Existing Approach Roadway

Existing Bridge

956 REDMAN ROAD

# Replacement of Redman Road Bridge over Yanty Creek

## Town of Hamlin

### Monroe County, New York

SIN 06-236-338

### Project Description

The proposed project will replace the existing bridge with a new adjacent prestressed concrete slab unit bridge. The new bridge will consist of a 53'-6" span and be founded on concrete abutments with U-wingwalls.

The bridge will accommodate two 11-foot wide travel lanes with 6-foot wide shoulders and include approximately 125 feet of approach roadway reconstruction on each approach.

### Traffic During Construction

During construction, Redman Road will be closed to through traffic at the bridge. Access to properties on Redman Road will be maintained at all times via an offsite detour. The detour route will be Morton Road, County Line Road (NYS Route 272), and Moscow Road. The road will be open to local traffic up to the bridge.

### Right-Of-Way

The acquisition of easements along portions of the properties adjacent to the project will be required. The easements will be needed for construction of the bridge and future maintenance of the bridge. Affected property owners will be contacted during final design.

### Schedule

Project Bidding and Award:	Fall 2024
Construction Start:	Spring 2025
Construction Complete	Fall 2025

### Cost

Construction cost is estimated to be \$1,545,000 and will be funded with through Monroe County's 2024-2029 Capital Improvement Plan.

### Questions or Comments?

Written comments for this project will be received by Monroe County until June 12, 2024. Please submit comments to:
