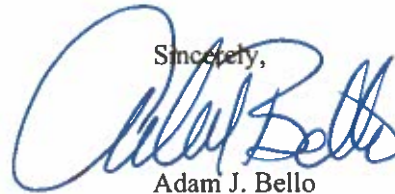

4. Amend the 2023 operating budget by appropriating unassigned fund balance in the amount of \$50,384 into the Department of Public Health, general fund 9001, funds center 5801120000 Opioid & Addiction Services Task Force.
5. Authorize the creation of ten new positions as follows:
 - a. Department of Finance:
 - i. One (1) Research Strategy & Development Director, Group 22;
 - ii. One (1) Research Strategy & Development Assistant Director, Group 21;
 - iii. One (1) Research Coordinator, Group 20;
 - iv. Two (2) Research Specialist, Group 18;
 - v. One (1) Office Manager, Group 13;
 - b. Department of Information Services: One (1) Program Analyst, Group 17;
 - c. Department of Public Health: One (1) Research & Data Analysis Coordinator, Group 13;
 - d. Office of Mental Health: One (1) Research & Data Analysis Coordinator, Group 13;
 - e. Human Services: One (1) Research and Data Analysis Coordinator, Group 13.
6. Authorize the County Executive, or his designee, to submit applications for, and accept, grants from community foundations interested in providing financial support for the Research Strategy and Development team.

This action is a Type II Action pursuant to 6 NYCRR §617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act.

Establishment of the Research Strategy and Development team will require \$745,086 of net County support for which the appropriation of fund balance is requested.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Authorize Contracts with Vendors for 2023 Community Festival Support and Revise the Definition of Mid-Sized Arts Organizations in the 2023 Monroe County Budget

Honorable Legislators:

I recommend that Your Honorable Body authorize contracts with the agencies listed in Attachment A in a total amount not to exceed \$140,000 for 2023 Community Festivals for the period of January 1, 2023 through December 31, 2023 and amend the definition of Mid-Sized Arts Support to include cultural organizations with annual budgets between \$50,000 and \$4,000,000.

This is the first year Monroe County has offered Community Festival Support, as outlined in the 2023 Monroe County Budget. In total, twenty-four (24) festivals will be funded at an amount not to exceed \$296,300, of which three (3) festivals were selected to receive support exceeding \$20,000.

The festivals were selected through a competitive application process. Festivals were required to apply for funding under one or more of the following four (4) categories pursuant to County Law § 224: (1) Events or festivals related to armistice, memorial, or other recognized national patriotic observance; (2) Events or festivals that commemorate historical events of county-wide interest and concern; (3) Events or festivals that provide for the maintenance and operation of a professional symphony or philharmonic orchestra, musical festival, or vocal, dance, drama, or performing arts troupe, group, or activity of any kind or nature; and/or (4) Events or festivals that publicize the advantages of the county. Additional requirements were also established related to event date, location, size, and cost.

Additionally, the definition of Mid-Sized Arts Support will be expanded to include cultural organizations with annual budgets between \$50,000 and \$4,000,000. The current definition only supports organizations with budgets of \$100,000 to \$1,500,000. Expanding this definition will create opportunities that are more equitable and expand eligibility for arts and cultural funding. Applications for mid-sized arts support is expected to launch in summer of 2023.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to execute contracts, and any amendments thereto, with each approved agency as listed in Attachment A for community festival support in a total amount not to exceed \$140,000 for the period of January 1, 2023 through December 31, 2023.
2. Amend the 2023 Monroe County Budget to expand the definition of Mid-Sized Arts Support from contributions for arts and cultural organizations with annual budgets between \$100,000 and \$1.5 million to contributions for arts and cultural organizations with annual budgets between \$50,000 and \$4 million.

Funding for these contracts is included in the 2023 operating budget of the Monroe County Cultural and Educational Services, general fund 9001, funds center 8902010000, Authorized Agencies. No additional net County support is required in the current Monroe County budget.

Each of these agencies has been reviewed for not-for-profit or corporate status and the records in the Office of the Monroe County Treasury have indicated that none of these agencies owe any delinquent Monroe County property taxes.

Subject: Commit Unassigned Fund Balance for the Specific Purpose of Funding Town Incentives to Install Sidewalks on County Roads

Honorable Legislators:

I recommend that Your Honorable Body commit general fund unassigned fund balance in the amount of \$10,000,000 for the specific purpose of funding town incentives to install sidewalks on County roads.

As the Department of Transportation identifies County road projects appropriate for sidewalk installation, the cost of the installation will be incorporated into the overall cost of the capital project. An intermunicipal agreement will be offered to the Town that includes a partial County subsidy to offset the sidewalk's cost as an incentive to gain the Town's participation.

The specific legislative action required is to commit general fund unassigned fund balance in the amount of \$10,000,000 for the specific purpose of funding town incentives to install sidewalks on County roads.

This legislative action is a Type II action pursuant to 6 NYCRR §617.5(c)(27) ("conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action") and is not subject to review under the State Environmental Quality Review Act.

The commitment of fund balance will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Subject: Amend the 2023 Operating Budget of the Office of the Sheriff to Provide Adequate Staffing for the Police Bureau and Establish the Regional Investigative Operations Center by Appropriating Unassigned Fund Balance, Amend the 2023 Capital Budget to Increase Funding for the Project Entitled "Sheriff's Vehicle Replacement," Authorize the Creation of Forty-Three Sworn and Civilian Positions, and Authorize an Interfund Transfer

Honorable Legislators:

This referral is being submitted by County Executive Adam J Bello, Sheriff Todd K. Baxter, and Monroe County Legislators.

We recommend that Your Honorable Body amend the 2023 operating budget of the Office of the Sheriff to provide adequate staffing for the Police Bureau and establish the Regional Investigative Operations Center (RIOC) by appropriating unassigned fund balance in the amount of \$7,291,000, amend the 2023 capital budget to increase funding for the project entitled "Sheriff's Vehicle Replacement" in the amount of \$1,021,000, authorize the creation of forty-one (41) sworn and two (2) civilian positions within the Office of the Sheriff, and authorize an interfund transfer in the amount of \$1,021,000.

Sheriff Patrol across Monroe County is currently staffed at minimum levels and there is no flexibility for leave, training or proactive details. Specifically, the number of patrol deputies per capita averages 1 per 3,615 residents. This is well below the national average of 2.3 per 1,000 residents. This referral will increase the amount of patrol to improve coverage and safety across Monroe County. The additional deputies will staff the 3 Zones and address increased demand from 10:00 AM to 2:00 AM as well as fully staffing the Traffic Enforcement Unit and Community Engagement Unit.

Multijurisdictional crime patterns and domestic violent extremists are a rapidly growing threat to our community. Consistent with Governor Hochul's Executive Order 18, the Office of the Sheriff is seeking to create a RIOC to provide a formal structure for coordinating interagency law enforcement and other public safety resources to address a wide range of multijurisdictional crime patterns, such as smash-and-grab burglaries, catalytic converter thefts, child abductions, and violent extremist threats.

Under a formal structure, RIOC staff will coordinate law enforcement involvement in the Rochester Threat Advisory Committee (ROCTAC), provide a liaison to state and federal agencies on targeted violence prevention cases, and receive actionable intelligence from the Monroe Crime Analysis Center and the New York State Intelligence Center. Further, the RIOC will take an all-hazards approach, meaning regardless of the type of threat to the community, RIOC staff will assist the Office of Emergency Management with information collection, situational assessment, and strategy recommendations for engaged fire, EMS, and law enforcement agencies.

This referral will allow the Sheriff's Office to meet the demands of 21st century policing.

The specific legislative actions required are:

1. Amend the 2023 operating budget of the Office of the Sheriff to establish the Regional Investigative Operations Center by appropriating unassigned fund balance in the amount of \$7,291,000 into general fund 9001, funds centers:
 - a. 3803010000, Police Bureau Administration, in the amount of \$1,982,442;
 - b. 3803020000, Road Patrol Zone A, in the amount of \$776,300;
 - c. 3803030000, Road Patrol Zone B, in the amount of \$776,300;
 - d. 3803040000, Road Patrol Zone C, in the amount of \$776,300;
 - e. 3803050100, Criminal Investigations, in the amount of \$1,091,595;
 - f. 3803140000, Airport Security, in the amount of \$521,183;
 - g. 3806030000, Fleet Maintenance, in the amount of \$1,145,000;
 - h. 3806060000, Quartermaster, in the amount of \$221,880.
2. Authorize the creation of forty-three sworn and civilian positions within the Office of the Sheriff, as follows:
 - a. (32) Deputy Sheriff Road Patrol, Group 70;
 - b. (2) Deputy Sheriff Investigator, Group 72;
 - c. (2) Deputy Sheriff Road Patrol Sergeant, Group 73;
 - d. (2) Deputy Sheriff Investigator Sergeant, Group 73;
 - e. (3) Deputy Sheriff Road Patrol Lieutenant, Group 78;
 - f. (1) Office Clerk 2, Group 7;
 - g. (1) Drone Technician/Pilot, Group 13.
3. Amend the 2023 capital budget to increase funding for the project entitled "Sheriff's Vehicle Replacement" in the amount of \$1,021,000, from \$1,599,026 to \$2,620,026.
4. Authorize an interfund transfer in the amount of \$1,021,000 from the Office of the Sheriff, general fund 9001, funds center 3806030000, Fleet Maintenance to capital fund 1855, Sheriff's Vehicle Replacement.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

This budget amendment to provide adequate staffing for the Police Bureau and establish the Regional Investigative Operations Center will require additional net County support for which the appropriation of fund balance is requested.

We recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Authorize Grant Contracts and Appropriation Transfers Pursuant the American Rescue Plan Act (ARPA)

Honorable Legislators:

We recommend that Your Honorable Body authorize grant contracts with the agencies listed in Attachment A in a total amount not to exceed \$6,205,421 pursuant to the American Rescue Plan Act ("ARPA") for terms to commence on or after May 1, 2023 and terminate on or before December 31, 2026, and to authorize appropriation transfers.

The American Rescue Plan Act of 2021 was signed into law on March 11, 2021. ARPA allocated \$1.9 trillion in emergency relief and recovery, of which \$350 billion was designated to support state, local, territorial, and Tribal governments. Monroe County is the recipient of \$144,080,127 in State and Local Fiscal Recovery Funds through ARPA. As part of its ARPA response, Monroe County designated a portion of its funds to support entities that provide fire protection services and/or certified ambulance and advanced life support first response services in Monroe County.

On December 16, 2022, Monroe County issued a Request for Proposals for entities that provide fire protection services and/or certified ambulance and advanced life support in Monroe County. Respondents were invited to submit grant proposals that complied with ARPA requirements, which included but were not limited to: improving the efficacy of public health and economic programs through tools like program evaluation, data, and outreach; restoring pre-pandemic employment in the public sectors; and COVID-19 mitigation and prevention. 25 proposals were submitted for consideration and 13 applications were selected.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to execute grant contracts, and any amendments thereto, with the agencies listed in Attachment A in a total amount not to exceed \$6,205,421 for terms to commence on or after May 1, 2023 and terminate on or before December 31, 2026.
2. Authorize an appropriation transfer in the amount of \$4,000,000 from the Monroe County Legislature, general fund 9301, funds center 1001030000, Local Recovery Fund to the Department of Finance, general fund 9301, funds center 1403930103 ARPA-Public Safety.

3. Authorize an appropriation transfer in the amount of \$2,205,421 from the Department of Public Health, general fund 9001, funds center 5801090100 Pandemic Response to the Department of Finance, general fund 9301, funds center 1403930103 ARPA-Public Safety.
4. Authorize the County Executive to appropriate any subsequent years of these funds, any returned contractor funds, or any deferred revenue, in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.
5. Should funding of these programs be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program(s) and where applicable, to terminate or abolish some or all positions funded under such program(s). Any termination or abolishment of positions shall be in accordance with the New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

The grant contracts are Type II Actions pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and (31) (“purchase or sale of furnishings, equipment or supplies, including surplus government property, other than the following: land, radioactive material, pesticides, herbicides, or other hazardous materials”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for these grant contracts is included in fund 9301, funds center 2408020100 once the appropriation transfers are authorized. No additional net County support is required in the current Monroe County budget.

Each of these contractors has been reviewed for not-for-profit corporate status and the records in the Office of the Monroe County Treasury have indicated that none of these agencies owe any delinquent Monroe County property taxes.

We recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

**Short Environmental Assessment Form
Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short term, long-term and cumulative impacts.

The action is for the jurisdictional transfer of the property and does not include the physical alteration nor disturbance of the property. Although Part 1 of the EAF indicates there are archaeological resources and wetlands exist in the area, the proposed action does not include physical alteration of the site and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for wetlands from state and federal regulatory bodies. Accordingly, it has been determined that no significant adverse environmental impacts from this action will occur.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Monroe County is undertaking a project at Innovative Field so the Rochester Red Wings baseball team will remain compliant with Major Baseball League Baseball (MLB) standards. The project involves improvements and modifications of facility elements (approximately 11,000 sq.-ft) that include the construction of a new Batting Building, and additions to existing buildings. The proposed work will minimize any ground disturbance since it will be constructed over existing pavement and sidewalk area, and over an existing buried water utility. The relocated utility will be constructed under the pavement of an existing parking lot.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

**Short Environmental Assessment Form
Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The existing location at Genesee Valley Park is gently graded with well established turf, mowed and maintained as a golf course. This project would see earthen disturbances of less than 0.75 acres, grading and contouring subsoils and then installing the synthetic golf turf atop of that freshly graded material. Erosion and sediment controls will be utilized as needed during construction to ensure that sediment remains on site and erosion is mitigated. As such, there is no significant impact to land anticipated.

The Environmental Assessment reports that the Project is located within the 100 foot buffer of NYS-DEC Wetland RH-3. Current wetland delineations of this location do not indicate that wetlands are present, however to ensure coordination with NYS-DEC a wetland delineation has been performed and is currently being reviewed. The intent of the project will only modify the existing mowed and maintained turf areas and not encroach into any regulated areas of Wetland RH-3. As such, there is no significant impact to water anticipated.

The Project is located within the 100 year floodplain of the Genesee River, however as the Project will reconstruct existing porous turfed areas maintained as golf course with a porous synthetic turfed area within the same profile. As there is no change to existing uses, there is no significant impact to flooding anticipated.

In 1986, the City of Rochester designated the area as a critical environmental area, noting that it is a environmentally sensitive area. The NYS-DEC Environmental Resource Mapper was reviewed and no threatened or endanger species were mapped within the project area. As a result, no significant impacts to flora and fauna are anticipated.

There are two remediation sites within 2000 ft of the proposed project, Rochester Fire Academy and Kozel Structural Steel and Fabrication. As the project would not impact these remediation sites, no significant impact is noted.

The Project is in keeping with the current uses and aesthetics of the current golf course and thus there is no anticipated impact on aesthetics.

While Genesee Valley Park is an eligible national registrar location, the Project is located in an area which the Resource Mapper does not highlight as a sensitive location and further the current and future uses will remain golf course focused. As a result, no significant impacts to archaeological resources are anticipated.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Banning of Vaping in Monroe County Parks

Honorable Legislators:

We, the undersigned, do hereby submit to this Honorable Body a resolution to ban vaping in County public parks. New York State established a law in 2022 to prohibit smoking in any public park that is under the control of any state or local government; Assembly Bill 05061/Senate Bill S04142 was signed by Governor Hochul on July 15, 2022. A park is defined to include public parks, beaches, pools, boardwalks, marinas, playgrounds, recreation centers, group camps and the equipment, buildings and facilities in any of those areas.

Those smoke-free requirements apply to both state-owned parks, as well as those managed by local governments. The enacted State law restricts only "smoking," which is defined separately than "vaping" in New York law. Local units of government retain the ability to adopt stronger regulations that would restrict vaping or e-cigarette use in outdoor areas.

The specific legislative action required is to amend the Section 323-29 of the Monroe County Code to institute a ban on the use of vaping products in County parks.

This resolution will have no fiscal impact on Monroe County's Budget.

Respectfully submitted,

Linda Hasman

Subject: Banning of Vaping in Monroe County Parks

Honorable Legislators:

We, the undersigned, do hereby submit to this Honorable Body a resolution to ban vaping in County public parks. New York State established a law in 2022 to prohibit smoking in any public park that is under the control of any state or local government; Assembly Bill 05061/Senate Bill S04142 was signed by Governor Hochul on July 15, 2022. A park is defined to include public parks, beaches, pools, boardwalks, marinas, playgrounds, recreation centers, group camps and the equipment, buildings and facilities in any of those areas.

Those smoke-free requirements apply to both state-owned parks, as well as those managed by local governments. The enacted State law restricts only "smoking," which is defined separately than "vaping" in New York law. Local units of government retain the ability to adopt stronger regulations that would restrict vaping or e-cigarette use in outdoor areas.

The specific legislative action required is to amend the Section 323-29 of the Monroe County Code to institute a ban on the use of vaping products in County parks.

This resolution will have no fiscal impact on Monroe County's Budget.

Office of the County Executive

Monroe County, New York

Adam J. Bello
County Executive

March 10, 2023

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Enact a Local Law Entitled "Waiver of Residency Requirement for Monroe County Road Patrol Deputies"

Honorable Legislators:

This matter is being jointly submitted by myself and Sheriff Todd K. Baxter. I recommend that Your Honorable Body enact a local law entitled "Waiver of Residency Requirement for Monroe County Road Patrol Deputies."

Over the past five years, the pool of applicants for the position of Monroe County Deputy Sheriff-Road Patrol ("Road Patrol Deputy") has significantly decreased. Currently, Road Patrol Deputies are required to reside in Monroe County. All other law enforcement agencies in Monroe County allow their officers to reside outside of the County or the jurisdiction where they serve. Because of this requirement, Monroe County loses highly-qualified applicants to other local police agencies. Lateral candidates, many of whom have established homes and children in local schools, are reluctant to consider transferring to the Monroe County Sheriff's Office because of the residency requirement.

The proposed local law will help ease staffing levels among Road Patrol Deputies and allow deputies to reside in Monroe County or any other adjoining county. Furthermore, this local law will enable the Sheriff's Office to be competitive with other local law enforcement agencies in the recruitment of qualified Road Patrol Deputies.

This action is a Type II Action pursuant to 6 NYCRR §617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Enactment of this Local Law will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable body.

Sincerely,

Adam J. Bello
Monroe County Executive

Subject: Enacting a Local Law Entitled "Expanded Veterans and Cold War Veterans Tax Exemption"

Honorable Legislators:

Over the past few years, our local Veterans have been hit hard from the global pandemic. Back in 1997 and 2005, Monroe County took advantage of an alternative Veteran tax exemption under New York State Real Property Tax Law Section 458-a by increasing the maximum allowable exemption. The basic minimums under that State law are (a) \$12,000 for wartime Veterans, (b) \$8,000 for combat zone Veterans, and (c) \$40,000 for disabled Veterans, but subsection (d) allows for taxing jurisdictions to increase or decrease these amounts. Additionally, Cold War Veterans who do not qualify under Real Property Tax Law Section 458-a are also eligible for an exemption under Section 458-b. Under this local law, the maximum exemption allowed for Cold War Veterans is expanded to \$45,000 and for disabled Cold War Veterans to \$150,000.

While we have all been working to ensure our Veterans get the protections they need, there has been a dire need for much more growth and improvement. In 1997, the maximum exemptions in Monroe County under Section 458-a were raised to \$18,000, \$12,000, and \$60,000 and in 2005, the maximum exemptions were raised to \$60,000, \$24,000, and \$120,000.

One of our neighboring counties has already decided to take that next step in ensuring our veterans get the best services available. In 2022, Erie County raised their maximum exceptions to \$30,000, \$20,000, and \$100,000. Under state law, the maximum levels Monroe County can raise subsections (b) and (c) to are \$30,000 and \$150,000 respectively, and we seek to raise our exemption levels to that maximum allowable amount.

Utilizing this enabling legislation available to counties all across New York, we are looking to increase this under the current state law. This increase will allow Veterans of the past, present, and future to take advantage of this tax exemption. In a time where the worldwide pandemic has ended and normality has begun to set back in, anything and everything we can do to help our Veterans needs to be done.

Additionally, Cold War Veterans who do not qualify under Real Property Tax Law Section 458-a are also eligible for an exemption under Section 458-b. Under this local law, the maximum exemption allowed for Cold War Veterans is expanded to \$45,000 and for disabled Cold War Veterans to \$150,000.

While we have all been working to ensure our Veterans get the protections they need, there has been a dire need for much more growth and improvement. In 1997, the maximum exemptions in Monroe County under Section 458-a were raised to \$18,000, \$12,000, and \$60,000 and in 2005, the maximum exemptions were raised to \$60,000, \$24,000, and \$120,000.

One of our neighboring counties has already decided to take that next step in ensuring our veterans get the best services available. In 2022, Erie County raised their maximum exceptions to \$30,000, \$20,000, and \$100,000. Under state law, the maximum levels Monroe County can raise subsections (b) and (c) to are \$30,000 and \$150,000 respectively, and we seek to raise our exemption levels to that maximum allowable amount.

Utilizing this enabling legislation available to counties all across New York, we are looking to increase this under the current state law. This increase will allow Veterans of the past, present, and future to take advantage of this tax exemption. In a time where the worldwide pandemic has ended and normality has begun to set back in, anything and everything we can do to help our Veterans needs to be done.

Subject: Enacting a Local Law Entitled "Expanded Volunteer Firefighter and EMS Tax Exemption"

Honorable Legislators:

By Local Law No. 2 of 2022, Your Honorable Body adopted a new Article XV under Chapter 357 of the Monroe County Code that provided for a 10% exemption of assessed value of real property for voluntary firefighters and ambulance workers for all County, part County, and special district purposes. This action followed enabling legislation enacted by New York State under § 466-k of Real Property Tax Law. Since the passage of Local Law No. 2 of 2022, the State has enacted further enabling legislation allowing counties to extend that exemption to un-remarried spouses of volunteer firefighters or voluntary ambulance workers provided certain qualifications are met. These qualifications include: that the un-remarried spouse is certified by the agency, company, or department of which the decedent was a member; that the decedent had been an enrolled member for at least five years if killed in the line of duty or twenty years if they die of other causes; and that the decedent had been receiving the exemption prior to his or her death.

Volunteer firefighters and EMS technicians sacrifice not only time and safety for their communities, but sometimes even their lives in the line of duty. It is only right that should one die in the line of duty or after a lifetime of service, the survivors of such heroes receive the tax exemption that they earned through their volunteerism. Through this Local Law, Monroe County will be providing an additional form of thanks to the spouses of volunteer firefighters and EMS technicians. Despite the decline in the number of volunteer workers, those who continue to serve are dedicated and we must continue to find ways to provide our gratitude for their steadfast protection of our community.

The specific legislative actions required are:

1. Schedule and hold a public hearing.
2. Adopt the Local Law as attached.

The legislative action requested in this referral is not an "Action," as that term is defined in 6 NYCRR § 617.2(b), and is not subject to review under the State Environmental Quality Review Act.

This action will have no net impact on the revenues or expenditures of the current Monroe County budget.

We recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Acceptance of Maintenance Jurisdiction of Approximately .092 Acre of Right-of-Way for former New York State Highway (Route) No. 65, Town of Pittsford

Honorable Legislators:

I recommend that Your Honorable Body determine whether the transfer of maintenance jurisdiction of approximately .092 acre of right-of-way for former New York State Highway (Route) No. 65 in the Town of Pittsford from the New York State Department of Transportation may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

The transfer of maintenance jurisdiction of approximately .092 acre of right-of-way of former New York State Highway (Route) No. 65 in the Town of Pittsford has been preliminary classified as an Unlisted action. The SEQRA regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

1. Determine that the transfer of maintenance jurisdiction of approximately .092 acre of right-of-way for former New York State Highway (Route) No. 65 in the Town of Pittsford is an Unlisted action.
2. Make a determination of significance regarding the transfer of maintenance jurisdiction of approximately .092 acre of right-of-way for former New York State Highway (Route) No. 65 in the Town of Pittsford pursuant to 6 NYCRR § 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The action is for the jurisdictional transfer of the property and does not include the physical alteration nor disturbance of the property. Although Part 1 of the EAF indicates there are archaeological resources and wetlands exist in the area, the proposed action does not include physical alteration of the site and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for wetlands from state and federal regulatory bodies. Accordingly, It has been determined that no significant adverse environmental impacts from this action will occur.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Subject: Acceptance of a Grant from the Genesee Transportation Council for the Monroe County High Accident Location Program

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the Genesee Transportation Council in the amount of \$36,000 for the Monroe County High Accident Location Program for the period of April 1, 2023 through March 31, 2024.

The Monroe County High Accident Location Program consists of a detailed analysis of each location identified as a Priority Investigation Location, identifying and evaluating potential countermeasures, and developing specific safety recommendations. Both the County and City road network are included in this program. Locations, if not recently studied for some other purpose, are analyzed to determine if there are any accident patterns, how persistent they are, what may have caused the accidents, and what countermeasures may be appropriate to improve safety at the location. This is an active program for Monroe County to monitor the safety performance of the road network.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to accept a \$36,000 grant from, and to execute a contract and any amendments thereto with, the Genesee Transportation Council for the Monroe County High Accident Location Program for the period of April 1, 2023 through March 31, 2024.
2. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.

3. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

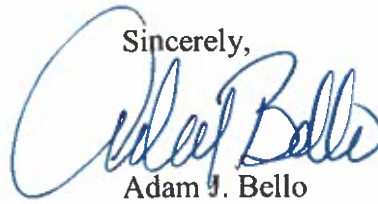

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(24) (“information collection including basic data collection and research, water quality and pollution studies, traffic counts, engineering studies, surveys, subsurface investigations, and soil studies that do not commit the agency to undertake, fund or approve any Type I or Unlisted action”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for this grant is included in the 2023 operating budget of the Department of Transportation, road fund 9002, funds center 8004010000, Traffic Studies.

This grant is 100% funded by the Genesee Transportation Council. No net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Subject: Authorize Contracts with Hunt Engineers, Architects, Land Surveyors and Landscape Architects, D.P.C. and Marathon Engineering & Surveying of Rochester, D.P.C. for General Engineering Term Services

Honorable Legislators:

I recommend that Your Honorable Body authorize contracts with Hunt Engineers, Architects, Land Surveyors and Landscape Architects, D.P.C. and Marathon Engineering & Surveying of Rochester, D.P.C. in an annual amount not to exceed \$200,000 each for general engineering term services for the period of May 1, 2023 through April 30, 2024, with the option to renew for two (2) additional one-year extensions, with escalation for the extension to be limited to an amount equal to the increase in the previous year's Consumer Price Index (U.S. City Average CPI-U from the Bureau of Labor Statistics).

The scope of services generally consists of providing consultation, design, survey, and mapping and construction inspection on an as-needed basis concerning upcoming signal, highway, bridge, or culvert projects scheduled for construction as part of the Department of Transportation's highway major maintenance, capital culvert replacement program, traffic engineering, and spot improvements program. The services will be used for design of projects to improve the condition of road surfaces, drainage improvements, including highway culverts, and increased safety by improving traffic signals, highway alignment, profile, and sight distance. The Department of Transportation does not routinely conduct in-house design and would utilize these services as an extension of its staff on an as-needed basis.

A request for proposals was issued for these services with Hunt Engineers, Architects, Land Surveyors and Landscape Architects, D.P.C. and Marathon Engineering & Surveying of Rochester, D.P.C. selected as the most qualified to provide these services.

The specific legislative action required is to authorize the County Executive, or his designee, to execute contracts, and any amendments thereto, with Hunt Engineers, Architects, Land Surveyors and Landscape Architects, D.P.C., 4 Commercial Street, Suite 300, Rochester, New York 14614 and Marathon Engineering & Surveying of Rochester, D.P.C., 39 Cascade Dr., Rochester, New York 14614, for general engineering term services in an annual amount not to exceed \$200,000 each for the period of May 1, 2023 through April 30, 2024, with the option to renew for two (2) additional one-year extensions, with escalation for the extension to be limited to an amount equal to the increase in the previous year's Consumer Price Index (U.S. City Average CPI-U from the Bureau of Labor Statistics).

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(18) (“information collection including basic data collection and research, water quality and pollution studies, traffic counts, engineering studies, surveys, subsurface investigations, and soil studies that do not commit the agency to undertake, fund or approve any Type I or Unlisted action”) and (27) (“conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract, consistent with authorized uses, is included in various capital funds and any future capital fund(s) created for the same intended purpose, and is also included in the operating budget of the Department of Transportation, road fund 9002, funds center 8002040000, Road Maintenance and road fund 9002, funds center 8002050000, Consolidated Highway Improvement Project (CHIPS). No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Hunt Engineers, Architects, Land Surveyors and Landscape Architects, DPC nor Marathon Engineering of Rochester, P.C. nor any of their principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firms are:

Christopher J. Bond, CEO/President

Greg J. Barr, Vice President

Dean C. Hackett, Vice President

Subject: Erroneous Assessment - Refund

Honorable Legislators:

I recommend that Your Honorable Body approve the refund and levy of a change of assessment due to a clerical error. After a review by the Monroe County Water Authority and Monroe County Pure Waters it was determined the property had an underground water leak. This resulted in an incorrect Pure Waters charge in the Town of Penfield as per the attached list prepared by the Department of Finance, Real Property Tax Services.

The refund is requested because the incorrect assessment was used on the tax roll.

No additional net County support is required in the current Monroe County Budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Subject: Acceptance of a Grant from the Oswego County Soil and Water Conservation District for the Water Quality Program and Authorize a Contract with the Monroe County Soil and Water Conservation District

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the Oswego County Soil and Water Conservation District in the amount of \$97,200 for the period of April 1, 2023 through December 31, 2024 for the Water Quality Program and authorize a contract with the Monroe County Soil and Water Conservation District in an amount not to exceed \$77,600 for the completion of water quality projects for the period of April 1, 2023 through December 31, 2024.

The purpose of this grant is to assist counties that are members of the Finger Lakes-Lake Ontario Watershed Protection Alliance ("FL-LOWPA") in funding programs to improve water quality. Oswego County Soil & Water Conservation District is the sponsor organization for FL-LOWPA, responsible for the administration of this grant. In Monroe County, program components will include planning, education, and implementation of individual projects to improve water quality. The Monroe County Soil and Water Conservation District will utilize a portion of the grant (\$77,600) to provide storm water management consulting and project management services to identify and implement water quality improvement projects such as stream bank erosion and shoreline stabilization in Monroe County and serve as the program manager for the New York State Watercraft Steward Program to control invasive species in Monroe County. A portion of the grant (\$19,600) will be used by Monroe County to undertake water quality programs including the United States Geological Survey Cooperative Agreement for stream monitoring. The County has received this program specific grant for over two decades.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to accept a \$97,200 grant from, and to execute a contract and any amendments thereto with, the Oswego County Soil and Water Conservation District for the Water Quality Program for the period of April 1, 2023 through December 31, 2024.
2. Amend the 2023 operating budget of the Department of Environmental Services by appropriating the sum of \$97,200 into pure waters fund 9307, funds center 8572020100, Pure Waters Industrial Waste.

5. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and (27) (“conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action”) and is not subject to further review under the State Environmental Quality Review Act.

This grant is 100% funded by the Oswego County Soil and Water Conservation District. No net County support is required in the current Monroe County budget.

The Monroe County Soil and Water Conservation District is a not-for-profit agency, and the records in the Office of the Monroe County Treasury have indicated that it does not owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Monroe County is undertaking a project at Innovative Field so the Rochester Red Wings baseball team will remain compliant with Major Baseball League Baseball (MLB) standards. The project involves improvements and modifications of facility elements (approximately 11,000 sq.-ft) that include the construction of a new Batting Building, and additions to existing buildings. The proposed work will minimize any ground disturbance since it will be constructed over existing pavement and sidewalk area, and over an existing buried water utility. The relocated utility will be constructed under the pavement of an existing parking lot.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Subject: Authorize a Contract with Steve General Contractor, Inc. for Construction Services for the Innovative Field Home Clubhouse Renovation, Batting Building, and Site Upgrades Project

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Steve General Contractor, Inc. in the amount of \$6,765,000 for construction services for the Innovative Field Home Clubhouse Renovation, Batting Building and Site Upgrades Project.

The Rochester Red Wings received notification from Major League Baseball ("MLB") that Innovative Field (formerly Frontier Field) is required to be in full compliance with all new MLB standards by April 1, 2025 or risk losing their approval to conduct baseball at a professional level. Your Honorable Body, through Resolution 453 of 2021, authorized financing in the amount of \$12,000,000 for the MLB Requirements Project. Improvements and modifications of facility elements include stadium security, media facilities, home and visiting club facilities, additional team facilities, playing field features, and maintenance items. These improvements and modifications are being completed in a phased approach. Phase 1 is complete, which involved outfield padding replacements and visitor clubhouse renovations. Phase 2 will involve home clubhouse renovations, construction of a new batting building, and site upgrades (new gate and fencing, parking improvements, and utility work). Phase 2 is scheduled to be complete by August 2024.

The following bids were received on March 16, 2023:

Steve General Contractor, Inc.	\$6,765,000
Holdsworth Klimowski Construction, LLC	\$7,411,000
Javen Construction Co., Inc.	\$7,504,000
LeChase Construction Services, LLC	\$7,974,000

The bids have been reviewed and Steve General Contractor, Inc. has been determined to be the lowest responsible bidder pursuant to General Municipal Law §103

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with Steve General Contractor, Inc. in the amount of \$6,765,000 for construction services for the Innovative Field Home Clubhouse Renovation, Batting Building, and Site Upgrades Project, and any amendments necessary to complete the project within the total capital fund(s) appropriation.

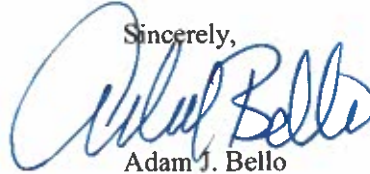

The provisions of the New York State Environmental Quality Review Act shall be complied with prior to Your Honorable Body undertaking, funding, or approving the action requested in this referral.

Funding for this project, consistent with authorized uses, is included in capital fund 2004 and any capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Steve General Contractors, Inc., nor its principal officer, David Vasciannie, President, owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Construction of a Synthetic Turf Pitch and Putt Practice Area at Genesee Valley Park

Honorable Legislators:

I recommend that Your Honorable Body determine whether the construction of a Synthetic Turf Pitch and Putt Practice Area may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project, which includes the construction of an artificial turf, entry-level golf practice area for individuals with increased barriers to accessing the sport of golf, has been preliminarily classified as an Unlisted Action. **Short Environmental Assessment Form
 Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The existing location at Genesee Valley Park is gently graded with well established turf, mowed and maintained as a golf course. This project would see earthen disturbances of less than 0.75 acres, grading and contouring subsoils and then installing the synthetic golf turf atop of that freshly graded material. Erosion and sediment controls will be utilized as needed during construction to ensure that sediment remains on site and erosion is mitigated. As such, there is no significant impact to land anticipated.

The Environmental Assessment reports that the Project is located within the 100 foot buffer of NYS-DEC Wetland RH-3. Current wetland delineations of this location do not indicate that wetlands are present, however to ensure coordination with NYS-DEC a wetland delineation has been performed and is currently being reviewed. The intent of the project will only modify the existing mowed and maintained turf areas and not encroach into any regulated areas of Wetland RH-3. As such, there is no significant impact to water anticipated.

The Project is located within the 100 year floodplain of the Genesee River, however as the Project will reconstruct existing porous turfed areas maintained as golf course with a porous synthetic turfed area within the same profile. As there is no change to existing uses, there is no significant impact to flooding anticipated.

In 1986, the City of Rochester designated the area as a critical environmental area, noting that it is a environmentally sensitive area. The NYS-DEC Environmental Resource Mapper was reviewed and no threatened or endanger species were mapped within the project area. As a result, no significant impacts to flora and fauna are anticipated.

There are two remediation sites within 2000 ft of the proposed project, Rochester Fire Academy and Kozel Structural Steel and Fabrication. As the project would not impact these remediation sites, no significant impact is noted.

The Project is in keeping with the current uses and aesthetics of the current golf course and thus there is no anticipated impact on aesthetics.

While Genesee Valley Park is an eligible national registrar location, the Project is located in an area which the Resource Mapper does not highlight as a sensitive location and further the current and future uses will remain golf course focused. As a result, no significant impacts to archaeological resources are anticipated.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The existing location at Genesee Valley Park is gently graded with well established turf, mowed and maintained as a golf course. This project would see earthen disturbances of less than 0.75 acres, grading and contouring subsoils and then installing the synthetic golf turf atop of that freshly graded material. Erosion and sediment controls will be utilized as needed during construction to ensure that sediment remains on site and erosion is mitigated. As such, there is no significant impact to land anticipated.

The Environmental Assessment reports that the Project is located within the 100 foot buffer of NYS-DEC Wetland RH-3. Current wetland delineations of this location do not indicate that wetlands are present, however to ensure coordination with NYS-DEC a wetland delineation has been performed and is currently being reviewed. The intent of the project will only modify the existing mowed and maintained turf areas and not encroach into any regulated areas of Wetland RH-3. As such, there is no significant impact to water anticipated.

The Project is located within the 100 year floodplain of the Genesee River, however as the Project will reconstruct existing porous turfed areas maintained as golf course with a porous synthetic turfed area within the same profile. As there is no change to existing uses, there is no significant impact to flooding anticipated.

In 1988, the City of Rochester designated the area as a critical environmental area, noting that it is a environmentally sensitive area. The NYS-DEC Environmental Resource Mapper was reviewed and no threatened or endanger species were mapped within the project area. As a result, no significant impacts to flora and fauna are anticipated.

There are two remediation sites within 2000 ft of the proposed project, Rochester Fire Academy and Kozel Structural Steel and Fabrication. As the project would not impact these remediation sites, no significant impact is noted.

The Project is in keeping with the current uses and aesthetics of the current golf course and thus there is no anticipated impact on aesthetics.

While Genesee Valley Park is an eligible national registrar location, the Project is located in an area which the Resource Mapper does not highlight as a sensitive location and further the current and future uses will remain golf course focused. As a result, no significant impacts to archaeological resources are anticipated.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Subject: Amend the 2023-2028 Capital Improvement Program and the 2023 Capital Budget to Add a Project Entitled "Synthetic Turf Pitch and Putt Practice Area at Genesee Valley Park;" Authorize Financing for the Project; and Accept a Gift from PGA Foundation, Inc.

Honorable Legislators:

I recommend that Your Honorable Body amend the 2023-2028 Capital Improvement Program and the 2023 Capital Budget to add a project entitled "Synthetic Turf Pitch and Putt Practice Area at Genesee Valley Park" in the amount of \$500,000; authorize financing for the project in the amount of \$500,000; and accept a gift from PGA Foundation, Inc. (d.b.a. "PGA REACH") of at least \$250,000 to help fund this project.

PGA REACH, the charitable giving arm of the Professional Golfers' Association of America, through its "A Place to Play" program, targets charitable giving towards improvements at municipal golf courses and public parks in areas where major golf tournaments are held. In conjunction with Monroe County and the Oak Hill Country Club hosting the PGA Championship this year, the PGA sought to help fund a lasting improvement in the area through its foundation.

This synthetic turf "pitch and putt" area will be available for the use of organized groups seeking to provide instruction to beginners who face additional barriers to accessing the sport of golf. This includes such groups as disadvantaged youth, people with disabilities, and veterans. The "First Tee" program, which already operates instructional programming under a permit agreement with Monroe County at Genesee Valley Park, will be a natural user of this new facility. In addition, certified PGA professionals are required to earn a certain number of credits each year by performing volunteer and community-based activities, and this facility could become a magnet for professionals from throughout the PGA's Western New York region seeking to run programs to meet their credit requirements. The total estimated cost of this project is \$500,000.

The specific legislative actions required are:

1. Amend the 2023-2028 Capital Improvement Program to add a project entitled “Synthetic Turf Pitch and Putt Practice Area at Genesee Valley Park” in the amount of \$500,000.
2. Amend the 2023 Capital Budget to add a project entitled “Synthetic Turf Pitch and Putt Practice Area at Genesee Valley Park” in the amount of \$500,000.
3. Authorize financing for the project entitled “Synthetic Turf Pitch and Putt Practice Area at Genesee Valley Park” in the amount of \$500,000.
4. Authorize the County Executive, or his designee, to accept a gift of at least \$250,000 in funding for the project, and to execute a contract, and any amendments thereto, with PGA Foundation, Inc.

The provisions of the New York State Environmental Quality Review Act shall be complied with prior to Your Honorable Body undertaking, funding, or approving the action requested in this referral.

Funding for this project, consistent with authorized uses, will be included in the capital fund to be created and in any other capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Subject: Home Rule Message for Senate Bill No. S.6149-A Entitled "AN ACT to amend the tax law, in relation to extending the authorization for the county of Monroe to impose certain sales and compensating use taxes"

Honorable Legislators:

I recommend that Your Honorable Body adopt a Home Rule Message in regard to the above bill which will amend Section 1210 of the Tax Law in relation to extending the period for the additional 1% County of Monroe sales tax rate and provide for the distribution of the additional 1% to the County of Monroe, the City of Rochester, and the various towns, villages and suburban school districts. Specifically, the proposed legislation extends the expiration date for the additional 1% County of Monroe sales tax from December 1, 2023 to November 30, 2025.

The net collections derived from the imposition of the additional 1% Monroe County sales tax for the period from December 1, 2023 to November 30, 2025 shall be allocated as follows (this distribution remains unchanged from the current legislation):

<u>Jurisdiction</u>	<u>Percentage</u>
Suburban School Districts	5.00%
Towns	3.00%
Villages	1.25%
County of Monroe and City of Rochester	90.75%

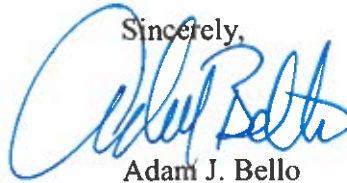

The amount allocated to the County of Monroe and the City of Rochester shall be distributed and allocated to each so that the combined total distribution and allocation to each from the sales tax revenues from the original 3% and the additional 1% shall result in the same total amount being distributed and allocated to the County of Monroe and the City of Rochester. This does not in any manner alter the sharing of the original 3%.

The specific legislative action required is to adopt a Home Rule Message for Senate Bill No. S.6149-A Entitled “AN ACT to amend the tax law, in relation to extending the authorization for the county of Monroe to impose certain sales and compensating use taxes.”

Adoption of this Home Rule Message will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter receive favorable action by Your Honorable Body.

Subject: Appropriate Unassigned Fund Balance to Provide Promotional Services Highlighting Regional Advantages and Authorize a Contract Amendment with Greater Rochester Visitors Association, Inc.

Honorable Legislators:

I recommend that Your Honorable Body appropriate unassigned fund balance in the amount of \$150,000 to provide promotional services for our County and authorize a contract amendment with Greater Rochester Visitors Association, Inc.

We have the unique opportunity to connect with hundreds of thousands of visitors flocking to our community for events including the 2023 PGA Championship and the 2024 Total Solar Eclipse. The Greater Rochester Visitors Association, Inc., better known as Visit Rochester, is the official tourism promotion agency for Monroe County. Tourism is a significant economic driver in Monroe County and the greater Rochester region, with an economic impact of nearly \$1 billion, employing over 15,000 people and welcoming 1.5 million visitors every year.

In 2023, Visit Rochester has been providing promotional and marketing activities related to the upcoming PGA Championship at Oak Hill Country Club expected to have an estimated \$200 million economic impact to the region and a corresponding increase in Monroe County's sales tax and hotel/motel tax receipts. In addition, Visit Rochester has already been working with a consortium of organizations preparing the community for the April 8, 2024 Total Solar Eclipse. These two once-in-a-generation events have the potential to drive significant numbers of visitors to our community.

Visit Rochester will utilize these funds to help attract new visitors for these events, enhance the visitor experience through community welcome and engagement activities, expose and immerse visitors to the high-quality attractions to which our region is home. In the immediate term this funding will allow Visit Rochester to maximize and extend the economic value of hosting the PGA Championship, by engaging the PGA, its networking affiliates, and its fan base by promoting the region and all it has to offer once the Championship has concluded.
