* See paragraph (e)(1) of this section pertaining to annual fees

(e) The following regulations pertaining to the collections of fees shall apply in all jurisdictions:

(1) A fee shall be charged once annually unless a device is ordered to be repaired and must be retested. An additional fee is permitted for that retest.

(2) An additional fee may be charged for a retest if during the course of a year a device is found to be in error and ordered repaired.

(3) The initial inspection fee on new or reconditioned devices shall be paid by the user.

(4) Recalibration fee on bulk milk tanks shall be paid by the party requesting the recalibration.

(5) All fees must be paid within 30 days, except that in municipalities having a population of more than two million inhabitants, all fees must be paid within 10 days.

(6) No fee shall be charged when using privately owned calibrated equipment to perform any testing.

(7) A fee may be charged when using State-owned calibrated equipment to perform any testing unless the State is assessing a fee.

(8) No fee shall be paid directly to any weights and measures official unless authorized by the State Director of Weights and Measures on the basis of unusual conditions or hardship.

(9) All fees shall be paid to the designated municipal fiscal officer who shall keep an accurate record and submit an annual report to the commissioner on a form prescribed by the commissioner.

Municipalities may charge a fee for retesting a device after the security seal has been broken and undergone repairs or calibration. In order for weights and measures to confirm that these devices are correct and accurate, retests are required. Therefore, fees may be charged for retesting these devices.
