# Message from Sandra Doorley

Why do we celebrate Labor Day?

Labor Day began as trade unions and labor movements grew into strong forces meant to protect workers' rights in the late 19<sup>th</sup> century. Labor Day was recognized as a federal holiday in 1894, helping to legitimize the need for unions and worker protections in our country.

Fast-forward to today, we would not be where we are today without the support of unions over the years. I want to take this opportunity to thank the amazing staff who work in my office who you may not hear about as often.

I recognize the amazing and hardworking Assistant District Attorneys in many of my newsletters. That being said, there are many employees behind the scenes who are instrumental in our success. I am talking about our support staff and CSEA union employees.

Let me start with the secretaries and paralegals in the Monroe County District Attorney's Office. Our secretaries ensure that indictments are correct and grand jury risings go smoothly. They also are responsible for drafting subpoenas, body orders, and many case-related documents for their attorneys. Paralegals are the gatekeepers to our case management. They open and close cases, and assist attorneys with their demanding discovery requirements. These are just a few of our support staff's many job responsibilities, but clearly, our office would not function without them! Other support staff employees who are completely necessary include our data entry staff and receptionist. Thank you for your hard work that keeps our office running!

The next behind-the-scene group I would like to highlight is our Monroe County District Attorney Investigators! I essentially have a police force housed right here in the District Attorney's Office. Led by Chief Investigator CJ Dominic, these investigators are retired police officers who work diligently with the attorneys on their cases. The investigators are always on their feet, serving subpoenas and tracking down witnesses, but also help in countless other matters. Another group of employees who work closely with our investigators and attorneys is our Messenger and our Digital Services Coordinators and Technicians. These employees ensure that we are trial and discovery ready for everything from body-worn cameras to video compilations. Thank you to my amazing team!

# Homicide Update

So far in 2023:

City of Rochester Total: 39

Monroe County Total: 42

Next up are our excellent victim advocates. If you or a loved one has ever been a victim or witness in the criminal justice system, it can be confusing and intimidating. Thankfully, we have an incredible staff of victim advocates led by Carrie Noble. These advocates are experienced, empathetic, and have the ability to diffuse high-emotional situations. I am proud to employ these great advocates who are here for our victims.

A group of employees who I definitely need to recognize are our grand jury stenographers! While the public may not know what a grand jury stenographer does, I can assure you that our criminal justice system would not function without them. The critical grand jury process would not be possible without the hard-working men and women who capture these important minutes. A special thank you to our grand jury stenographers.

I wish I could individually thank all of our employees every day! I only captured a small portion of the responsibilities of our support staff. On this Labor Day, the Assistant District Attorneys and I would like to thank you for keeping our office running!

Sandra
