RE: Memorializing the United States Congress to Adopt, and President Joe Biden to Sign, the Full Department of Homeland Security Reform Package to Reauthorize the National Flood Insurance Program (NFIP).

Honorable Legislators,

As Americans, we have an obligation to care for one another when tragedies strike. Recent natural disasters have brought this into sharp focus, and highlighted aspects where we can improve. Chief in our response to such disasters is the Federal Emergency Management Agency (FEMA). FEMA's ability to respond to, and repair American towns in the aftermath of disaster is dependent on its National Flood Insurance Program (NFIP). Ninety-five percent of flood insurance in the United States is provided by the NFIP, which draws its authority and appropriations from the United States Congress.

For the past seven years, the NFIP has lacked a multiyear authorization from Congress, and has instead been hamstrung by insufficient short-term extensions. A lack of long-term provisions erodes citizen confidence in the ability of the NFIP to provide effective relief if flooding occurs. In the short term, if a deal is not reached by Dec 20th 2024 the NFIP will lose the authority to issue new insurance policies. To solve both this short-term crisis, and address the long term needs of Americans, the NFIP needs a multiyear authorization to ensure competency in flood insurance for coming years. A continuous mandate provides the framework needed for improvements and expansion to the NFIP.

In April 2023, to encourage a multiyear authorization, the Department of Homeland Security submitted to Congressional Leaders, a paper containing seventeen legislative proposals aimed at reforming the NFIP through a multiyear deal. The core tenants of these proposals are: a sound financial framework to balance affordability and fiscal viability, a plan to reduce risk and disaster suffering through strengthening local floodplain management, a focus on building climate resilience for future emergencies, and an assurance that more Americans will be covered by affordable flood insurance.

The reforms presented by Homeland Security's proposals will make the NFIP a stronger, more fiscally responsible institution, capable of protecting more individuals from losing their homes permanently. FEMA provides life saving aid to Americans during disasters, but it also helps repair communities for years following these disasters; and it is for this reason we need the NFIP.

We urge you the United States Congress to adopt, and the President Joe Biden to sign into law, the multiyear reform package authorizing the National Flood Insurance Program to maintain and expand their programs and protect more American homes.

Subject: Memorializing New York State to Help Combat the Opioid Epidemic by Amending County Law § 677 and Providing Additional Reimbursement for Coroner and Medical Examiner Duties

Honorable Legislators:

The United States is facing a devastating and escalating overdose crisis, with opioid-related deaths surging from 49,860 in 2019 to 81,806 in 2022, according to the CDC. Both current and former U.S. Surgeons General have sounded the alarm, issuing advisories to address the worsening epidemic. Here in New York, the state's Prevention Agenda for 2019-2024 prioritizes preventing substance use disorder, yet opioid-related deaths have continued to climb. Since 2015, New York has consistently ranked among the top five states in overdose-related deaths—a stark reminder of the urgency to act.

In 2022, New York reported 6,358 overdose-related deaths, translating to a mortality rate of 31.4 per 100,000, with Monroe County alone recording 333 fatalities. County Law § 677 requires county coroners and medical examiners to investigate unnatural deaths, including overdoses, and mandates that autopsy and toxicology reports be shared with authorities such as district attorneys, the Commissioner of Health, and the Commissioner of Mental Health. Yet, this law lacks a provision allowing local health departments direct access to such critical information, despite their frontline role in addressing public health crises.

Local health departments depend on real-time, localized data to track overdose trends and craft targeted, life-saving interventions. However, the inability to directly access these vital records under County Law § 677 hinders their capacity to respond promptly and effectively to the overdose crisis, delaying essential public health measures.

Recognizing this, the New York State Association of Counties (NYSAC) has urged both the Governor and the Legislature to amend County Law § 677 to formally designate local health officials as representatives of the State Commissioner of Health. This amendment would empower local health departments to access necessary data with proper oversight, enhancing their ability to tackle the crisis proactively. Furthermore, NYSAC has appealed to Governor Hochul to direct the Department of Health to provide additional reimbursement for the increasing duties of county coroners and medical examiners under County Law §§ 671 and 677, reducing the financial strain on local governments and

allowing them to allocate resources to other critical public health initiatives, including opioid education and prevention.

Taking action to combat the opioid crisis requires comprehensive and immediate solutions, including improved data-sharing mechanisms and adequate funding for coroners and medical examiners' offices statewide. Therefore, we urge you to join us in calling on the New York State Legislature to pass, and Governor Hochul to sign, critical amendments to County Law § 677 to empower our local health departments and help save lives.

**Subject: Memorializing Governor Kathy Hochul and the New York State Legislature
to Repeal the Advanced Clean Truck Rule**

Honorable Legislators:

In 2021, New York State adopted the Advanced Clean Truck rule, expanding on the Climate Leadership and Community Protection Act's (CLCPA) mandate to "reduce statewide greenhouse gas emissions by 40% by 2030." This rule aims to phase out gas- and diesel-fueled trucks, requiring a transition to zero-emission vehicles based on the notion that this will alleviate the "disproportionate impact" of emissions on disadvantaged communities. Under the rule, manufacturers in New York must increase the sale of zero-emission trucks annually, regardless of feasibility or current demand.

The implications of this mandate extend directly to highway departments and local governments across the State, imposing unsustainable costs on both state and local agencies. Without meaningful funding support, departments responsible for essential services—like road maintenance and snow removal—are expected to bear the substantial financial burden of purchasing, retrofitting, and maintaining zero-emission vehicles. These high costs, coupled with underfunding in our transportation system, place an unfair burden on taxpayers and stretch municipal budgets beyond capacity.

Beyond the direct costs to municipalities, the Advanced Clean Truck rule threatens to push truck manufacturers out of New York due to impractical regulatory demands. Starting in 2025, a set percentage of new trucks sold in New York must be zero-emission. However, the market for such trucks remains underdeveloped, and the current supply chain lacks the capacity to support this forced shift. Traditional trucks have a range of up to 600 miles on a single tank, while zero-emission models average just 200 miles per charge—a limitation that disrupts delivery schedules and supply lines. Furthermore, charging infrastructure is severely limited, particularly along essential routes like the New York State Thruway, and recharging times are unreasonably lengthy. For instance, a traditional diesel truck can travel from Rochester to Albany and back in under 10 hours, while an electric truck would require extended recharging,

overnight stays, and compliance with trucking regulations, ultimately doubling the trip time and cost.

Mandating this transition jeopardizes critical industries and services, threatening New York's economic vitality, hindering supply chain efficiency, and burdening residents with higher costs. The Advanced Clean Truck rule is an overreach that disregards both practical and economic realities, while placing the interests of out-of-touch climate policies above those of New Yorkers who depend on timely, affordable deliveries and accessible services.

Therefore, we urge you to join us in calling upon Governor Kathy Hochul and the New York State Legislature to repeal this burdensome and disruptive rule. Repealing the Advanced Clean Truck rule will protect our consumers, taxpayers, and businesses from the financial and logistical strain that this impractical mandate imposes.

**Subject: Memorializing United States Congress to Pass and President Joe Biden to Sign
House Bill H.R. 8915 “Education and Workforce Freedom Act”**

Honorable Legislators:

Millions of American families – over 16 million – rely on 529 savings accounts to invest in their children’s future, using these tax-advantaged accounts for a broad range of educational expenses, including tuition, fees, books, supplies, and student loan payments. Under the 2017 Trump Tax Cuts, the flexibility of 529 accounts expanded to include K-12 education. However, this vital provision was later stripped by Senate Democrats, denying families the full use of their hard-earned savings to support primary and secondary education.

In recent years, homeschooling has surged, with 3.7 million homeschooled students nationwide as of 2022, making it the fastest-growing form of education in America. Research from the National Home Education Research Institute shows homeschooled students often outperform their peers in traditional schools, and many of these families bear the cost without burdening public education budgets. In New York, homeschooling has nearly doubled since 2013, with Monroe County seeing a 60% increase in homeschool enrollment in the Rochester City School District alone since 2017. This choice saves taxpayers billions each year, while these families continue to pay school taxes for services they do not use.

In addition to supporting homeschooling, Monroe County is home to over 65 private schools, nearly 60% of which are religiously affiliated, as well as nine colleges and universities. Yet, New York State ranks among the highest in private school tuition costs, averaging \$21,708—far above the national average of \$6,670. While 32 other states have enacted programs allowing families to use part of their education funding for private or homeschooling expenses, New York has fallen behind, failing to offer parents this essential freedom.

The Education and Workforce Freedom Act addresses this gap by expanding the allowable uses of 529 savings to include private K-12 education, homeschooling expenses, postsecondary education costs, instructional materials, tutoring, and educational therapies for students with

disabilities. This bill also expands 529 accounts to cover expenses tied to recognized credential programs, testing fees, and continuing education requirements, supporting workforce development for students across a wide range of paths.

Families choosing alternative education save the government billions of dollars each year, and they deserve financial freedom to support their children's unique educational needs. Passage of the Education and Workforce Freedom Act will provide these families with a responsible, tax-advantaged way to invest in their children's education and workforce preparedness, while ensuring they can make the best choices for their futures.

Therefore, we urge you to join us in calling upon President Joe Biden and the U.S. Congress to pass this bipartisan legislation, restoring and expanding the freedom of school choice for American families.

Subject: Amend Resolution 167 of 2023 to Increase the Contracts with M/E Engineering, P.C. and Wendel WD Architecture, Engineering, Surveying & Landscape Architecture, P.C. for Energy Engineering Term Services

Honorable Legislators:

I recommend that Your Honorable Body amend Resolution 167 of 2023 to increase the contracts with M/E Engineering, P.C. and Wendel WD Architecture, Engineering, Surveying & Landscape Architecture, PC, from a total annual aggregate amount not to exceed \$200,000 to a total annual aggregate amount not to exceed \$400,000 for energy engineering term services for the period of June 1, 2024 through May 31, 2025, with the option to renew for one (1) additional one-year extension, with the escalation of the extension to be limited to an amount equal to the increase in the previous year's Consumer Price Index (U.S. City Average CPI-U from the Bureau of Labor Statistics).

Monroe County Department of Environmental Services ("DES") is responsible for managing energy-related projects at all of Monroe County's facilities and assets, including buildings, utilities, and the general infrastructure. The focus on energy conservation and increased reliability in energy infrastructure has created additional review by DES of projects such as power assessments at the Iola power plant. The current level of funding is insufficient for these additional projects.

The specific legislative action required is to amend Resolution 167 of 2023 to increase the contracts from a total annual aggregate amount not to exceed \$200,000 to a total annual aggregate amount not to exceed \$400,000 for energy engineering term services for the period of June 1, 2024 through May 31, 2025, with the option to renew for one (1) additional one-year extension, with the escalation of the extension to be limited to an amount equal to the increase in the previous year's Consumer Price Index (U.S. City Average CPI-U from the Bureau of Labor Statistics).

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(24) (“information collection including basic data collection and research, water quality and pollution studies, traffic counts, engineering studies, surveys, subsurface investigations and soils studies that do not commit the agency to undertake, fund or approve any Type I or Unlisted action”); (26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”); and (27) (“conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for these contracts, consistent with authorized uses, is included in various capital fund(s) and in the 2024 operating budget of the Department of Environmental Services, general fund 9001, funds center 8301010000, Engineering Administration and internal services fund 9020, funds center 8600010000 Building Operations, and will be requested in future years’ budgets. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

I recommend that Your Honorable Body authorize contracts with Arcadis of New York, Inc.; Day Engineering, P.C.; and MRB Group, Engineering, Architecture & Surveying, D.P.C. in a total annual aggregate amount not to exceed \$750,000 for wastewater engineering term services for the Gates-Chili-Ogden Sewer District, Northwest Quadrant Pure Waters District, Irondequoit Bay South Central Pure Waters District, and the Rochester Pure Waters District ("Districts") for the period of January 1, 2025 through December 31, 2025, with the option to renew for two (2) additional one-year extensions, with escalations for the extensions to be limited to an amount equal to the increase in the previous year's Consumer Price Index (CPI) U.S. City Average CPI-U from the Bureau of Labor Statistics.

The Districts are responsible for managing wastewater collection and treatment facilities in accordance with applicable municipal law, regulatory requirements, and industry standards. These facilities include more than one thousand (1,000) miles of collector sewers, one hundred miles (100) miles of interceptor sewers, thirty (30) miles of Combined Sewer Overflow Abatement Program (CSOAP) tunnels and six (6) major CSOAP control structures, sixty (62) pump stations, and two (2) water resource recovery facilities; the Frank E. Subject: Authorizing a License Agreement with Bella Events Group for the 2025 Rochester Pride Festival

Honorable Legislators:

I recommend that Your Honorable Body authorize a License Agreement with Bella Events Group for the 2025 Rochester Pride Festival to be held at the festival grounds at Beikirch Park, formerly Highland Park South, on July 19, 2025.

The Rochester Pride Festival has been held as a celebration of and for our community's LGBTQ+ members after Rochester's Pride Parade since at least 1996. Bella Events Group is organizing this festival as a ticketed, paid admission event in a County park. Under the County Code, this commercial use of County park facilities requires the approval of the County Legislature.

Rochester Pride events have a long history of being held in July, instead of with most national events in June, dating back to the original July 1971 "Gay-In" picnic at Genesee Valley Park. Details of the 2025 Pride Festival are still being developed, but will include food and drink vendors, booths for community organizations and businesses, and live music.

The specific legislative action required is to authorize a license agreement with Bella Events Group for the 2025 Rochester Pride Festival to be held at the festival grounds at Beikirch Park, formerly Highland Park South, on July 19, 2025.

This action is a Type II Action pursuant to 6 NYCRR 617.5(c)(21) ("minor temporary uses of land having negligible or no permanent impact on the environment") and is not subject to further review under the State Environmental Quality Review Act.

This license agreement is revenue generating and no net County support is required in the current Monroe County budget.

The records of the Office of the Monroe County Treasury have indicated that neither Bella Events Group, nor its principal officer, Jenna Knauf, owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Subject: Authorize an Intermunicipal Agreement with the Town of Parma for the Establishment and Operation of an Off-Leash Dog Park

Honorable Legislators:

I recommend that Your Honorable Body authorize an intermunicipal agreement with the Town of Parma for the Town to operate its dog park in conformity with Monroe County Parks Law and to authorize reciprocal benefits for Monroe County and Town of Parma Off-Leash Dog Areas.

By Local Law 11 of 2003, Your Honorable Body established designated off-leash dog areas in Monroe County Parks. These “dog parks” have been established in Ellison Park, Greece Canal Park, and by similar intermunicipal agreements, in the Town of Henrietta Look Up Park, the Town of Sweden Park, and the Town of Pittsford Park with increasing popularity.

Through the intermunicipal agreement, the Town will comply with Monroe County’s off-leash area rules, regulations, and fees. The County will be responsible for all enrollment and membership management, including processing payments for all dog registrations, and will return a portion of the registration fee for each Parma resident back to the Town.

The specific legislative action required is to authorize the County Executive, or his designee, to enter into an intermunicipal agreement, and any amendments thereto, with the Town of Parma to operate a Dog Park in conformity with Monroe County Parks Law, authorize reciprocal benefits for the use of Monroe County and Town of Parma Off-Leash Dog Areas, and to authorize payments to the Town of Parma for a portion of registration fees paid by Town of Parma residents.

This is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to review under the State Environmental Quality Review Act.

This contract is revenue generating and no additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committees for favorable action by Your Honorable Body.

It has been determined that Nurse-Family Partnership (National Service Office) is a sole-source provider for the NFP program services because the vendor has the exclusive rights to replicate the NFP program.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract and any amendments thereto with Nurse-Family Partnership (National Service Office), 1900 Grant Street, Suite 400, Denver, Colorado 80203 for support of the Nurse-Family Partnership program in an amount not to exceed \$55,968 for the period of January 1, 2025 through December 31, 2025.

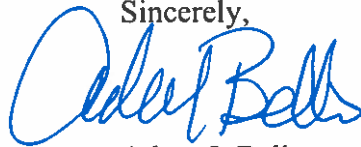

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract is included in the proposed 2025 operating budget of the Department of Public Health, general fund 9001, funds center 5803050000, Nurse-Family Partnership. No additional net County support is required in the current Monroe County budget.

Nurse-Family Partnership (National Service Office) is a not-for-profit entity, and the records in the Office of the Monroe County Treasury have indicated that it does not owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Subject: Authorize a Contract with the University of Rochester for Support of the Forensic Pathology Fellowship Program at the Monroe County Office of the Medical Examiner

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with the University of Rochester in an amount not to exceed \$85,000 for support of the Forensic Pathology Fellowship Program at the Monroe County Office of the Medical Examiner for the period of January 1, 2025 through December 31, 2025, with the option to renew for two (2) additional one-year terms, with each additional term in an amount not to exceed \$85,000.

Under the terms of this contract, the Office of the Medical Examiner ("OME") will provide a one-year fellowship term for one physician seeking board examination eligibility. During the rotation, the knowledge and skills of the fellow, selected by the OME from candidates vetted by the University of Rochester and then maintained under the University of Rochester Human Resources and Graduate Medical Education Departments, will be enhanced and expanded through this additional education in the specialized field of forensic medicine. The fellowship will provide opportunities to learn, in part, about the Coroner and Medical Examiner system in New York State, the principles of death certification, and the role of forensic disciplines. Additionally, at the completion of the fellowship program, the fellow would be eligible for the Forensic Pathology Board Certification Examination. The fellowship program is twelve (12) months in length, with the actual fellowship term being July 1 through June 30. This contract will address the second half of the current fellowship year ending June 30, 2025 and provide for the first half of a new fellowship year that will begin July 1, 2025.

To establish the fellowship, OME must partner with an institution that offers Graduate Medical Education Programs in the closely related field of Medical Clinical Pathology. It has been determined that the University of Rochester is a sole source provider for the Forensic Pathology Fellowship Program.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with the University of Rochester, 601 Elmwood Avenue, Rochester, New York 14642, for support of the Forensic Pathology Fellowship Program at the Monroe County Office of the Medical Examiner in an amount not to exceed \$85,000 for the period of January 1, 2025 through December 31, 2025, with the option to renew for two (2) additional one-year terms, with each additional term in an amount not to exceed \$85,000.

No additional net County support is required in the current Monroe County budget.

The University of Rochester is a not-for-profit entity, and the records in the Office of the Monroe County Treasury have indicated that it does not owe any delinquent Monroe County property taxes.

Subject: Authorize an Intermunicipal Agreement with the Town of Perinton for the Turk Hill Road Sidewalk Extension Project Partially Funded through Monroe County; Appropriate Committed Fund Balance; and Authorize an Interfund Transfer

Honorable Legislators:

We recommend that Your Honorable Body authorize an intermunicipal agreement with the Town of Perinton (the "Town") for the Turk Hill Road Sidewalk Extension Project, partially funded through Monroe County in an amount not to exceed \$307,000; appropriate committed fund balance; and authorize an interfund transfer.

The Town has submitted a Monroe County Municipal Sidewalk Funding Application to install approximately 2600 linear feet of sidewalk along Turk Hill Road between Summit Street and the Perinton Community Center/Town Hall, (the "Project"). The total construction costs are anticipated to be approximately \$614,000. Through the intermunicipal agreement, the County will reimburse the Town in an amount not to exceed \$307,000 for construction expenses. The \$307,000 of the County's share will be paid for by the appropriation and transfer of committed fund balance pursuant to Resolution 197 of 2023.

The Project will connect existing sidewalk networks serving this area and provide a continuous path between residential neighborhoods, town parks, schools, the town community center/town hall and various retail destinations. Such connections would further the goals of the Town of Perinton 2016 Pedestrian and Bicycle Master Plan as well as the County's Countywide Active Transportation Plan to fill gaps within the existing sidewalk network.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to execute an intermunicipal agreement, and any amendments thereto, with the Town of Perinton in an amount not to exceed \$307,000 for the Turk Hill Road Sidewalk Extension Project.

Subject: Authorize Intermunicipal Agreements with Seneca County and Wayne County for the Detention of Seneca County and Wayne County Incarcerated Individuals in the Monroe County Jail

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K. Baxter.

I recommend that Your Honorable Body authorize intermunicipal agreements with Seneca County and Wayne County, permitting them to use the Monroe County Jail for the detention of incarcerated individuals and to pay the County at 100% of the per-diem rate set forth in the U.S. Marshal Service's Detention Services Intergovernmental Agreement with the County, which is currently \$122.13 per non-arraigned detainee and arrestee, for the period of February 1, 2024 through January 30, 2025, with the option to renew for three (3) additional one-year terms.

The Seneca County Sheriff's Office has staffing issues and are unable to provide adequate care and supervision of their female incarcerated individuals and would like to utilize the services of the Monroe County Jail. The Wayne County Sheriff's Office is in the process of accreditation and desires a "back-up" plan to be in effect in the event of an abrupt closing of their jail facility. The agreement with Wayne County will assist them in their accreditation process and provide a method of reimbursement in the event incarcerated persons from that facility are ever housed in the Monroe County Jail. The amount received from these counties will reimburse the Monroe County for the costs of providing these services. New York Correction Law §504 authorizes the use of Substitute Jail Orders to transfer the care and custody of incarcerated individuals from one county jail to another.

The specific legislative action required is to authorize the County Executive, or his designee, to execute intermunicipal agreements, and any amendments thereto, with Seneca County and Wayne County permitting them to use the Monroe County Jail for the detention of incarcerated individuals and to pay the County at 100% of the rate set forth in the U.S. Marshal Service's Detention Services Intergovernmental Agreement with the County, which is currently \$122.13 per non-arraigned detainee and arrestee, for the period of February 1, 2024 through January 30, 2025, with the option to renew for three (3) additional one-year terms.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c) (26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act.

This intermunicipal agreement is revenue generating. No net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Authorize an Interagency Agreement with the Monroe County Department of Planning and Development for Monroe County's HOME Investment Partnerships Program and Authorize an Appropriation Transfer

Honorable Legislators:

I recommend that Your Honorable Body authorize an interagency agreement with the Monroe County Department of Planning and Development in the estimated amount of \$5,100,000, together with any additional State and Local Fiscal Recovery Funds that remain unobligated prior to December 31, 2024, for Monroe County's HOME Investment Partnerships Program for a term to commence on or after December 1, 2024 and terminate on or before December 31, 2026.

To help address the affordable housing shortage crisis, the US Treasury identified presumptively eligible uses of State and Local Fiscal Recovery Funds to support affordable housing investments. One such eligible use is to fund projects that meet certain core requirements of federal housing programs, including the HOME Investment Partnerships Program. As Your Honorable Body is aware, the Monroe County Department of Planning and Development oversees the Annual Action Plan process and administers the following HOME Investment Partnerships programs in Monroe County: (i) Home Improvement Program, which provides income-eligible, owner-occupied homeowners a grant for eligible home repairs including structural (roof, foundation, windows, exterior paint or siding), major systems (plumbing, heating, or electrical), and accessibility accommodations (ramps, lifts, doorways, bathrooms); (ii) the First-time Homebuyer program, which provides closing costs and down payments for income-eligible, first time homebuyers purchasing their first home in Monroe County; (iii) Rental Housing Development support, which provides funding to construct and rehabilitate affordable rental housing; and (iv) Acquisition Rehab Resale, through which property is acquired, rehabilitated, and resold to income-eligible, first time homebuyers. Through this interagency agreement, the County will supplement the U.S. Department of Housing and Urban Development's HOME Investment Partnerships Program funding to significantly increase its impact in Monroe County.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to execute an interagency agreement with the Monroe County Department of Planning and Development in the estimated amount of \$5,100,000, together with any additional State and Local Fiscal Recovery Funds that remain unobligated prior to December 31, 2024, for Monroe County's HOME Investment Partnerships Program for a term to commence on or after December 1, 2024 and terminate on or before December 31, 2026.
2. Authorize an appropriation transfer from the Department of Finance, general fund 9301, funds center 1403930104, Health & Welfare, and funds center 1403930103 Public Safety, to the Department of Planning, general fund 9301, funds center 1404010000, Community Development, in an amount not to exceed \$5,100,000.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(27) ("conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this agreement will be available in the 2024 operating budget of the Department of Planning, general fund 9301, funds center 1404010000, Community Development, once the appropriation transfer is approved. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Pursuant to Resolution 342 of 2022, Your Honorable Body authorized the following three Public Safety projects in a total amount not to exceed \$1,610,000: (1) Monroe County's Youth and Police Initiative, which brings together neighborhood teens with beat officers who patrol their streets; (2) Project JEDI, which focuses on recruitment and retainment of a diverse workforce within the Department of Public Safety; and (3) Family Reunification Crisis Centers, which will provide a venue for authorities to provide information to victims, coordinate access to support services, and facilitate the collection of information from families about the victims that can be used for victim identification.
